

TWO TO TANGO

By John Lipinski

It takes two to tango, and you don't even want to dance
Just wanna stay apart, afraid to give your heart, won't even give it a chance
All the way to Durango, we'll two-step our way to romance
Hold you close to me, passionately, baby, let's dance

Standing by the dance floor, couples moving so smooth
Like the rhythm of the sea, travels to my knees, just feeling the groove
Then you walk through the door, my eyes following you
My heart skips a beat, and generates heat, standing next to you

It takes two to tango, but you don't even want to dance
Just gonna stay apart, afraid to give your heart, won't even give it a chance
All the way to Durango, we'll two-step our way to romance
Hold you close to me, passionately, baby, let's dance

Solo

It's hard to understand, why you come around here
You can plainly see, what you do to me, anytime you walk by
Baby, I'm just a man, every time you are near
The pounding in my chest's, a lover's request, and can't be denied

It takes two to tango, but you don't even want to dance
Just gonna stay apart, afraid to give your heart, won't even give it a chance
All the way to Durango, we'll two-step our way to romance
Hold you close to me, passionately, baby, let's dance
All the way to Durango, we'll two-step & tango, baby, let's dance
