

COMMITTEE CHAIRMAN RESIGNS

OPPOSITION TO DIXIE ISLAND SITE

The Dorval Reporter

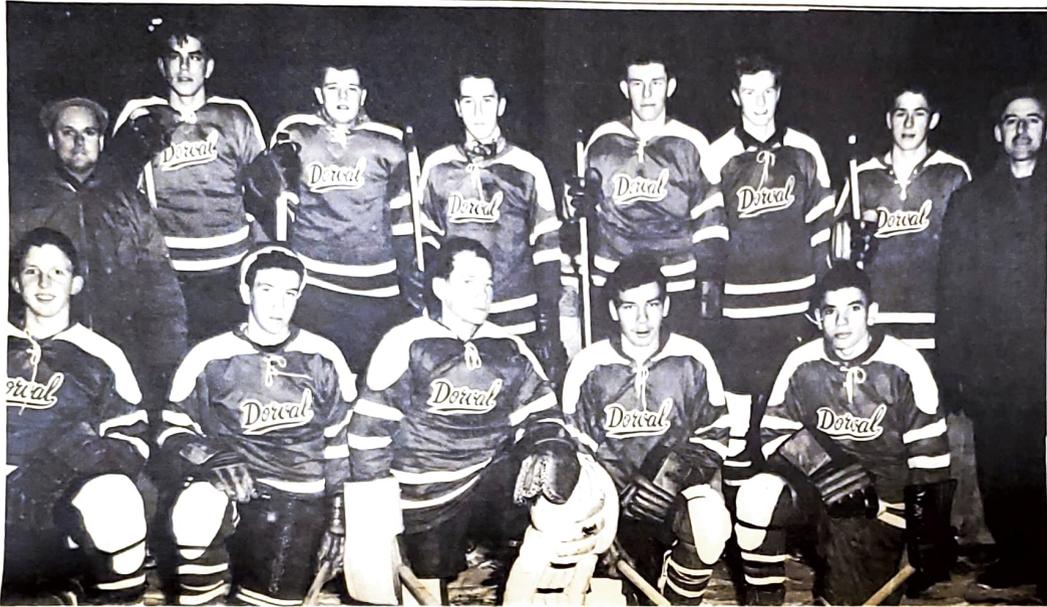

"DORVAL'S FAMILY NEWSPAPER"

VOL. 6 NO. 8

February 22, 1962

Dorval, LaSalle

5 CENTS

LAKESHORE INTER-CITY CHAMPS - Front row: left to right: B. Bellemare, B. Cullen, B. Edmunds, N. Laurin, L. Sapp. Back row: E. Alcock, P. Bissonnette, Y. Boyer, C. Tremblay, P. Labelle, R. Miller, E. Rouleau, P. Asselin.

Question and Answer period at Friday's council meeting saw the public resignation of Mr. J. Woollven, chairman of the City's Planning Committee over his disapproval of the Council's choice of Dixie Island with permanent access, as the site for the proposed Sewage Disposal Plant.

In resigning, Mr. Woollven read a brief, prepared by himself which outlined his reasons for opposing the Dixie Island site and which suggested that an industrial site on Herron Ave. would be the best location for the proposed plant. He also pointed out that in addition to a high initial cost for a causeway or some sort of permanent access to the island, cost for future maintenance to such a causeway would be prohibitive. He also maintained that in building the proposed plant on the island, the city would be destroying any possibility of making the island an official city park. Speaking of the group who made the choice of the island for the disposal plant he called them "dealers in wanton destruction of beauty". He said that although exact figures on the depreciation of assessment values to lakeshore properties fronting towards the island could not be estimated, there was a good possibility that this would happen with the resultant lowering of tax revenue to the city.

Mr. Woollven has given a copy of his submission to the Reporter and it will appear in this week's or next week's issue.

STRATHMORE WOMEN

PRESENT \$1000. TO

LAKESHORE HOSPITAL

In 1945 a group of twelve women formed the Strathmore Women's Club. These members were active in Community affairs and wished to consolidate their community efforts.

Various fund-raising projects realized monies, allowing the Club to donate the first playground equipment in Neptune Park.

Over the years Club membership has grown and today there are over eighty members. As the membership has grown so has the Club's aid to worthwhile causes increased. A wheelchair has been donated to The Montreal Children's Hospital, a room furnished at The LaSalle Gen-

CHESS CLUB STARTS

The opening meeting of the Dorval Civic Chess Club will be held at the City Hall, 60 Martin Ave. this Sunday at 2 p.m. Guest Speaker will be Mr. Moe Moss, chess columnist for the Monitor. All are welcome.

Organizers of the Club, Guy Laflamme, ME 1-1586 and Richard Owen, ME 1-5480 will welcome any inquiry

C OF C PRESS FOR M.T.C. BUS SERVICE

The extension of M.T.C. service into the City of Dorval was today recommended by the Dorval Chamber of Commerce.

In announcing plans to solicit support from the Montreal Transportation Commission, the City of Dorval and the provincial government, Mr. Gordon Graham, President of the Chamber of Commerce, stated: "We feel that immediate improvement of the public transportation facilities serving Dorval is vital to the growth of our community."

