Wendy, the Watchful Eagle

Named in Honor of Wendy, who watches over children, and is on the lookout for Smiles. Named also for Hal, Don, Dan, and all the other Eagles, who look for great ways to help children.

The Bald Eagle has a snowy-feathered head and white tail, and is the proud national bird symbol of the United States. An eagle's eyesight is at least four times that of a person with perfect vision. The bald eagle uses his voice to warn other eagles that an area is defended. Eagles build their nests, aeries, in tall trees or high cliffs.

"You rarely have time for everything you want in this life, so you need to make choices. And hopefully your choices can come from a deep sense of who you are." Fred Rogers

"There is something of yourself that you leave at every meeting with another person." Fred Rogers
