## *2025 Spring/Summer Copperhead League*

\*\*\*\*\*

For the thirteenth year, the Copperhead League held its spring/summer league. Extreme temperatures made the last three to four weeks of the League Schedule brutal. Once again, the League provided an opportunity for pitchers to get in some practice under tournament-like conditions between the NC-HPA tournaments held on Saturdays. It also provided a great setting for new pitchers to try different flip and turn deliveries and discover one that would work for them. Ringer percentages established by new pitchers during the league play could be used for their first tournament instead of having to qualify on the day of the tournament. We did indeed have a new pitcher to join our ranks and we hope he is HOOKED! League statistics and achievements for the League participants are shown below.