"We have received numerous complaints from business and individuals, and therefore our Transportation Committee, under chairman Ross Smyth, has over the past several months given priority to the study of bus transportation services and policies."

At the present time, the Provincial Transport Company operates services from Downtown Montreal to Dorval and the Lakeshore area, and a limited local service in Dorval. In some instances there are connections with the M.T.C. buses.

The Montreal Transportation Commission now operates Route 100 westward along Cote de laSalle Road to the Rollis-Boyer plant. It also operates Routes 191 and 192 westward as far as 55th Avenue in LaSalle.

"There are, however, many disadvantages to the present service," said Mr. Graham.

He pointed out that the present service reduced the available clerical and labor force due to the location of the terminal, the lack of transfer arrangements between the MTC and PTC, and the high cost of fares.

"Industrial development is thus impeded in the City of Dorval," said Mr. Graham. "Also there is only limited local service within

Dorval and poor connecting services when going beyond Dorval. There is frequently no alternative at present to the expensive chartering or self-provision of services.

"There is no public means of conveyance for the general public into the Montreal International Airport from any point," he continued. "And there is inadequate transportation planning to meet expanding industrial, commercial and community needs."

In making its recommendations to improve this service, Transportation Committee Chairman Ross Smyth stated that the committee, in completing its study, looked upon

the MTC as a local or metropolitan type of service and the PTC as an inter-city or inter-town carrier to
continued on page 7

DAYS ARE NUMBERED

FOR GOLF COURSE

AT PRESENT LOCATION

It was learned on good authority this week that Dorval Recreation officials would have to seek a new location for its municipal Golf Course after the completion of the 1963 season. The reason, it appears, is that Department of Transport requires that that time will require Dorval to vacate the present location of the golf course.

It is understood that City authorities are now discussing with D.P.T. officials the possibility of relocating the Golf Course on other property when the present site becomes available.

Brian Dandridge, president of Highway Club, Lane St. Louis, discusses Highway Safety Areas with Acting Director of Dorval Police, Frank Gagnier.

JOHN PRATT

REPORTS FROM OTTAWA

Last week I spoke of the tremendous strides that have been made in the progressive City of LaSalle, situated in the easterly portion of our constituency. This week I should like to go to the other extreme of our riding and say a few words about the Village of Senneville, situated on the beautiful Lake of Two Mountains.

Most Montrealers know Senneville as a very small village, plus a long-winding, and extremely beautiful, road along the Lakeshore, which passes many of the magnificent homes and large estates of some of our wealthiest and most influential citizens. Senneville has long been the type of community that is probably better described as ex-suburbia rather than suburbia, in that the average amount of land per home has tended to be rather larger than in the more populous and built-up suburbs closer to the metropolis. It is very likely, and devoutly to be hoped, that this high-class, residential aspect will be maintained for many years in the future.

However, like most other Lakeshore communities, Senneville is commencing to feel the population explosion, and there is every likelihood that the large inland areas of this beautiful community will be partially used in the near future for developments other than semi-rural residences. I discussed these matters with His Worship, Mayor Smallhorn, who manages to combine his duties as Mayor with those of a very busy Consulting Engineer, and he disclosed some very interesting developments that are about to take place in his municipality.

The major item of interest in Senneville these days is that Dominion Tar and Chemical propose to build a six million dollar research laboratory close to the new Trans-Canada Highway. The Ste. Anne's Catholic School Commission has just completed a new school building, and near this school, Corpus Christi Parish proposes to construct a church and rectory to serve the same area for English-speaking Catholics as the Ste. Anne du Bout de L'Île Church now does for the French-speaking Catholics. This example of church and school expansion is, of course, one that is very common to all the many communities east of Senneville which have experienced the general wave of expansion as it has moved westward towards the end of the island. The construction of comparatively expensive buildings for churches and schools is a matter that sooner or later faces the taxpayer in our communities. However, money spent on such buildings is never regretted, and the more schools and churches that we can build, regardless of their cost, the better will life be for the many families who now, and in the future, choose our beautiful Lakeshore as their home.

Another very natural result of all this expansion is that the City fathers of Senneville are now adding a small extension to their town hall. It has been the practice for some time for all the municipalities which constitute Little Metro to meet monthly and each community plays host successively in turn. This month we will be meeting in Senneville at the Curling Club, a building which impressed me greatly on my last visit there, as a very desirable civic amenity. This month in addition to the southern members of Little Metro, we are also meeting jointly with the mayors of the northerly section from the Riverside area extending from Pierrefonds down through Ste. Genevieve to Roxboro.

I imagine that many people will be interested in the proposal for the

establishment of a research centre by Dominion Tar and Chemical Limited in Senneville, and so I obtained a few details about this interesting project. The site chosen is north of the proposed Trans-Canada Highway, bounded on the south by the Highway, on the east by the D. V. A. Lodge property, on the west by a privately-owned farm and on the north by the Arboretum. A total of 100 acres is presently under option.

