FLUIDAL-POWERS

by: Jimmy Chen / Ontario

Have you ever wondered what is really behind the mysterious occurrences throughout our history and also in our day-to-day lives such as ghosts, hauntings and apparent supernatural or extrasensory phenomena, e.g. telepathy, telekinesis, stigmata, possessions, etc.? Or what is really behind objects that are believed to be cursed or blessed, and what makes an object such as clothing or jewellery personalised and special for the

THE MYSTERIOUS TREE

At the Hinwil UFO demonstration

by: Francisco Villate (Rhal Zahi) / October 25, 2020

In a snowy afternoon on 18 March 1975, close to Hinwil in Switzerland, Billy Meier recorded a film of the famous Pendulum UFO. It shows a Beamship dancing around a tall tree, moving the treetop without touching it, and imitating pendulum movements that do not follow pendulum laws of physics. The tree itself is a mystery because it vanished just after this demonstration, and the inhabitants of the house where the tree stood had no memory of its existence. Meier explained that a Plejaren ET friend of his, caused this tree to vanish because it was affected by some form of radiation from the beamship (the UFO), and they move it to another location in time. If this sounds fantastic, the whole story is even more mysterious. The big tree we see that looks real and close to the house did exist. There is proof it existed; but not in 1975...in 2005. When looking at available Swiss aerial photos, we find the tree did not exist in 1972, three years before the...

FLUIDAL-POWERS...continues

person wearing them?

Since the beginning of recorded history there have again and again been accounts of such things which for some people could seem frightening due to the unexplainable causes, or even dismissed as imagination, hoax, deception and fraud by some others. Whether they are thought to be genuine or not, these phenomena certainly appear again and again and often cannot just simply be dismissed as imagination or fraud in all cases.

The truth behind many of these up-to-now unexplainable phenomena is that they are actually explainable according to natural causes and effects, that is, they are not supernatural and not extrasensory, but all natural and within our sensory capabilities, only that our scientists have not yet found the true causes of these phenomena due to the invisible nature of the powers that are behind these. The 'fluidal-power', as explained in the spiritual teaching, is in fact the true cause and origin of these types of unexplainable phenomena. The 'fluidal-powers' are invisible bio-electromagnetic energies and powers which emanate from the human being and have the potential to interact with and manifest in the material visible world, including other human beings, in many different ways. The book titled 'Rund um die Fluidalenergie resp. Fluidalkräfte und andere Dinge' ('About the Fluidal-Energy, respectively, Fluidal-Powers and Other Things') by Billy deals extensively with this topic and helps to clarify many of the unexplainable phenomena and allows us to distinguish from what is real and not real so that we can always see things as they really are in reality and become the master of our lives.

This book which has up-to-now only been available in German has now been translated into English and will soon be available to readers who are interested in this topic, hopefully in the next year!

DIE FRIEDENSMEDITATION

von: Christian Frehner / Schweiz

Salome gam nan ben urda,
Friede sei auf der Erde,
gan njber asala hesporona!
und unter allen Geschöpfen!

Einleitung

Im Frühjahr 1984 begannen die FIGU-Mitglieder in der Schweiz mit der sogenannten FRIEDENSMEDITATION. Von unseren ausserirdischen Freunden, den Plejaren organisiert, sollte diese Friedensmeditation (FM) Bezüglich der Zukunft der Erdenmenschheit eine Wende zum Besseren herbeiführen. Funktionieren sollte dies, indem durch das Aussenden kraftvoller und logischer Impulse ein Gegenpol zu jenem negativen «Kraftfeld» aufgebaut wird, das die Erde wie eine Glocke umhüllt und das die Menschen sowie die ganze Natur beeinflusst. Dieses negative Kraftfeld wurde (resp. wird) über Jahrhunderte hinweg durch ein religiös-sektiererisches, extremistisches und ausgeartetes Denken der Menschen aufgebaut. – Die Idee war also, mittels Hilfe von mehr als 3,5 Milliarden Menschen der Plejarischen Föderation via einer hoch über dem Semjase Silver Star Center (SSSC) schwebenden Telemeterscheibe und mittels anderer Einrichtungen kraftvolle «Gegenimpulse» auf der Erde auszusenden – mit offensichtlichem Erfolg, wie sich inzwischen herausgestellt hat. Diesbezüglich sollen die 4 weiter unten aufgeführten Auszüge aus Kontaktgesprächen mit Ptaah resp. Semjase Begründungen und Hintergrundinformationen liefern.

Da die Erdenmenschheit in erster Linie für den eigenen Zustand sowie auch für jenen des Planeten im Guten wie auch im Schlechten selbst verantwortlich ist und demgemäss

THE PEACE MEDITATION

[NEW ADDITIONAL INFORMATION: NOVEMBER 2020]

by: Christian Frehner / Switzerland

Salome gam nan ben urda,
Peace be on the Earth,
gan njber asala hesporona!
and among all created-creations!

Introduction

In spring 1984, the FIGU members in Switzerland began with the so-called PEACE MEDITATION. Organised by our extraterrestrial friends, the Plejaren, this Peace Meditation (PM) was intended to bring about a change for the better with regard to the future of humanity on Earth. This works by sending out powerful and logical impulses through which a polarity is built up which is opposite to the negative 'power field' which surrounds Earth much like a huge bell and which influences the human beings and all of nature. Over several centuries, this negative power field has been (that is to say, is) built up by the human beings by means of religious-sectarian and extremist thinking that is out of the control of the good human nature. Therefore the idea was to send out – with the help of more than 3.5 thousand-million¹ human beings from the Plejaren federation, via a telemeter disk hovering high above the Semjase Silver Star Center (SSSC) and by means of some other devices – powerful 'counter impulses' on Earth; with obvious success as it has turned out in the meantime. Regarding this, four excerpts from contact reports with Ptaah and Semjase, which can be found further down, shall provide some explanations and background information.

