

WHC
Autumn Statement Summary

1. Income Tax

Income tax rates

The government had previously announced that there would be a cut in the basic rate of income tax, from 20% to 19%, from April 2024. This was to be accelerated so that it took effect from April 2023. However, whilst the government aims to proceed with the cut in due course, this will only take place when economic conditions allow and a change is affordable. The basic rate of income tax will therefore remain at 20% indefinitely.

At the Mini Budget on 23 September 2022 the government announced a plan to abolish the 45% additional rate of income tax from April 2023. It was announced on 3 October 2022 that the government would not proceed with this plan.

From 6 April 2023, the point at which individuals pay the additional rate will be lowered from £150,000 to £125,140.

The additional rate for non-savings and non-dividend income will apply to taxpayers in England, Wales, and Northern Ireland. The additional rate for savings and dividend income will apply to the whole of the UK.

Income tax allowances

The income tax personal allowance and higher rate threshold were already fixed at their current levels until April 2026 and will now be maintained for an additional two years until April 2028. They will be £12,570 and £50,270 respectively.

The government will uprate the married couple's allowance and blind person's allowance by inflation for 2023/24.

Dividends

The government has also confirmed that, from April 2023, the rates of taxation on dividend income will remain as follows:

- the dividend ordinary rate - 8.75%
- the dividend upper rate - 33.75%
- the dividend additional rate - 39.35%.

As corporation tax due on directors' overdrawn loan accounts is paid at the dividend upper rate, this will also remain at 33.75%.

In addition, the government will reduce the Dividend Allowance from £2,000 to £1,000 from April 2023 and to £500 from April 2024.

These changes will apply to the whole of the UK.

2. National Insurance contributions

In September 2021 the government published its proposals for new investment in health and social care in England. The proposals were intended to lead to a permanent increase in spending not only in England but also by the devolved governments. To fund the investment the government introduced a UK-wide 1.25% Health and Social Care Levy based on the National Insurance contributions (NICs) system but ringfenced for health and social care.

The Health and Social Care Levy Act provided for a temporary 1.25% increase to both the main and additional rates of Class 1, Class 1A, Class 1B and Class 4 NICs for 2022/23. From April 2023 onwards, the NIC rates were intended to revert back to 2021/22 levels and be replaced by a new 1.25% Health and Social Care Levy.

However, the government has:

- reversed the temporary increase in NICs and
- cancelled the Health and Social Care Levy completely.

More detail for employees and employers

The changes took effect for payments of earnings made on or after 6 November 2022, so:

- primary Class 1 NICs (employees) generally reduced from 13.25% to 12% and 3.25% to 2% and
- secondary Class 1 NICs (employers) reduced from 15.05% to 13.8%.

The effect on Class 1A (payable by employers on taxable benefits in kind) and Class 1B (payable by employers on PAYE Settlement Agreements) NICs will effectively be averaged over the 2022/23 tax year, so that the rate will generally be 14.53%.

More detail for the self-employed

Following the principle detailed above, the changes to Class 4 NICs will again be averaged across 2022/23, so that the rates will be 9.73% and 2.73%

NICs thresholds

A similar principle to that outlined above for income tax thresholds will be followed in respect of the NICs upper earnings limit and upper profits limit. From July 2022, the NICs primary threshold and lower profits limit were increased to align with the personal allowance and will be maintained at this level from April 2023 until April 2028. The Class 2 lower profits threshold will also be fixed from April 2023 until April 2028 to align with the lower profits limit. They will again be £12,570 and £50,270 as appropriate.

WHC

Autumn Statement Summary

In addition, the government will fix the lower earnings limit and the small profits threshold at 2022/23 levels in 2023/24, namely £6,396 and £6,725 per annum respectively.

The government will uprate the Class 2 and Class 3 NICs rates for 2023/24 to £3.45 per week and £17.45 respectively.

Finally, the government will fix the level at which employers start to pay Class 1 NICs for their employees at £9,100 from April 2023 until April 2028.