The design of the buildings and the materials used will be conservative and arranged to harmonize with the setting and the residential character of the Village. The staff will work in laboratories developing and testing new methods and new products in the fields of pulp and paper, chemical processing and building materials. There will be no commercial warehousing or manufacturing of goods for re-sale. Because of the small scale of the operations, there will be no generation of fumes, smoke or odours in quantities sufficient to pollute the air or to be a nuisance to residents. Sewage and industrial waste disposal methods will be to the requirements of the municipality and the Provincial Government.

It is estimated that this research centre will provide the Village and School Commissions with an additional tax revenue of approximately \$40,000.00 annually. The staff will number approximately 100 and over the next ten years the number should increase to at least 300, many of whom will no doubt become permanent residents of Senneville in their own homes, thus further increasing the valuation of the Village. The general purpose of such a research centre is to attempt to create a college campus atmosphere conducive to creative thought, and I certainly cannot think of a better area in which to do this than the beautiful and remote little Village of Senneville.

HORT. SOC MEETING

Mr. M. H. Howitt of the Montreal West Horticultural Society will speak at the regular monthly meeting of the Horticultural Society of Dorval on Monday, February 26, 1962 at St. Andrew's Parish Hall, 54 Brookhaven Avenue, Strathmore at 8:15 p.m. The subject of Mr. Howitt's talk will be "Layout and Design of Gardens" and will be of interest not only to those with established gardens but also to those planning a new garden.

Residents of Dorval interested in gardening are cordially invited to attend this meeting and make themselves acquainted with the Society and their activities in furthering the beautification of the City.

There will also be door prizes and light refreshments will be served following the meeting.

AWARDS TO BE PRESENTED AT ST COLUMBA

Three young people will be presented with 'Religion and Life' Awards at a special Baden Powell

Sunday service at the Presbyterian Church of St. Columba by-the-Lake on February 25th. The three recipients will be Ian Acheson of the Sea Scouts, Bob Chlperzak of the Boy Scouts and Heather Molr of the Girl Guides.

OTTAWA DEBATE ON POLLUTION

The following is the text of a speech made recently in Parliament by Mr. R. John Pratt, M.P., Mayor of Dorval regarding an amendment to the criminal code with respect to pollution:

Mr. John Pratt (Jacques Cartier - LaSalle): Mr. Speaker, I have spoken on this subject before and I imagine that my views are well known to the house. I agree completely with the hon. gentleman who has sponsored this bill and I am convinced that his objectives are of the highest. I agree in principle that the bill is serving a good purpose. There is, however, one section of the bill to which I would take exception. I prefer to the section which speaks of a "person" who discharges any noxious waste product into a river, stream or other water any part of which is interprovincial which has the effect of endangering lives or safety, rendering himself guilty of an indictable offence and liable to a fine of \$25,000. It seems to me, Mr. Speaker, that this might lead to more trouble than the bill is intended to prevent. As I have said in a previous speech on this subject, the making of such an offence a criminal offence would, in effect make a poor soul who flushed a toilet responsible for a \$25,000 fine.

Speaking on behalf of my own city of Dorval which has been making provisions steadily. I might say that my municipality is very well advanced with plans. We have chosen a site for the construction of a sewage disposal plant. Certainly many municipalities have expressed great appreciation of the legislation introduced by this government in 1960 which provided for loans, as hon. members know, covering two-thirds of the cost of these plants at a very low rate of interest over periods as high as 50 years. Provision is made also for an outright grant of 25 per cent of the loan on any work which is done before the end of March 1963. I understand that the city of Vancouver has already submitted plans for a scheme covering something like \$7.5 million. I understand the City of Ottawa is also taking advantage of these grants.

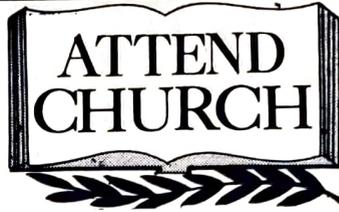

Nevertheless, I think basically the responsibility for ensuring that we do not suffer from the pollution of our waters is a provincial responsibility. I think the federal government has done what it could, that it is now up to the provinces to see that sewage disposal plants are built and that advantage is taken of legislation which is already on the statute books.

P. GOUIN

The sudden death of M. Paul Gouin age 54 was a surprise for his family, friends and employees. He was superintendent of the City of Jacques Cartier's Public Works.

He was well known in Dorval as we worked for years for the City's Filtration Plant under his father, the late M. Ernest Gouin. He was married to Therese Racine and had a daughter, Nicole. M. Gustave Racine of Lillac Street was his father-in-law.

La mort soudaine de M. Paul Gouin a crée un émor dans sa famille et chez ses ames et employés. M. Gouin etait marié a Therese Racine et avait une fille Nicole. Il Puisse aussi son beau-père M. Gustave Racine, ses sœurs, Mdes V. Lachapelle, A. Boyer, P. Herber, ses freres Jean Antoine et Gerard and E. St. Pierre.