Since the terrestrial humankind is primarily responsible for its own state as well as for that of the planet, for better or for worse, and accordingly also for a healing process, we call

¹On the 22.8.2011 it was decided with Billy, not to use 'trillion' for the German term 'Billion' and not to use 'billion' for the German term 'Milliarde' as it can lead to confusion. Therefore the German term 'Milliarde' (1000 million) should be translated as 'thousand-million' (<http://dict.figu.org/node/9250>) and the German term 'Billion' should be translated as 'million-million' (<http://dict.figu.org/node/9248>).

THE PEACE MEDITATION...continues

auch für eine Heilung, ergeht hiermit der Aufruf an alle vernunftbegabten und verantwortungs- bewussten Menschen, sich an der FM der FIGU zu beteiligen. Je mehr Menschen sich mit engagieren, desto grösser und machtvoller wird die positiv-neutrale Kraft! – Auch wenn wir keine Angstmache betreiben wollen: Die Gefahr eines 4. Weltensbrandes und anderer schlimmer Geschehnisse ist noch lange nicht gebannt! Noch für lange Zeit bedarf es daher weiterer grosser Anstrengungen in vielerlei Hinsicht, bis dereinst in ferner Zukunft die Erdenmenschheit als Gesamtheit in friedlicheren Bahnen denkt und handelt – hoffentlich.

Da jede Wende zum Besseren (oder Schlechteren) stets nur von den Entscheidungen und Anstrengungen einzelner Menschen erarbeitet wird, muss es das Leitmotiv vernünftig denkender Individuen sein, nicht die Hände in den Schooss zu legen und sich nicht wie Schafe vom Herdentrieb der Masse schieben zu lassen, sondern das eigene Schicksal selbst zu gestalten und zu leiten.

Wer nach dem dummen und menschenfeindlichen Spruch «Nach mir die Sintflut» lebt und nicht nach dem Spruch «Leben und leben helfen», dem sei der Hinweis mit auf den Weg gegeben, dass Wiedergeburt (Reinkarnation) nicht einfach eine spekulative, philosophische Theorie ist, sondern eine in Logik beweisbare Tatsache. Jeder Mensch wird wieder und wieder als neue Persönlichkeit auf der Erde inkarnieren (unabhängig davon, ob man dies wahrhaben will oder nicht) und dannzumal genau jene Welt vorfinden, die er oder sie in der Vergangenheit mitgestaltet hat – ganz gleich ob aktiv oder passiv, destruktiv oder konstruktiv.

Die Friedensmeditation in der Praxis**Wer kann mitmachen?**

Mitmachen kann jeder Mensch, der über ein klares materielles Bewusstsein verfügt (keine Drogen; kein Alkohol; keine schwerwiegende psychische Krankheit, die das Bewusstsein beeinträchtigt).

Sehr wichtig ist, dass eine absolute Freiwilligkeit herrscht bezüglich des Mitmachens bei der FM. Diese darf also nicht verordnet werden, so z.B. einem Kind.

Ab welchem Alter kann jemand mitmachen?

Sobald ein Kind verstandesmässig fähig ist, die Belange zu verstehen und zu erfassen (wie gesagt aber nur dann, wenn eine Freiwilligkeit und Eigeninitiative gegeben ist).

Wann findet die Friedensmeditation statt?

Die FM dauert jeweils 20 Minuten und wird am 1. (massgebend ist der erste Samstag) und 3. Wochenende des Monats durchgeführt, und zwar an Samstagen um 18.30 und 20.00 Uhr MEZ resp. 19.30 und 21.00 Uhr MESZ (Sommerzeit) und an Sonntagen um 20.00 Uhr MEZ (Normalzeit) resp. 21.00 Uhr MESZ (Sommerzeit). In Ländern, die einen Wechsel zwischen Normal- und Sommerzeit anwenden, ist bezüglich der FM eine zeitliche Anpassung erforderlich. Die lokale Zeit können mit den konstanten GMT/UTC-Zeiten synchronisiert werden.

Wie meditiere ich?

Grundsätzlich empfiehlt es sich, vor der Durchführung jeglich-

upon all rational and responsible human beings to participate in FIGU's PM. The more human beings who become involved, the greater and more mighty will be the positive-neutral power! – Although we do not wish to cause any anxiety: the threat of a fourth global conflagration and other bad happenings has not been averted by a long stretch!

Therefore, for a long time to come, further big efforts are required in this regard, until one day in the distant future the terrestrial humankind in its entirety thinks and acts along more peaceful lines – hopefully.

Since every turn for the better (or worse) is always only worked out by the decisions and efforts of individual human beings, the leitmotif for rationally thinking individuals must be not to sit back and do nothing and not to allow themselves to be pushed like sheep by the herd instinct of the masses, rather to form and direct their own destiny for themselves. Therefore, anyone who lives by the maxim, "devil-may-care" – which shows low intelligence and hostility towards human beings – and not according to the maxim, "live and help live", is given a piece of advice for life; namely that rebirth (reincarnation) is not merely a speculative, philosophical theory, but a fact verifiable through logic. Every human being will repeatedly incarnate on Earth as a new personality (regardless of whether one wants to accept this or not), and at that time he/she will find exactly the type of world he/she has helped to shape in the past – no matter whether it was done actively or passively, destructively or constructively.

