UNI-TURF[®]

ALPHA-SPORT[®]

Looking for proven durability in a synthetic floor?
The Made in the USA Uni-Turf is a solid vinyl surface that has been installed
for over 40 years across the United States

Installed with (**Alpha-Sport**) or without (**Uni-Turf**) cushion backing

Thicknesses starting at 3mm and extending to 20mm with an Alpha pad

Textured surface ideally suited for indoor track and racquet sports such as tennis and badminton

Through-color manufacturing process eliminates wear through

Six standard colors and custom colors available with minimum quantities required

Chemically welded seams create a monolithic, water-resistant surface

Uni-Turf's unique durability, impermeability, comfort, and traction have led to an increasing popularity in the canine and equine market. Proven usage in humane societies, SPCA's, veterinary rooms, pet resorts and training facilities, including the Purina Event Center, seen below