GUIDE & BROWNIE NEWS

Strathmore Division of Girl Guides of Canada was hostess when about 125 Guide and Brownie Guiders and Patrol Leaders from the Lakeshore received training on February 17th at St. Marks Church Hall. Mrs. L. Brazeau, Area Training Advisor was in charge, while Mrs. Florence Wilson and Miss G. Horan gave training to the Guide Leaders. Mrs. Peggy Gibson, assisted by Mrs. Rita Lucas looked after the Brownie Programme and Miss Carol Shetler and Miss Sheila Cameron instructed the Patrol Leaders. At lunch, Mrs. Pawlett, Division Commissioner, introduced the guests, Mrs. L. S. Whitehead, Area Commissioner; Mrs. Shipton, Provincial Training Commissioner, Mrs. Cressy, Dorval Commissioner; and Mrs. Griffith, former Commissioner for Dorval. Mrs. A. Walsh was introduced as Deputy to Mrs. Whitehead and during the afternoon, gave a talk to Local Association members. The emphasis of the training was on camp and everyone agreed they had profited greatly from the session.

The Guides and Brownies with the help of a number of Mothers and Fathers held a very successful paper drive in Pine Beach and Strathmore. The bad weather slowed up the collections and unfortunately some people were misled, for which the girls apologize. It is hoped that the drive can be repeated toward the end of March and that the people in the District will start to save their newspapers now, for that time.

The annual Baden-Powell Church Parade will be held on Sunday, Feb. 25th for the Girl Guides, Brownies, Scouts and Cubs of Pine Beach and Strathmore. All the Protestants will assemble in the downstairs hall of the Strathmore United Church about 245 for service at 3:00 p.m. The Catholics will attend 10:30 a.m. Mass at St. Veronica's, meeting about 10:15 in the downstairs hall. The rehearsal for the Colour Part will be held at 10:30 on Saturday, Feb. 24th, at Strathmore United. No Colours will be carried at the Catholic Service.

picture taken. Instead, catch the youngster while he's busy. Give him something to do, or better still, catch him at his own play. Maybe it's taking a bath, frolicking with a puppy—or "repairing" a model train.

Snowing outside? It makes no difference. Most cameras with the aid of a simple flash attachment can provide many good photos inside the house.

If the children are indoors, in fact, it's a good time to add to your snap collection. There's no need to dress them in their best clothes, comb their hair, stand them against a wall, and tell them to stare into the camera. After all, few children always have their hair combed, so why snap them that way? Save that for formal portraits.

With all the natural actions of children around the house, you have some excellent photographic opportunities. Let them act as they wish—playing with their toys, reading, coloring books, working at hobbies.

Then, when you see a cute ex-

pression or action, snap a picture. You'll have as much fun taking the snaps as you will viewing them later.

By the way, watch your "angle". Do you shoot down on the child, up, or directly at him? Shooting down fails to put "zip" into the picture. From a height, a child is minimized rather than made important. Seeing the top of his head—except in rare cases—tells little about a youngster.

To make your shot more interesting, then, get down to the child's level. You'll be surprised at how the world looks three feet lower. And your camera will capture him in his element—with a typical action and natural expression.

If the youngster becomes too aware that you're taking photos, leave him alone for a while. Wander off and pretend you're interested in something else. The child will soon return to his play and forget your presence. Then you can move back to the area and resume snapping.

You can also make picture-

taking a game. Children of all ages love games of any type. You'll find it's easy to enlist their co-operation if you can make picture-taking fun.

Just one final tip: keep the background simple. A cluttered background may look alright at the time, but in the finished print can steal the limelight and ruin the picture.

FORUM THEME ON BROTHERHOOD

This month's Forum of the Lakeshore Unitarian Church has been planned to carry out the theme of Brotherhood Week, which runs from Feb. 18 to Feb. 25. On Tuesday evening, Feb. 20, at 8:30 a panel will discuss the subject "Whither Divorce?" from the various viewpoints of a Roman Catholic priest, Father Leonard J. Crowley; a Jewish Rabbi, Rabbi Jacob J. Eisen; a Presbyterian minister, Rev. Charles C. Cochran; and a lawyer, Harold G. Pickel.

IN FOCUS

By K. M.

PAPER DRIVE ON ST. PATRICK'S DAY: March 17 has been set for the next paper drive for the Boy Scouts. Mr. D.G. Fox (ME 1-5943), in charge of the paper drives, asks that newspapers and magazines be in bundles, or preferably in cartons, and placed at the curb. Drivers are needed to help out with the pick-up. During the last paper drive one father went out with his car to assist at the drive and found no helpers. Not beaten, he returned home and the mother in the household was drafted, "fancy fur coat and all", as assistant. The trip was worth while as a shed full of papers was discovered on Cote de Liesse where a householder, although forgotten in the pick-up, had continued to save papers for the Scouts. Another worker in the cause is the resident in the McNeill Crescent area who has allowed neighbours to use an empty building for temporary storage of newspapers. Let's get organized to help the Scouts raise expenses for the operation of their troops. Save your papers --- pick-up date in March 17.

Victor Triffon and Mr. "Fingers" Billy Eckstein are going over the new tune that Billy is writing specially for the Corral's famous "Cactus Lounge" where Billy is playing nightly on the Metropolitan Strip in Pointe Claire.

PEOPLE AND EVENTS: Guy Laflamme reports an enthusiastic reception to the Chess Club with more than a dozen teenagers participating at the first meeting. Still open for more members, the Club, next Sunday at 2 o'clock, at the Dorval Civic Library, will hear Mr. Moe Moss, Chess expert and enthusiast who writes a column on Chess for the Monitor.

