

SPECIFICATION

Discgo Charger is the first of its kind, a portable mobile phone charger designed for hospitality. Users can charge their phones without being tethered to a wall outlet or charging station. Discgo brings a charge to the phone, allowing users to move freely around any venue. Now your guests can charge up while continuing to eat in your restaurant, meeting clients in the lobby, attending session in the conference space or enjoying themselves in the entertainment area.

- Great revenue opportunity, you can provide power in flexible environments with no need to plug in.
- The free Discgo app lets potential customers find your venue.
- The Discgo Charger can be easily branded and customized through the twisted cap,
- A robust mobile phone charger that allows users to keep their phones on them and charging while carrying on with their usual activities. No stress of a dead battery!
- Each fully charged puck can charge up to 5 phones from 0 - 100% before the battery runs out.
- Brandable and customizable.
- Water resistant, making it ideal for pool side charging.

SPECIFICATION

Features & Benefits

- A robust mobile phone charger that allows users to keep their phones on them and charging while carrying on with their usual activities. No stress of a dead battery!
- Each Discgo Charging Puck has 2 unique cable ports for charging two phones simultaneously.
- Each fully charged puck can charge up to 5 phones from 0 - 100% before the battery runs out.
- The Puck itself takes 40 minutes to fully charge.
- The patented recharge ring means that pucks can be placed into the charging bay in any position and they will still charge.
- Great revenue opportunity, you can provide power in flexible environments with no need to plug in.
- Brandable.
- Water Resistant.

Security

- The ports located on the pucks for the charging cables are unique, therefore anyone who would want to take the puck and cable for themselves will be unable to use the product when the battery has run out.
- There is no alternative way to recharge the puck other than through the charging bay. Rendering the puck useless to the individual.

Branding

The Discgo Charger can be easily branded and customized through the twisted cap, allowing you to market and promote effortlessly through the Discgo Charging Pucks.

The Discgo Charger includes;

- 5 Bay Charger.
- 5 x Discgo charging pucks.
- 9 x Apple Lightning Cable.
- 9 x Apple 30 Pin Cable.
- 9 x Micro USB Cable.