The Peace Meditation in Practical Terms**Who can participate?**

Every human being who possesses a clear material consciousness (no drugs; no alcohol; no severe mental/psychical illness that impairs the consciousness) can participate. It is very important that an absolute voluntariness prevails regarding the participation in the PM. Therefore it must not be prescribed to a child, for example.

From what age can one participate?

As soon as a child is intellectually able to understand and comprehend the issues (but as mentioned, only if it is voluntary and his/her own initiative).

What is the schedule of the Peace Meditation?

The PM always lasts for 20 minutes and takes place on the 1st (decisive is the first Saturday) and the 3rd weekend of the month, namely on Saturdays at 6:30 and 8:00 pm CET (normal time) that is to say, 7:30 and 9 pm CEST (summer time), on Sundays at 8 pm CET (normal time) that is to say, 9 pm CEST (summer time).

In countries that apply a change between normal time and daylight-saving time, a time adjustment is required with regard to the PM. The local time can be synchronised with the constant GMT/UTC times.

How do I meditate?

Basically, it is recommended that one reads the book 'Introduction to Meditation' prior to carrying out any type of meditation (however, this is not absolutely necessary).2

THE PEACE MEDITATION...continues

er Form von Meditationen das Buch «Einführung in die Meditation» zu lesen (dies ist aber nicht zwingend erforderlich).

Der Meditationsvorgang als solcher besteht darin, dass man während der ganzen 20 Minuten immer wieder den Meditationssatz leise vor sich hin flüstert oder spricht – oder sich eine korrekt gesprochene Audioaufnahme der FM anhört und den Satz in Gedanken repetiert – und dabei keine Fremdgedanken hegt. Dies heisst, dass keinen anderen und also meditationsfremden Gedanken nachgegangen werden soll, dass man sich also nur auf den Satz «Salome gam nan ...» konzentriert. Erappt man sich dabei, dass anderen Gedanken nachgegangen wird usw., dann wende man sich einfach wieder dem Meditations- spruch zu.

Sehr wichtig für das Funktionieren der FM ist es auch, dass der Spruch richtig ausgesprochen wird, dass also nicht die falschen Silben betont werden. Diesbezüglich kann ein Beispiel von der FIGU-SSSC-Webseite heruntergeladen werden, bzw. steht auf FIGUVIDEO (YouTube) ein englischsprachiger Film zur Verfügung. Der Satz wird auf diese Art gesprochen: «Saalome gam naan ben uurda, gan nijber asaala hesporoona!» Die Doppelvokale werden gedehnt ausgesprochen, abgesehen vom Doppelvokal «uu», der kurz betont wird.

Wie funktioniert die Friedensmeditation?

Der Meditationsspruch ist in Lyranischer Sprache verfasst, einer Sprache also, die vor 13'500 und vor 389'000 Jahren von den alten Lyra-Wega- Abkömmlingen gesprochen wurde, als diese eine Zeitlang auf der Erde lebten. Durch das gemeinsame Aussprechen (und Denken!) dieses Spruches werden in den Speicherbänken, die die Erde umhüllen und in denen sämtliche Gedankenimpulse usw. aller Menschen gespeichert sind, die jemals auf der Erde gelebt haben, leben und noch leben werden, gewisse Impulse freigesetzt, die einerseits in den einzelnen Meditierenden wiederum unbewusste Impulse freisetzen, und die andererseits durch ihre Intensität (es beteiligen sich ja wie bereits erklärt mehr als 3,5 Milliarden Ausserirdische an der FM; siehe Bericht weiter unten) negative Kraftfelder überlagern und zunehmend neutralisieren. Durch die spezielle Sitz- und Handstellung entsteht ein Energiekreislauf, der dann mittels Meditations- pyramide mit den Energien aller andern zur gleichen Zeit Meditierenden in Verbindung tritt.

Sitzhaltung, Hilfsmittel und Umgebung

Die FM wird vorzugsweise in kleinen oder grösseren Gruppen durchgeführt. Man kann sie aber auch allein absolvieren. Damit Menschen, welche die FM ausserhalb des SSSC durchführen, die gewünschte Wirkung erzielen, ist die Benutzung einer speziellen Kleinpyramide erforderlich. Bei korrekter Verwendung der Kleinpyramiden – u.a. angepasst an die Gruppengrösse – erfolgt eine schwingungsmässige Verbindung zwischen den Meditierenden und einem speziellen «Kraftblock» der Zentrums- pyramide im SSSC. Durch die eintreffenden Impulse der Meditierenden wird

The meditation process as such consists of softly whispering or speaking the meditation sentence again and again for the entire 20 minutes – or one can listen to a correctly spoken audio recording of the PM and repeat the sentence in one's thoughts – while one does not follow any foreign thoughts. This means that one does not dwell on other thoughts that are foreign to the meditation, rather that one solely concentrates on the sentence 'Salome gam nan ...'. If one catches oneself following other thoughts and so on, then one simply returns to the meditation sentence again.

Very important for the PM to work is also that the sentence is pronounced properly, so that one does not emphasise the wrong syllables. In this regard an example can be downloaded from the FIGU-SSSC-website, respectively, an English language film is available at FIGUVIDEO (YouTube). The sentence is spoken as follows: "Saalome gam naan ben uurda, gan nijber asaala hesporoona!" The double vowels are spoken in a prolonged form, except for the double vowel 'uu', which is pronounced short. In English the phonetics are as follows: Saalome (aa = father) gum naan (aa = father) ben uurda (uu = full), gun neeber asaala (aa = father) hesporoona (oo = tone, go).

How does the Peace Meditation work?