February 14 marked the seventh anniversary of the Dorval Library, which began in a small room in the sacristy of the Presentation Church, moving two months later to larger quarters in the Recreation Club, moving again on a Wednesday, working day of the library, mending group who were treated by Mrs. M. Laclance, Librarian, to a special cake for the occasion.... The Dorval Civic Library reports that a full size screen is available for rental with National Film Board educational films on Travel, History, Science, Films and equipment may be rented by individuals as well as clubs.... Mr. L. Hackert, member of the Library Board, has been named to handle Public Relations and Publicity for the Library.

The Lakeshore Amateur Orchestra which now has about 18 musicians is preparing a concert of Easter music.... Dorval citizens likely read with amazement this week the account of the 98 family town of Lorraine, incorporated in February and expected to grow to a two hundred and fifty family centre by April of this year.... the town will have its sewage treatment plant in operation next month! Another detail destined to arouse envy. "Plans are going ahead to erect a \$120,000 four sheet curling club, and a community outdoor swimming pool".

RECREATION FOR YOUNG PEOPLE: An enlarged programme of recreation for the French speaking young people of Dorval and their friends has been made available through the Presentation Parish of Dorval. The Parish Centre is open for students, girls and boys, on Monday, Wednesday and Thursdays from seven until nine-fifteen in the evenings and on Fridays and Saturday nights until ten thirty. Made welcome are responsible youngsters over fourteen, who will take direction and cooperate in the activities. The Chaplain at the Centre, Reverend Roger Dubuc, said that the project offers young people a wide variety of healthy recreational occupations.

Facilities are available for badminton, indoor hockey, ping-pong, broom ball, flags; Mr. Pierre L'Esperance of the City's Recreation Department is usually on hand, assisted by seven or eight teenagers. A responsible adult supervises each evening's activities. Judo and Gymnastic instructions are given on Wednesdays. Social evenings are held once a month with dancing for adults and teenagers.

Rounding out the activities for the young people are the opportunities for discussions with Father Dubuc, and the library which will be moved into the Centre from the office section at Presentation Church, when space is available.

A Forum for older teenagers and adults is held once a month for discussions of current problems and religion. The topic of the last discussion was Virtues of Citizenship. Father Dubuc remarked that Le Centre Paroissial is trying to provide a wide programme of healthy activity for the young people of the Parish.

ALGEBRA SECOND YEAR HIGH: So many people enjoyed testing their skill at the word list published in this column recently that I thought the mathematicians would like to do the Algebra problem on a local second year High exam. QUESTION: A 60% solution of sulphuric acid is obtained by adding 1 pint of water to an 80% solution. Find the total number of pints in the original 80% solution. --- The exam paper was brought home about two weeks ago and if I can find the answer by next week, I will publish it.

LOISIRS AU CENTRE PAROISSIAL

TOUS LES ADULTES ET LES JEUNES, GARÇONS ET FILLES, de la paroisse sont cordialement invités

OPTIMISTS PLAN FLARE SALE FOR RETARDED CHILDREN

"Protect your life and brighten the life of a retarded child" is the theme of the first phase of a campaign by the Optimist Club of Lake St. Louis to raise funds for Lakeshore area retarded children. Friday night, Feb. 23rd, and all day Saturday, Feb. 24th, the local Optimist Club will offer for sale highway safety flares at the Dominion Store and at the Pascal hardware store in the Dorval Circle Shopping Centre. Additionally, flares may be obtained at approximately 25 service stations on the Lakeshore. Price for these flares is \$1.00 per pair.

The danger of emergency highway stops at night can be minimized by using an Optimist Flare which is easily ignited and provides adequate

THE DORVAL REPORTER

COURTLAND PARK MOSQUITO CHAMPS

Over the weekend, Courtland Park Mosquitoes under the sponsorship of the Courtland Park Association carried off the Dorval Mosquito championship by downing Pine Beach two straight in a two-out-of-three playoff.

Over the season, Courtland won nine games, tied one and lost two for a total of 19 points to top the league in regular season play. Bob Bourdon gave Courtland excellent goaltending and the big marksmen were Bob McMillan and Charlie Baird. It was, however, the fine work of all the forwards and defencemen along with a real team spirit that made it such a successful season for Courtland.

Pine Beach ended up in second place with Windsor Gardens and Strathmore in the third and fourth spots, respectively. It was a well balanced league and the outcome of many games decided on slim one-goal margins.

Pine Beach and Courtland set the stage for the playoff battle by eliminating Strathmore and Windsor Gardens in the sudden death semifinals.

On Saturday morning in the first final playoff game at the Pine Beach, Westmore rink, Courtland came out

MIDGETS WIN INTER-CITY TITLE

The past week we saw Dorval Midgets winning the Lakeshore Inter-City Midget title, downing a powerful Pointe-Claire team 7-6 in the overtime period of a two-game, total goal final. On Saturday Dorval defeated Ville LaSalle 7-0 in the first turning in a great effort, chalking up three goals; other markers were Pierre Bissonnette, Bryan Bellemare, Claude Tremblay and Pierre Labelle. Goaler Bob Edmunds again came up with another stellar performance proving why he is considered the best Midget goaler on the Lakeshore.

