Shakespeare WONDERBOWS

Featuring the Luxurious New X10

\$105⁰⁰

The X10—A new bench mark in archery elegance blending classic beauty with good functional design. Field-testing members of the P.A.A. (Professional Archers Association) call this beautiful bow *the fastest ever!* Balanced to perfection with weighted riser of exotic bubinga wood (hand rubbed luster) from South Africa. Ivory face and back. Handle is semi-pistol grip type for straight or bent wrist shooting styles. New curved arrow shelf allows close-in nocking, yet permits use of plastic vanes.

No. X10-66" (Right hand) in draw weights 30-35-40-45 lbs. @ 28", with nylon served stranded Dacron string (S71-66"). Specify LH X10 with draw weights above for special order left hand models. Fistmele, approximately 7" from face.

\$79⁹⁵

The X15 — A full working recurved bow of true championship construction styling and quality. Rich ivory-white face and backing, 2" wide for maximum stability; luxurious black walnut and maple lamination with decorative pin-striping. 7-inch "Accuracy" designed sight window with "comfort-contour" handle, long lasting feather rest and exclusive arrow plate of clipped calf hair. Recommended fistmele, 7".

No. X15-69" (Right Hand) in draw weights 35-40-45-50 lbs. @ 28". With Nylon served stranded Dacron bow string. (No. S71-69" 30/40, 40/50 or 50/60). Primarily for tournament; also for hunters who draw 30" or more.

No. X15-66" (Right Hand) in draw weights 35 lb.—40-45-50 @ 28". With Nylon served Dacron bow string. (No. S71-66" 30/40, 40/50 or 50/60). All 'Round model, but primarily designed for tournament shooting, hunting or field as a secondary usage.

Specify LH before number for special order left hand models.

X15

X16

\$52⁹⁵

The X16—A high quality bow at surprisingly low cost. This 66" full working recurve model has a semi pistol grip handle, designed with serious shooters in mind. It's fast enough for hunting, yet it has the kind of stability that "money shooters" look for. As for looks, its owner need never be hesitant about stringing it up in any company. Handle riser is exquisite cherry; back is cool green with ivory white face. Has full view sight window, shock absorbing arrow rest and calf's hair arrow plate. Recommended fistmele, 6 7/8".

No. X16-66" (Right Hand) in draw weights 30-35-40-45-50 lbs. @ 28" with nylon served Dacron string (S71-66"). Specify LH X16 with draw weights above for special order left hand models.

\$24⁹⁵

The X24—A serviceable, economically priced semi-working recurved Wonderbow that is designed to stand up under gruelling conditions and hard usage. The X24 is an excellent bow for the serious archery beginner; it is also recommended for school, camp or recreation programs. This 60" laminated bow has a comfortable contoured maple handle with full view sight window. Face and back are of fiber glass, permanent red.

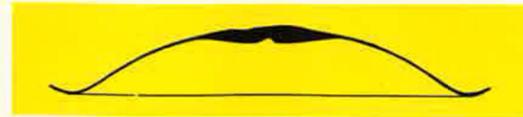

No. X24-60" (Right hand only) in draw weights 25-30-35-40 lbs. at 28" comes with nylon served stranded Dacron bow string (S71-60"). Recommended fistmele, 6 1/2" from face.

X24

WONDERBOWS

Designed for Hunting

\$59⁹⁵

The X17—This bow was designed to be the finest *bow hunting weapon* on the market for the price. Extremely fast, yet it is consistently accurate and stable to shoot. Has top quality polished walnut handle and riser with clipped calf's hair arrow plate and vertical feather rest for maximum quietness in the woods. Has charcoal gray back and ivory face. This fine bow also comes in lighter pound weights where its unusual speed at shorter draw lengths makes it an excellent competitive bow for women.

No. X17-62" (Right Hand) in draw weights 30-35-40-45-50-55-60 lbs. at 28", with Nylon served Dacron bow string (S71-62"). Fistmele 6¾" from face. Specify LH X17 with draw weights above for special order left hand models.

\$35⁰⁰

The X22—Here is one of the truly outstanding values in the Shakespeare lineup of quality built Wonderbows. Its modest price puts it within reach of almost anyone who wants to own the finest in a hunting weapon without the fancy frills. This 60-inch full working recurve bow is as fast as they come, stable and accurate as some customized tournament specials. It has the appointments of much more expensive laminates. Outstanding features are its quiet felt arrow rest and plate, full sight window and exotic polished hardwood handle and riser. The X22 is also offered in lighter draw weights which makes it ideal for women and teenage shooters.

No. X22—(Right Hand) in draw weights 30-35-40-45-50 lbs. at 28", with Nylon served Dacron bow string (S71-60"). Fistmele 6¾" from face. Specify LH X22 with weights above for special order left hand bows.

WONDERSHAFT SELECTION CHART

The chart below should be used in selecting the proper size glass fiber WonderShafts. However, the cast and degree of center shot in the design of a bow may cause variations and therefore the chart may not apply in all cases. Each WonderShaft is marked with a proper letter. To obtain the proper spine weight to draw length, find the bow weight desired in the left hand column, then trace to the right to the column headed by the draw length desired. The letter shown should be the size WonderShaft needed. REMEMBER: Add one inch to draw length if the shaft is to be used for broadheads.