The meditation sentence is composed in the Lyrian language, thus a language previously spoken on Earth 13,500 and 389,000 years ago by the ancient Lyra-Vega descendants when they lived on Earth for a while. As one speaks (and thinks!) this sentence, certain impulses are released from the storage banks which enwrap the Earth and in which there are stored all thought impulses and so forth of all human beings who have ever lived, currently live or will live on this planet in the future. On one hand, these impulses in turn release unconscious impulses in the individual meditator, and, on the other hand, due to their intensity (after all, as already explained, more than 3.5 thousand-million extraterrestrials participate in the PM; see report further down), they overlay and increasingly neutralise negative power fields. By means of the special seating and hand position an energy circle arises which then, by means of a meditation pyramid, connects with the energies of others meditating at the same time.

Seating position, aids and surroundings

Preferably the PM is carried out in small or larger groups, but it can also be done alone.

In order for human beings who do the PM outside the SSSC to achieve the desired effect, it is necessary to use a special small pyramid.

If the small pyramids are used correctly – adapted to the size of the group, among other things a swinging-wave-based connection between the meditators and a special 'power block' of the central pyramid in the SSSC ensues. Through the incoming impulses of the meditators this 'power block' becomes continuously more powerful; that means, more energy-rich. As a direct consequence the radiation

ABOUT OUR SOON TO BE PUBLISHED NEW BOOK: RUND UM DIE FLUIDALENERGIE...

by Catherine Mossman / November 19, 2020 / Tiny, Ontario

Well, you may've heard, one of our FIGU-Landesgruppe members has translated *Rund um die Fluidalenergie resp. Fluidalkräfte und andere Dinge, Fragen und Antworten*. (About the Fluidal Energies, resp., Fluidal Powers and other Things, Questions and Answers) Originally published by the SSSC in 2007.

Oh to be a fluent German speaker, and to have had access to this information 13 years ago! However, as is the case with most of Billy's material the multi-faceted topics of wisdom trickle out in various organs of publication, and we are not coming to this, here in the English world, totally anew. Those of us immersed in the FIGU material have some inkling, more or less of what the Fluidal Energies/Powers are.

However, that being said, this is really yet another fantastic book! I'm one of our group who's volunteered to proof-read the translation and what a joy it is to read it again. It is not so easy to proofread as one just wants to absorb and reflect on what is being said... but proofing demands the reading onwards and careful watching for grammatical/spelling/translation errors... I did say 'read again', as I actually read it in German about 5 years ago, it was slow-slogging at that time, with much note taking and looking up of terms. And now to re-visit it afresh, in English, where it flows more cohesively, is a renewed eye-opener; it is packed with information that no one on this planet has ever iterated in such detail before. Humanity is so very lucky to have Billy's legacy of wisdom forever captured in print and digitally for the furtherment of our collective evolution.

This information also testifies to how reading it again and again always brings new understanding and insights that one did not grasp on the first, second, third read throughs. As we evolve, even over the course of a few years, we come to this material with ever new cognitions.

The format of the book is Question and Answer, put together from various transcripts dating as far back as 1976 to 2005. At times the questions are very similar to each other, but every time Billy answers with patience and goes into great detail, re-explains and clarifies misunderstandings on the part of the questioners.

The power of our mental swinging waves is something to really get our heads around. This is what imbues our own skeleton, organs, clothes, environment, and lasts for a long, long time after we've departed our current life. During each life we tap in, subconsciously, to our deposited swinging waves from many lifetimes in the past in order to aide in our working-out of things, and evolutively proceed in this one. Another topic of interest was about the instantaneous dissolving of our personality, seconds after we die, and the subsequent building of our new-personality, also seconds after our old has dissolved! That's amazing....we're not even a conscious being again, yet our new base-personality is already formed! And all of the working out and resolving of our recently departed life, and the subsequent new formation of the next personality, occurs at Creational speed, which is 10 to the power of 7000 times the speed of light, unfathomable!

And we've all heard of the Storage Banks/a.k.a. Akashic Records, well there are many different levels. We have our own storage bank that pertains to our own lineage of personalities/ lives. There are also planetary, galactic, and universal banks! Everything we say (even every syllable of our speech, is recorded, along with the accompanying feeling and thoughts that go along with each utterance), do, think, dream is stored, including our little ticks and mannerisms. These mannerisms can reappear from lifetime to lifetime. Here are a couple of excerpts from some recorded Q and A's that touch on a few of these topics of interest to me

continues next page

ABOUT OUR SOON TO BE PUBLISHED BOOK...continues

(all extracts reflect page numbers from the German book, translations by Jimmy Chen):

Nov 13, 2000 pages 292-294

Frage: Wann verliert die Persönlichkeit ihre mentale Fluidalkraft?

Antwort: Sobald die alte Persönlichkeit verstorben und das aktuelle Leben sowie das Bewusstsein erloschen sind.

Frage: Vor der Geburt?

Antwort: Die mentale Fluidalkraft der alten Persönlichkeit schwindet sofort nach dem Erlöschen des Lebens und wird also vor der Entstehung der neuen Persönlichkeit aufgelöst, so also auch vor der Wiedergeburt der Geistform und der Geburt des Bewusstseinsblocks sowie des neuen Bewusstseins und der neuen Persönlichkeit in einen neuen Embryo.

Die Auflösung der mentalen Energie erfolgt mit dem Erlöschen des Bewusstseins und der Persönlichkeit in einer bestimmten Form des Jenseitsbereiches (Todesleben), in den nur der Bewusstseinsblock eingeht.