PAPER DRIVE ON ST. PATRICK'S DAY: March 17 has been set for the next paper drive for the Boy Scouts. Mr. D.G. Fox (ME 1-5943), in charge of the paper drives, asks that newspapers and magazines be in bundles, or preferably in cartons, and placed at the curb. Drivers are needed to help out with the pick-up. During the last paper drive one father went out with his car to assist at the drive and found no helpers. Not beaten, he returned home and the mother in the household was drafted, "fancy fur coat and all", as assistant. The trip was worth while as a shed full of papers was discovered on Côte de Liesse where a householder, although forgotten in the pick-up, had continued to save papers for the Scouts. Another worker in the cause is the resident in the McNicoll Crescent area who has allowed neighbours to use an empty building for temporary storage of newspapers. Let's get organized to help the Scouts raise expenses for the operation of their troops. Save your papers — pick-up date in March 17.

PEOPLE AND EVENTS: Guy Laflamme reports an enthusiastic reception to the Chess Club with more than a dozen teenagers participating at the first meeting. Still open for more members, the Club, next Sunday at 2 o'clock, at the Dorval Civic Library, will hear Mr. Moe Moss, Chess expert and enthusiast who writes a column on Chess for the Monitor.

February 14 marked the seventh anniversary of the Dorval Library, which began in a small room in the sacristy of the Presentation Church, moving two months later to larger quarters in the Recreation Centre. The anniversary fell on a Wednesday, working day of the library mending group who were treated by Mrs. M. Lachance, Librarian, to a special cake for the occasion.... The Dorval Civic Library reports that a full size screen is available for rental with National Film Board educational films on Travel, History, Science. Films and equipment may be rented by individuals as well as clubs.... Mr. L. Haekert, member of the Library Board, has been named to handle Public Relations and Publicity for the Library.

The Lakeshore Amateur Orchestra which now has about 18 musicians is preparing a concert of Easter music.... Dorval citizens likely read with amazement this week the account of the 98 family town of Lorraine, incorporated in February and expected to grow to a two hundred and fifty family centre by April of this year—the town will have its sewage treatment plant.

Victor Trifirov host to the Committee of the St. Thomas High School Winter Carnival, discusses plans with Faculty advisor Mr. Kenneth Cassidy at special dinner held at the "Gallery" dining room of the Corral Restaurant, Thursday night.

Interested and looking on are the four competing Princesses left to right: Linda McDougall, Christian Poissant, Audrey Gallagher and Merrill Quigg, one of which will be crowned Queen of the Carnival which is being held February 23 to 24th.

V O N ANNUAL MEETING

The 52nd annual meeting of the Victorian Order of Nurses, Lachine-Dorval, was held in conjunction with the first annual meeting of the Lachine Auxiliary on Tuesday, Feb. 13 at Lachine City Hall. The meeting was presided over by Ms. W.F.S. Greene, President of the Board of Directors, Mrs. F.O. Blachford, President of the Ladies Auxiliary, Alderman J. MacLeod, representing the Mayor of Lachine, Alderman E. Raymond, representing the Mayor of Dorval and Mrs. Barbara Eden, Nurse-in-Charge.

The platform of the Public Meeting Hall was flanked by the official V.O.N. posters and behind the speaker table was a lovely bouquet of tulips.

Following the meeting a reception was held by the Ladies Auxiliary in the council chamber where

the table was adorned with a delightful arrangement of tying flowers and red and white tapers commemorating Valentine's Day.

The annual report given by Mrs. Eden outlining the changing functions of the Victorian Order service placed emphasis on the importance

LACHINE GENERAL W A MEETING

The regular monthly meeting of the Women's Auxiliary of the Lachine General Hospital (Dorval Group) was held at the home of Mrs. W. Dixon, 24 Ducharme Ave., with the help of co-hostesses Mrs. Smith and Mrs. Bastet, who assisted in serving coffee and cake. At the conclusion of a short business meeting, the members were treated to a talk on Gracious Entertaining, by Mrs. E. Mack, of Birk's Ltd. The theme of her presentation was "Don't be a Slave to Etiquette." Today's hostess, who must often entertain without benefit of servants, must create ease and comfort by creating original ideas with emphasis on planning and preparation. "Don't be afraid of colour," said Mrs. Mack, as she displayed the beautifully appointed table setting with a mauve and pink motif, including a deep

mauve table cloth which served to enhance the glowing silverware. Mrs. Mack concluded with some tips on the care of silverware and china, and the advice to all of us to "use your sterlingware every day and see it acquire that patina which comes from many years of gracious living."

All the new members present were impressed by the friendly informality of the group, and we would like to issue an invitation to any other potential members, interested in working towards facilities for our community hospital, to contact our Membership Convener, Mrs. W.F. Vallery, 28 Sevigny, ME 1-8654. The next General Meeting will be held at the home of Mrs. Janice Ross, 3 - 2nd Avenue, at 10:00 a. m. on Wednesday the 14th of March.

