

INTELLIGENT HEIGHT ADJUSTABLE DESKS

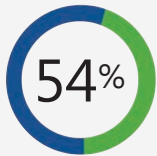

HAPPINESS QUOTIENT

83% of participants reported feeling happier, less stressed after switching to sit-stand.

INCREASED MOTIVATION

Participants felt more motivated, focused and comfortable at work leading to an increase of overall work productivity.

REDUCED ACHEs & PAINS

Changing to a sit-stand desk can reduce chronic pain by as much as 54% which can improve productivity, reduce neck and upper back physical discomforts and generate other health benefits.

LONGER LIFE

Studies have shown by reducing sitting at work and combining a healthy lifestyle, there can be an estimated life expectancy gain, of up to two years.