Das bedeutet, dass der mentale Block nach dem Sterben zwar aktiv erlöscht, jedoch passiv noch eine oder zwei, drei Sekunden im Bewusstseinsblock bestehen bleibt, wenn dieser in den Jenseitsbereich eingeht und alles noch Unverarbeitete der Persönlichkeit verarbeitet wird. Das besagt auch, dass sofort nach dem Sterben vom Bewusstsein und der Persönlichkeit nichts mehr vorhanden ist, wodurch auch der Unsinn dessen klar wird, dass keinerlei Medien mit Verstorbenen reden können, folglich also Totenbeschwörungen und dergleichen ins Reich der Illusionen und Phantasie oder gar in den Wahn schizophrener Formen gehören.

July 6 2001 p 322

Es gibt aber nicht nur eine allgemeine Speicherbank oder eben allgemeine Speicherbänke, sondern auch Speicherbänke, die nur auf den Gesamtbewusstseinsblock Es gibt aber nicht nur eine allgemeine Speicherbank oder eben allgemeine Speicherbänke, sondern auch Speicherbänke, die nur auf den Gesamtbewusstseinsblock ausgerichtet sind. Diese dienen dazu, dass die durch den Block erschaffene neue Persönlichkeit alle alten Dinge der früheren Persönlichkeiten verarbeiten und was notwendig ist ins Unterbewusstsein aufnehmen kann. Dadurch wird die Möglichkeit geschaffen, dass sich alle Frequenzen der Gedanken aller früheren Persönlichkeiten im Unterbewusstsein der neuen Persönlichkeit abspeichern, wodurch dieses in steter Verbindung mit den Speicherbänken bleiben kann.

July 6, 2001 p 360

Wenn gesprochen wird, formen die Silben und Laute die Schwingungen sowie deren Energien und Kräfte, also Fluidalkräfte, und zwar je nachdem, wie die Gedanken und Gefühle negativ oder positiv geformt sind. Wenn herumgeflucht wird und keine guten Gefühle dabei sind, dann hat die Fluidalkraft auch keine guten Schwingungen und Impulse. Die Fluidalkräfte sind eben, im Bezug auf das Reden, auf die Silbe, immer je nach dem geformt, wie die Gedanken und Gefühle sind, wie die Gesinnung ist usw.

Und alles lagert sich dann so in den Speicherbänken ab.

Question: When does the personality lose its mental fluidal-power?

Answer: As soon as the old personality has died and the current life as well as the consciousness are extinguished.

Question: Before the birth?

Answer: The mental fluidal-power of the old personality vanishes immediately after the extinguishment of the life and is therefore dissolved before the emergence of the new personality, so therefore also before the rebirth of the spirit-form and the birth of the consciousness-block as well as the new consciousness and the new personality into a new embryo.

The dissolving of the mental energy occurs with the extinguishment of the consciousness and the personality in a distinct form of the otherworldly realm (death-life), into which only the consciousness-block enters.

This means that the mental block is indeed actively extinguished after the dying, however, passively still remains existing for one or two, three seconds in the consciousness-block, when this enters the otherworldly realm and everything that is still unworked out by the personality is worked out. This also means that immediately after the dying, nothing more of the consciousness and the personality is present anymore, through which also the nonsense of the fact becomes clear that absolutely no mediums can talk with the deceased, therefore necromancy and the like belong to the realm of the illusions and fantasy or even to the delusion of schizophrenic forms.

There is, however, not only a general storage-bank or simply general storage-banks, but rather also storage-banks which are only directed towards the overall consciousness-block. These serve thereto that the new personality created by the block can work out all old things of the former personalities and take in what is necessary into the sub-consciousness. Thereby the possibility is created that all frequencies of the thoughts of all former personalities are stored in the subconsciousness of the new personality, through which this can remain in constant connection with the storage-banks.

When speaking, the syllables and sounds form the swinging waves as well as their energies and powers, that is, fluidal-powers, and indeed according to how the thoughts and feelings are formed negatively or positively.

If one curses around and there are no good feelings, then the fluidal-power also has no good swinging waves and impulses. The fluidal-powers are simply, in relation to the speaking, to the syllable, always formed according to how the thoughts and feelings are, how the mentality is, etc. And everything is then stored in this manner in the storage-banks.

ABOUT OUR SOON TO BE PUBLISHED BOOK...continues

January 21, 2002 p 361

Fragen: Wie gross ist die Geschwindigkeit der Verarbeitung der noch zu verarbeitenden Dinge, die während des Lebens nicht verarbeitet wurden und durch den Gesamtbewusstseinblock noch verarbeitet werden müssen, was ja ein Vorgang von nur wenigen Sekunden oder Sekundenbruchteilen sein soll?

Antwort: Die Verarbeitungsgeschwindigkeit des Gesamtbewusstseinblocks bewegt sich in der Höhe der Schöpfungsgeschwindigkeit und damit also mit 10^{7000} facher Lichtgeschwindigkeit.

Question: How great is the speed of the working-out of the things that are still to be worked out, which were not worked out during the life and still must be worked out by the overall consciousness-block, which indeed should be a process of only a few seconds or fractions of a second?

Answer: The working-out speed of the overall consciousness-block moves in the heights of the speed of Creation and so therefore with 10^{7000} times the speed of light.

This book is so chock-a-block with information, everything is of interest, and worthy of much reflection and digestion. We expect to publish this book early in 2021... it cannot come more highly recommended. Salome! Catherine

Campbell Foster / Toronto, Ontario

Like the first cool day near the end of Summer's hell
 Or the first warm day of Spring that melts the snow
 Like the first drops of rain after a long, dry spell
 Or the first stars at dusk that begin to glow;

We are spreading the Light from one candle to another
 We are becoming aware with each turn of the page
 The strangers we meet feel like sister and brother

Because Wisdom is the treasure of the new Golden Age.