DORVAL GDNS H&S

The Dorval Gardens Home and School Association announce their annual Military Whist and Bridge Party, convened by Mrs. Frank Jones on Friday, March 9th at 8:30 P.M., in the Dorval Gardens School, 825 Dawson Ave., Dorval, P.Q.

Mrs. Jones will be assisted by her committee of Mesdames D. Campbell, B. Gillette, V. Godbeer, E. Guter, A. Henrikso and H. Smart.

of the care of patients at home after hospitalization. An outline of the number of visits to patients revealed that 4995 were made in 1961 of which 3321 were for nursing care. Twenty-one cases of cerebro-vascular accident were looked after, eleven cases of diabetes, of whom two had had strokes. Thirty-three cases of cancer received nursing care.

An expression of thanks was made to the Board of Directors and the Ladies Auxiliary for their assistance.

The report of the President of the Ladies Auxiliary of the Victorian Order of Nurses outlined the activities of the Auxiliary since it was re-activated four years ago. Included in the projects, since late March, were a Tex-Made Fashion Show, an Art Exhibit and Tea for Mothers' Day, a Handicraft Sale and a Christmas party which entertained the Board of Directors, Nurses, and the Ladies Auxiliary and their husbands. Mrs. Blachford expressed the sincere hopes that more members will join in the work of this very active and necessary Auxiliary.

Mrs. L. G. Baxter, Swallow Ave., entertained at a Baby Shower last Friday evening when the guest of honour, Mrs. Peter Theule, received many beautiful and useful gifts.

Mr. George Leonardo, Roy Ave., left last week by plane for Barbados where he will spend a seventeen day vacation.

The Pine Beach Local Association of Girl Guides and Brownies will hold a Tea and Bake Sale on Saturday, February 24th, in the Pine Beach Community Hall from 2:00 to 4:00 p.m. Mrs. J. A. Nutter will be the Convener, with Mrs. Gladys Fisher, Hostess; Mrs. Thelma MacKinnon in charge of the Tea Room; Mrs. Bernice Branigan, Bake Table; Mrs. Peggy Gibson, Aprons; Mrs. Madeline Wolfenden, White Elephants. Donations for the White Elephant Counter will be very much appreciated and may be left at the Hall Saturday morning, or given to a Girl Guide or B ownie before Saturday.

Mr. and Mrs. D. Moreman, St. Leon Ave., entertained at three tables of bridge last Friday evening when the prizes were won by Mr. D. J. Allen, Mr. H. Duckworth and Mrs. L. Harris.

Belated birthday greetings and best wishes to Mr. Gustave Racine, Lilac Ave., N., who celebrated his eighty-seventh birthday on Feb. 12.

The next meeting of the Senior Citizen's Club will be held on Thursday, March 1st, at 2:00 p.m. in St. Mark's Hall, Lakeshore Drive. A variety of games will be played and tea will be served by members of the DeCourceles Chapter of the I.O.D.E.

Congratulations to Mr. and Mrs. Harry Evans, Pine Beach Blvd. N., on the birth of their son, Peter Michael, on February 11th in the Queen Elizabeth Hospital.

Mr. D. Currie (Sailor), Lakeshore Drive, underwent surgery in the Montreal General Hospital last week and his many friends join in wishing him a complete and speedy recovery.

Sincere sympathy is extended to the members of the family of the late Mr. W. A. Westcott, Prince Charles Ave., in their sad bereavement for his death in the Lachine General Hospital on February 14th.

Mrs. L. W. Baker, Wiltshire Ave., entertained the North Pine Beach Bridge Club last week when the high scorer for the evening was Mrs. L. Denman.

The christening of the infant son of Mr. and Mrs. S. S. Sutcliffe, Gal-

land Ave., took place recently at St. Veronica's Rectory. Rev. Father Norman Griffin officiated and the baby received the names of Hugh John. Godparents are Dr. J. Little of Westmount and Mrs. J. Broom of Dorval. Following the ceremony, a reception was held at the home of Mr. and Mrs. H. McMillan, Town of Mount Royal, the baby's maternal grandparents.

Mr. and Mrs. J. J. McMorow, 3rd Ave., entertained a number of their neighbours recently when the guests of honour were Mr. and Mrs. W. G. Bannan of Roy Ave. A presentation of a piece of Royal Doulton was made to Mr. and Mrs. Bannan as a farewell gift prior to their leaving Dorval to take up residence in Short Hills, N.J.

Mrs. A. Westcott, St. Leon Ave., entertained the Tuesday afternoon Bridge Club last week when the prizes were won by Mrs. Westcott, Mrs. E. C. McDonald and Mrs. M. Rowe.

Dorval Gardens' Home & School Association will hold their Annual Military Whist and Bridge on Friday, March 9th, under the convener'ship of Mrs. Frank Jones. The theme for the evening will be St. Patrick's Day and the pupils of Grades VI and VII will decorate the School Hall for the event. They will also make fudge which they will sell during the evening. Mrs. Jones will be assisted by her committee: Mrs. D. Campbell, Mrs. B. Gillette, Mrs. V. Godbeer, Mrs. E. Guter, Mrs. A. Henriko and Mrs. H. Smart. Tickets may be obtained from the Ticket Convener, Mrs. D. Campbell at 631-3969.

