DESCRIPTION: This is a very attractive bow. It has a comfortable grip and a fairly long sight window. The make and model is unknown. This may be a custom bow or even a homemade recurve. Limbs do not have string grooves. Green limbs and 4 layer tip overlays. The riser appears to be made from Zebrawood, Bubinga and Walnut. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in good condition. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. One small "dimple" in the lower face limb. Overall, this is a really nice looking bow in excellent condition for its age. Note: While it is only 43#, it is NOT a speed bow. If you're looking for top speed in a 43# pound bow, this is not the one for you.