Greg Dougall / New York, USA

THE MYSTERIOUS TREE...from page 1

demonstration by the Plejaren woman Semjase. There is not even a small tree in that place. If it was present in 1975, how can we see a tree grow into a 20-meter tall tree, in just three years? The tree is not seen in photos of 1978, either, three years after the demonstration.

However, in 1996 photos we do see the tree, maybe half the height of the tree seen in Meier's film. In 2003 we find a full-size, 16-meter tall tree, at the same location with the same width, height and shape seen in Meier's film. In 2006 the tree is noticeably absent, but the grass is brown where the tree previously stood. The surrounding grass is green. A bare patch on the ground close to the house indicates a tree was recently there and recently cut down (or vanished?). What Meier shows in the 1975 film is a big tree, as it will be from 2003 to 2006 (maybe in 2005).

How could Meier show a film with a tree that will exist 30 years later? Some sceptics claimed Meier used a small tree and a little UFO model close to the camera, with the view of the distant house in the background. They have not yet, of course, explained how this little model moved the little treetop without touching it, and other aspects that show the tree is big and real. To assume the sceptic theory correct means Meier set up a fake scene that exactly matched the location, with a little tree the size and shape of a future big tree, 30 years ahead in time! How could Meier know the existence of a tree, many years before, precisely where he showed it in his film? Every explanation, even from the sceptics' point of view, would be fantastic.

In this document, we will present evidence of these findings.

Location of the Hinwil Demonstration

The house in the demonstration is very close to Hinwil, and located at:

47° 17' 37.55" N and 8° 50' 09.68" E

The following figure shows a birds-eye view of the area. The main house and secondary construction seen close to the big tree and the UFO are indicated in this map. Meier's location is approximate. The buildings to the East and the tall tree forest to the West are in another video Meier made later, after the demonstration. Meier might be at 330 meters from the house, estimating his location on what the film shows. Here we cannot use the Camera Formula to calculate the distance, because Meier was using his video camera and we do not know if he zoomed the image when recording this video. The ground level of the house is 13 meters higher than Meier's location. (See profile in figure 3)

The Mysterious Tree: a frame from Billy Meier's film during the demonstration

Figure 1: Google Earth 2020 image. Billy Meier's approximate location during the demonstration.

THE MYSTERIOUS TREE...continues

Measuring in Google Earth, the diagonal width of the main house roof as seen from Meier's location shows it is 23.2 meters (yellow dotted line figure 2). The UFO and tree are about the same distance from the camera, enabling us to calculate the size of this UFO (beamship) based on the roof length.

Figure 2: Shows a detailed view of the main house, secondary construction, and the location of the missing tree.

Figure 3: Profile of Meier's location at the place.

In figure 3, we show a scaled profile of Meier's location. The terrain elevation is from Google Earth at an inclination of 4%, and Meier is 13 meters below ground level of the house...

SELF-RESPONSIBILITY

by: Paul Saleh / Prince Edward Island

So many people today are all too willing to give their power away and put all of their responsibility and trust onto somebody else; authority figures of all kinds, governments, popes, priests and bishops, politicians, scientists, "experts", and even gods, goddesses, angels and demons and every other possible and impossible thing.

Even the moon, the sun, special amulets or tarot cards and so on are given more authority than the individual's very own self-trust, self-esteem and self-responsibility. Instead of turning our attention inwards and using our reason, understanding, and logic, as well as our intuition, knowledge and wisdom, we'd much rather push the responsibility outside of ourselves and wait for the "experts" to solve our problems.

Particularly the blind belief in scientists and other "experts" with degrees, status, financial success, lofty titles, ranks, and positions etc. is very common in these times. Just because someone has a degree in stupidology it doesn't mean that they have any kind of intelligence! However it is often exactly these people who are praised the most and fanned and fed grapes as if they were the gods themselves!

It is, in fact, the blind and narrow-minded following of science which has led humanity into the deepest spiritual poverty and to the edge of a great Abyss. Corporate capitalism, excessive consumerism, materialism and other cold, hard ideologies of our times have emerged from this deep spiritual poverty and have caused, and continue to cause the destruction of Nature and the pollution of the air, soil, and water.

Also the authoritarian and psychopathic religious and political institutions have a lot to answer for when it comes to leading humanity astray and forcefully and violently eradicating cultures and ways of life that were indeed good and right and in balance with Nature and the Creation. However, as this natural, healthy and spiritually progressive way of life got in the way of the power and domination plans of the psychopathic rulers, they were wiped-out or indoctrinated into accepting the new "more civilized" way of life, or as it could more accurately be described, way of death and ruin.

Human of Earth, think about this. Use your awareness and intelligence to look around..... What do you see? How does it make you feel? Is this truly the best that we can do?

The truth is: Absolutely not!

We must strive towards more harmony, more love, peace and true freedom, not just empty words and phrases. Use your intelligence! Learn again to trust your own inner self and take responsibility for your own thoughts, feelings, and actions and the life that you build out of these.

Homo sapiens: Wise human.

Lets stop this non-sense and start living up to our name!