The Dorval Work Group of the Women's Auxiliary of the Lachine General Hospital will meet Wednesday afternoon, February 28th at the home of Mrs. H. Rasmussen, 73 Le-

COURTLAND PARK

Continued from page 5

skating hard scoring early in the first period. From then on they took control and the final score was 6-1, with Bobbie McMillan getting 5 goals and Charlie Baird one.

On Sunday, the second game of the playoff was an entirely different story. Pine Beach came out with a vengeance and J. Glass scored to put them in front 1-0. The play went from end to end until Bobbie McMillan finally banged in the tying goal. In a tense 10-minute over-time period, Pete Mosely netted the winning goal with just 4 minutes to play. Courtland's second line came up with a fine checking display in the final minutes of the game to prevent Pine Beach from scoring.

It was a game that could have gone either way, but Courtland came up with that little extra to carry off the championship.

HELP FOR THE BLIND

Martha, busy with her farm household chores hardly noticed the greyness around the house. Her kitchen, after 30 years of married life was etched permanently in her mind - yet she found herself switching the light on to see where this pan or that knife was located.

Reading, even with her glasses became impossible. Then, one day partial blindness. A medical check quickly diagnosed the case as a cataract, the commonest remedial eye disease in older people.

Soon Martha underwent eye surgery for the removal of the cataract and again her eyesight was restored and once more she is back in her beloved farm house, where with the aid of a heavy correcting glasses, she has adjusted herself to a normal work day life.

Such is a typical case of what medical science has done and is doing to prevent, cure and remedy blindness for many Canadians. The Department of National Health and Welfare, Blindness Control Division, assists provincial authorities and medical officials in this field of blindness control.

Of the 24,000 registered blind persons in Canada, 8,670 between the ages of 18-70 receive \$55.00 a month allowance paid on the basis of 75% federal and 25% from provincial funds. Certain provinces provide additional financial assistance.

The total expenditure on blindness allowances for the year 1960 by the Canadian government was over \$4,000,000. In addition, funds provided by the National Health Grants program were used to assist research covering such subjects as diabetic eye conditions, corneal tissue studies, virus diseases of the eye, retinal detachment and the causes of glaucoma which affects 2% of all people over 40 years of age.

Since the Blindness Control Division's treatment scheme came into force in 1948, the federal government has provided medical treatment for the restoration of vision, to over 700 blind persons. Last

BILLY ECKSTEIN AT CORRAL

"Hello Billy"
"Hello Mr. Fingers"
"Welcome Billy Eckstein"

This is exactly what echoed around the Cactus Lounge of the Metropolitan Strip's Corral Restaurant last Friday night when little Billy Eckstein walked in to a press in-

terview and to be welcomed by many friends and guests for his Lakeshore engagement.

"We asked many of our guests who they would like as our first "name" performer" Said Victor Triffon "And we were fascinated to discover that so many wanted to listen and sing to the musical piano of their old friend Mr. Eckstein. So we signed him up to play for his old friends, and many new ones out here".

The fabulous Mr. Eckstein was an infant star on the piano. When he could hardly reach up to the keyboard he was proving a musical sensation. Generations of Montrealeers delighted at his tunes in such places as the Strand Theatre before talkies came in and over 8,000 young Montrealeers learned to play the piano in the "Eckstein style".

His engagements have all been long ones and at Ste Rose he appeared for more than 20 years.

"I got a big kick not long ago. A couple came in to see me and they were pretty close to my age. They told me that their son and his wife had danced to my music, and now their children were married and came to listen to me play. Well three generations of fans --- that covers over 40 years --- that's quite an achievement" Smiles Billy "But maybe I'll set a show business record and have four generations of fans in one family someday".

year alone, 105 people were treated.

Of the total receiving medical treatment, 77% of the cases were successful while in many of the remaining 23%, some improvement was achieved. Successful corneal transplants were carried out in 10% of the cases treated last year.

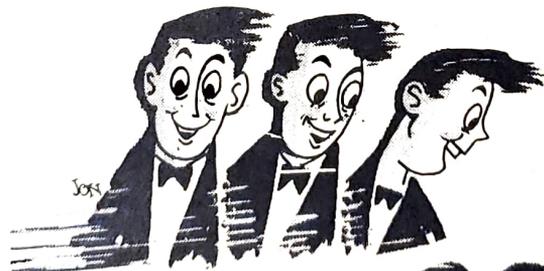

The Blindness Control Division works with provincial authorities in encouraging the testing of vision among school children. The earlier a vision defect can be spotted, the greater the chance of success for remedial measures in the child. Prevention is the key to blindness control. Stressing this in a recent address the Hon. J. Waldo Monteith, Minister of National Health and Welfare, said: "While substantial progress has been made in restoring the sight of certain blind pensioners through a joint federal-provincial treatment scheme, the real hope for the future lies in the field of prevention."

As part of the program, publications are also prepared and issued for free distribution. They include "Sharp Eyes for Teenagers," "Eye Trouble," and "Glaucoma".

The work and results so far achieved in combatting blindness can and will continue through the monies provided by your taxes to the federal treasury.
