

Pre-Instruction Survey

This questionnaire is not a test and is not graded. Your answers on several fundamental concepts will help the instructor determine what subject matter will be most helpful to review with you during this class. The inability or unwillingness of past instructors to provide you with appropriate, verified information does not relieve you of the responsibility of having a command of subject matter related to your CCW permit. This class is not based on time limits, but rather the transmission of basic, but critical information to each CCW applicant.

- 1. Supreme Court landmark cases secure your right to CCW under the Second Amendment. ___TRUE ___ FALSE
- 2. Are these cartridges appropriate for CCW? 9mm, .357 mag, 10 mm, .40 cal. Why/ Why not?

- 3. When your semi-automatic handgun misfires during an emergency self-defense situation, you should immediately _____
- 4. A CCW permit holder, in an emergency self-defense situation, should shoot to kill. ___TRUE ___ FALSE
- 5. If pulled over by a law enforcement officer while driving your vehicle in California, must you announce that you are carrying your CCW firearm? Why/Why not?

- 6. Who determines what constitutes "good cause" on your CCW application? _____
- 7. Your bullet hits the assailant, but passes right through. How does the excess energy carried by your bullet benefit you or hurt you as a CCW permit holder?

- 8. Indicate by YES or NO if it is OK to carry a concealed firearm with your CCW permit in the following places:
 ___ Private business with posted "No Firearms Allowed" sign. ___ Government FDIC-Insured bank.
 ___ Inside airport buildings (state law). ___ Restaurant that serves alcoholic beverages.
 ___ Within the 1,000-foot perimeter of a school zone. ___ Hospitals. ___ Forest Service Kiosk.
- 9. After a self-defense action where you shoot an assailant, you call 911. What do you tell the dispatcher?

- 10. What are the conditions under which a warning shot should be fired?

- 11. Under what conditions do you have statutory authority to use a firearm to defend yourself?

- 12. After firing your handgun and stopping an assailant, you take a step or two away and look around. Why?

- 13. Can you legally shoot an assailant in the back in the state of California? ___YES ___ NO
- 14. Other than ammunition problems, what will cause your semi-automatic firearm to fail when you need it most?

- 15. What is "print-through", and how does it affect how/where you carry your CCW firearm?

- 16. The purpose of shooting at an assailant is to _____
- 17. Where is the safety on a typical revolver? _____
- 18. Name four basic safety rules when using firearms: _____