A REAL LIFE

by: Geoffrey Maki / Alberta

Three weeks after a finished contract for a season of work in an empty house and a full fridge with a "Goblet of the Truth" to nourish the consciousness and revitalize the life force. The spiritual teaching sparks fervor for knowledge and its expansion but laying down the groundwork with regard to the specific accomplishment of heavy duty work and establishing framework specific to utilizing the material consciousness was the causal relation for construction of a general intelligence improvement. Which lead me to solve my own problems from confusion, betrayal, sorrow, loss, grief and transmuting them into many interests of the positive and a natural inclination to theoretical physics, molecular biology, applied psychology and the spiritual sciences. I am still learning about essential qualities that seem relevant to myself everyday so a real sense of humility and paying attention to what matters most, life itself, but a continued study of the spiritual teaching is a challenge and an amazing inspiration for a better reality unlike anything I have ever encountered in my life; it's highly recommended if you're ready because it stirs the very strength of a human being in its most harmonious sense.

Sincerely,
Geoffrey Maki

SPIRITUAL TEACHING AND PROOF

by: Jimmy Chen / August 16, 2020 / Ontario

With the rapid material progress in the last few centuries, which has propelled humankind away from a belief-oriented system to a more rational and empirical approach, life has certainly improved in almost all areas. From agriculture, transportation, communication to medicine, etc., the advancements in sciences and technology have raised the standard of living for almost all human beings on Earth. As a result, people have become fond and accustomed to the material way of life today and no longer want to believe in imaginary deities and gods, etc. because these no longer coincide with the scientific facts today and provide no real benefits. From this fundamental shift in the thinking which has brought about much benefit, most of the civilisation now relies on scientific and empirical approaches for their everyday life as well as for vetting and proving new discoveries. Most of the methods available today for proving something is via empirical methods founded on material principles, e.g. if certain observations and measurements match up with the expected values, or if a computer algorithm is able to verify something as being true. This has proven to be useful when working with purely material things, e.g. constructing tools, building machineries such as cars, planes, boats, or writing computer software, etc., since it would not be possible to make these things without proper measurements and computer models, etc.

Having become so accustomed to this material progress and way of life, however, many of the true human inner values have also become overlooked, ignored and neglected and as a result, while life has become more comfortable on the outside, the true inner values such as peace, love, freedom and harmony are becoming rarer and rarer and have instead been replaced with hatred, unpeace, restriction and disharmony, etc. By living a purely materialistic way of life and not properly cultivating the inner side of life, however, the human beings have chosen a path that leads to ruin and destruction, because according to the true reality, what is cultivated in the inside (thoughts, feelings, mental-state, psyche-state, consciousness, etc.), eventually will manifest on the outside. Therefore, if unpeace, hatred, disharmony are cultivated on the inside, then also on the outside, there will eventually be corresponding actions of unpeace, war, hatred, disharmony, etc., leading to destructive consequences and catastrophe.

As life is precious and all life deserves to be protected from harm, such a catastrophe needs to be prevented if possible. However, in order to prevent such a catastrophe, the true inner values of life would need to be recognised and cultivated and therefore, the human beings need recognition and knowledge about the true nature of life. The spiritual teaching has therefore been brought to the human beings so that they can use this teaching to learn the real values of life and help themselves to prevent a catastrophe and bring about a truly peaceful world by first properly cultivating the true values of life. However, since the human beings of Earth have become so accustomed to the material way of life and think accordingly, they also want empirical proof that the content of the spiritual teaching is correct before they will recognise

and begin to accept the teaching. Admittedly, this is useful in that it prevents the human beings from falling back into a belief system such as imaginary deities and gods, etc., however, at the same time, due to the lack of empirical evidence today regarding the spiritual matters, the truthful content within the spiritual teaching is also not heeded and recognised. This leads to an unfortunate situation, however, because without the recognition of the true nature of life as taught within the teaching made available to them, the eventual catastrophe of their own making will only continue to become bigger and bigger. Consequently, the true values of life which would help prevent a catastrophe remain uncultivated and disaster only draws near. The proof that the content of the spiritual teaching is correct will then perhaps come too late, when due to the falsely cultivated inner values of life, catastrophes manifest – which will itself be the evidence of the fact that what is cultivated in the inside of the human being will eventually manifest on the outside. As a warning sign while catastrophe draws near, however, due to the falsely cultivated inner values through corresponding ungood thoughts and feelings, the human psyche will be sounding its alarm; first as bad moods and feelings of imminent disaster, leading to disturbances of the psyche and then eventually in the worst case even the unbearable destruction of the psyche. In order to prevent the worst, hopefully the human beings will then heed this internal warning sign and look for better ways. The helpful means will always remain available to them in the form of the spiritual teaching which only teaches the truth and reality (e.g. "The Psyche" by Billy).

Furthermore, with a purely materialistic mode of thinking, the human being's will to survive and self-preservation gain the upper hand in a degenerated manner especially in the dog-eat-dog world we live in today. And without the true inner values such as peace, love, freedom, equality and harmony, etc. it only leads to greed for material things and also greed for might, which then further spirals into false modes of conduct such as addiction to material things and pleasures, exploitation of others and up to the improper governance of the whole civilisation. Paired with irrational thinking due to the still prevalent religions, false philosophies, rapid one-sided material progress and other negative influences, this leads to other very great unsolvable problems such as overpopulation, which can only be solved through rationality and a world-wide birth regulation. Without solving this problem, every other problem becomes exponentially worse and therefore further accelerates the way to catastrophe.

Fortunately, the spiritual realm is also intrinsically linked with the material, since after all, all material things are composed of spiritual energy. And thanks to the rapid progress in certain material sciences, perhaps one day the missing link between the material and spiritual will be found, and the proof that is needed will be discovered. To this day, scientists have discovered that the subatomic realm is more mysterious than they could have expected, e.g. the subatomic experiments in the hadron colliders and also the synchronised action between subatomic particles (Quantum Entanglement). These discoveries slowly show that what is thought to be true about the reality in which the human beings live always needs to be revised, e.g. recently it has

SPIRITUAL TEACHING AND PROOF...continues

been shown that the light particles which are quantum entangled remain entangled even at very great distances and can relay information between each other faster than the speed of light, which was thought to be impossible.

