"Saving the lives of those who protect us"

## **SAFE CALL NOW "UP CLOSE & PERSONAL"**

There is a haunting statistic on the Safe Call Now website and it betrays a chilling truth about the challenges of the courageous men and women who serve and protect us. According to American Police Beat "somewhere between 2-6 times more officers kill themselves each year than are killed by the bad guys."

As tragic as that estimate is it doesn't include the thousands of officers currently in crisis, experiencing trauma, overwhelming stress, family and financial distress, behavioral health challenges, substance abuse and general health issues, waiting to become a statistic.

Since 2009 Safe Call Now has served as a 24-hour resource for those in public safety in distress. Founded by Sean Riley, Safe Call Now provides public safety employees, all emergency services personnel and their family members nationwide with a simple and confidential way to ask for help.

Staffed by officers, former law enforcement officers and public safety professionals, Safe Call Now is a safe place to turn to get help from individuals who understand the demands of the law enforcement career.

**SAFE CALL NOW** is honored to announce our "RAM" Program (Rapid Assessment Mitigation). "The only complete and comprehensive continuum of care program for First Responders in America" that is either fully or partially covered by first responders' insurance.

**FOR THE FIRST TIME** in the history of the treatment and the healthcare industry, Safe Call Now will be able to not only provide the premier 24-hour crisis referral services nationwide, national award winning training... we now have the ability to genetically test your DNA for proper medications and predictor markers for PTSD, anxiety, depression, cardio, cancer and many more with blood testing through [Onsite Integrated Wellness](#)

**SAFE CALL NOW**, in conjunction with [Ken Seeley Communities](#), has developed a two week intensive workshop for first responders that has already been conducted and proven successful in the areas of PTSD, anxiety, depression, family of origin, relationship issues and many more topics.

**WE'VE** always had the most outstanding substance abuse and mental health treatment available in America for first responders and we're proud to announce that all of our facilities have been trained by Safe Call Now. We also have online intensive outpatient services available to those first responders due to the many reasons they may not be able to attend a formal setting. [Bayside Marin - The Premier Recovery Center](#), [Sierra Tucson Treatment Center](#), [La Hacienda Treatment Center](#), [360 Wellness](#), [Ken Seeley Communities](#) and [Deer Hollow Recovery](#).

**WE'RE VERY EXCITED** that Safe Call Now is launching our Family Program for all first responders and their family members that is like nothing anyone has ever seen before. The success of our first responders will always be in "Case Management". What happens after therapy or treatment? Plans, models and aftercare are prepared specifically for the first responder and their family members. Proven scientifically to increase the long term health and wellness of first responders.

**LASTLY**, (there will be more to come) Safe Call Now has created an accreditation program for all agencies nationwide to become a model organization in the area of Health and Wellness through our policies and procedures, which have been developed by the leaders in the industry. Stay tuned for more to be revealed; and, more importantly, stay safe out there!
