

Why Teachers Love Meadow Flower

"My children had an amazing experience at Meadow Flower Nursery School! The teachers were engaging and genuinely cared about their students. They taught invaluable skills through play in the classroom and outdoor exploration. I watched my children grow creatively, develop problem-solving skills, learn to interact with others, resolve conflict, and work cooperatively during these years. We will always be grateful for our time at Meadow Flower!" - Tracy C., 8th grade teacher

"Meadow Flower will always hold a special place in my heart. Both of my children had such a positive learning experience with all of their teachers through a hands-on learning approach. Not only did they learn necessary social skills and how to interact with others, but through movement and play they were able to explore so many different topics and important events, all while learning and having fun! Both kids learned their letters, numbers, colors, and so much more! I felt confident after their time at Meadow Flower that they were both prepared and ready for Kindergarten." - Missy M., 4th grade teacher

"Meadow Flower preschool has been such a perfect fit for our child. She thrives on play-based experiences with opportunities to grow in so many different ways. Her teachers and the staff enhance my daughter's thinking, as well as her social skills during this developmental time in her life. We are very pleased with our experience with Meadow Flower preschool!" - Karen V. Academic Interventionist - Math

"All 3 of my children attended Meadow Flower Nursery School. The teachers were wonderful and gave the students a nurturing first experience in a classroom setting. This experience taught my children how to share, take turns, listen to others while also learning the academics. They were definitely prepared to enter the public school system." - Dana H., 3rd grade teacher
