

Eye Doctor ^{By: P. [redacted]}

My eye doctor changed my life because he made me feel better. He made it so that I don't have to wear my glasses if I took my class. And it was fun and it was a tad bit boring and hard but it worked. And that's what changed my life.

Dr. Fong,

 Wrote it at school about something that changed her life for the better. She's doing great! Thanks for all your hard work,