On the other side, since the spiritual teaching with its truthful content is not coercive, manipulative or irrational, but instead neutral, instructive and logical, it does not itself have the need to prove the validity of its content to others. Rather, it is freely up to each individual human being to decide whether the content is correct or not and to validate its content by comparing it with the reality in which they live. The truth is that the spiritual teaching was made available to the human beings for their benefit, and therefore it is actually the human beings who need the spiritual teaching for their evolution and well-being. The human beings may decide to ignore it and thus ignore the truth and in the worst case destroy their own world, but nevertheless, the truth still remains and evolution carries on through the continuation of life after death, via the re-birth of the spirit-form (in new personalities). The universe's evolutive success was actually guaranteed from the moment it was created, and the human beings of Earth will not be able to disturb this process. The great material progress that has brought so much benefit

has also brought with it a purely materialistic view of life that is not in line with the reality and which steers the world towards catastrophe. The human beings have turned away from their innermost nature, their spirit-form, nature, truth and the Creation itself, and as a result, no longer live a life according to the creational laws and recommendations, which is based in ethics, morality, peace, true love, inner freedom and harmony. However, since the human beings have brought themselves to the unfavourable present situation and are fully responsible, they also have the power within themselves to change towards the better and shape a better world.

Only when we look in the right direction through clear lenses will we find what we are looking for, that is, only when we align our consciousness with reality and the deep truths regarding the true nature of our universe as taught in the spiritual teaching, will we be able to think rationally and logically, and finally have the means to solve the unsolvable problems we have today, and one day even have the capability to empirically prove the deep truths of our universe, the inner consciousness processes and the existence of the spirit-form within the human being and perhaps even the Creation itself. Until then, we must look inside ourselves and find the proof there before it is too late.

PERSONAL TRANSLATION PROJECT / Quotes from Billy's book:

"Ein Quentchen Wissen, Sinn und Weisheit, under "Klarheit und Vertrauen in der Meditation"
Translation: April Mckenzie / November 2020 / British Columbia

page 222: Wenn man in Klarheit und Vertrauen in der Meditation verweilt, kann man sich mühelos von allen falschen Gedanken sowie von den Emotionen und unreellen Gefühlen befreien und sie in die ungeheure Weite der Unendlichkeit schicken, wo sie schwimmen und verschwinden – gerade so, wie wenn man sie auf Wasser schreiben oder in die Luft malen würde, wo sie sich sofort und in dem Augenblick auflösen und unexistent werden, in dem sie entstehen sollen. *If one stays in clarity and trust in the meditation, one can painlessly be freed of all false thoughts as well as of the emotions and unreal feelings and resign them into the tremendous breadths of the unendingness, where they grow hazy and vanish – exactly so, as would become if one writes them on water or in the air paints, where they immediately and in the moment dissolve and become un-existent where they should arise.*

In dieser Form vermag das schöpferische Gesetz von Ursache und Wirkung in keiner Weise mehr irgendwelche Fehler zu binden, denn der meditative Zustand von Klarheit und Vertrauen lässt alles in seiner wahrheitlichen Wirklichkeit erscheinen, die es ja zu erschauen gilt, um Fehler zu beheben, ehe sie zu entstehen vermögen. *In this form, the creational law of cause and effect is in no wise anymore able to bind to some kind of error, for the meditative state of clarity and trust lets all in its true reality appear, which is to be looked at, in order to remove errors before they are able to arise.*

FOOD STEPS--OUR FIRST ADVENTURE INTO GARDENING

by: Michael Uyttebroek / November 17, 2020 / Ontario

Although this may seem removed from the spiritual teaching material, the current times have prompted Catherine and I to look at basic food security as a real and tangible action that needs to be addressed. Over the course of the summer months several steps were taken in order to prepare ourselves for a new adventure in gardening and food preparation and storage. This was a small step towards self-sufficiency...and the cliched phrase 'getting back to the land'. The first step was preparing our sandy soil for growing which required that we get a shipment of triple mix soil. Then it was preparing beds, both in the ground and raised beds. In order to extend our growing season we built a 30' hooped greenhouse from a kit obtained from Bootstrap Farmers. We learned that the plants/vegetables loved the dark forest soil underneath the decomposing leaves and so, along with our compost (basically uneatable scraps of vegetables,

FOOD STEPS...continues

banana peels, egg shells, coffee grounds, leaves, etc.), we mixed all this together along with the triple mix and enriched our beds. We also grew potatoes and squash in buckets though with a limited yield due to the soil being just the triple mix.

Nevertheless, it was simply astonishing to watch everything grow in abundance. All that was needed was good soil, water and sun and voila, food!

The main vegetables that were harvested were cherry tomatoes, several varieties of larger tomatoes, hot peppers, squash (both buttercup and butternut), corn, garlic, onions and potatoes. After our fall harvest the task at hand was to preserve the tomatoes, and so we had to learn about pressure canning.

In the meantime, we were also tasked with building a root cellar which would serve as a place where we could now actually store our potatoes, squash, pressure canned tomatoes and dried canned foods. This was no easy feat to accomplish but with the help of our neighbour and friend Peter Chladek we were able to build this bunker using cinderblocks, filled with concrete and reinforced with rebar. The whole process was documented but here are just a few key pictures.

All in all, the process has been very rewarding; from conceiving an idea, drawing up a plan, following it through and making it a reality.