3. Capital Taxes

(Capital Gains Tax, Inheritance Tax and Property Taxes)

Capital gains tax

The government has announced that the capital gains tax annual exempt amount will be reduced from £12,300 to £6,000 from April 2023 and to £3,000 from April 2024.

Inheritance tax

The inheritance tax nil-rate bands are already set at current levels until April 2026 and will stay fixed at these levels for a further two years until April 2028. The nil-rate band will continue at £325,000, the residence nil-rate band will continue at £175,000 and the residence nil-rate band taper will continue to start at £2 million.

Stamp Duty Land Tax

A number of changes were made to the Stamp Duty Land Tax (SDLT) regime earlier this year and these remain. Generally, the changes increase the amount that a purchaser can pay for residential property before they become liable for SDLT.

The residential nil rate tax threshold increased from £125,000 to £250,000.

The nil rate threshold for First Time Buyers' Relief increased from £300,000 to £425,000 and the maximum amount that an individual can pay while remaining eligible for First Time Buyers' Relief increased to £625,000.

The changes apply to transactions with effective dates on and after 23 September 2022 in England and Northern Ireland. These changes do not apply to Scotland or Wales which operate their own land transactions taxes.

Residential property

Consideration (£)	Rate (%)
0-250,000	0
250,001-925,000	5
925,001-1,500,000	10
1,500,001+	12

WHC
Autumn Statement Summary

Non-residential property

Consideration (£)	Rate (%)
0-150,000	0
150,001-250,000	2
250,000+	5

Higher rates may be payable where further residential properties are acquired.

The Government has confirmed that these cuts to SDLT will be a temporary reduction and will only remain in place until 31st March 2025

Note that different rates apply in Wales

4. Business

(Corporation Tax, capital allowances, R&D, SEIS, CSOP, VAT and company vehicles)

Corporation tax rates

It had been previously announced that the expected increase in the rate of corporation tax for many companies from April 2023 to 25% would not go ahead. However the government announced on 14 October 2022 that this increase will now proceed and this has been confirmed.

This means that, from April 2023, the rate will increase to 25% for companies with profits over £250,000. The 19% rate will become a small profits rate payable by companies with profits of £50,000 or less. Companies with profits between £50,001 and £250,000 will pay tax at the main rate reduced by a marginal relief, providing a gradual increase in the effective corporation tax rate.

In addition:

- bank corporation tax surcharge changes will proceed, meaning that from April 2023 banks will be charged an additional 3% rate on their profits above £100 million and
- from April 2023 the rate of diverted profits tax will increase from 25% to 31%.

Capital allowances

The Annual Investment Allowance (AIA) gives a 100% write-off on certain types of plant and machinery up to certain financial limits per 12-month period. The limit has been £1 million for some time but was scheduled to reduce to £200,000 from April 2023. The government has announced that the temporary £1 million level of the AIA will become permanent and the proposed reduction will not occur.

Up to 31 March 2023, companies investing in qualifying new plant and machinery are able to benefit from capital allowances, generally referred to as 'super-deductions'. These reliefs are not available for unincorporated businesses.

The government will also extend the 100% first year allowance for electric vehicle chargepoints to 31 March 2025 for corporation tax purposes and 5 April 2025 for income tax purposes.

Research and Development

For expenditure on or after 1 April 2023, the Research and Development Expenditure Credit (RDEC) rate will increase from 13% to 20% but the small and medium-sized

WHC

Autumn Statement Summary

enterprises (SME) additional deduction will decrease from 130% to 86% and the SME credit rate will decrease from 14.5% to 10%.

Seed Enterprise Investment Scheme

From April 2023, companies will be able to raise up to £250,000 of Seed Enterprise Investment Scheme (SEIS) investment, a two-thirds increase. To enable more companies to use SEIS, the gross asset limit will be increased to £350,000 and the age limit from two to three years. To support these increases, the annual investor limit will be doubled to £200,000.

Company Share Option Plan

From April 2023, qualifying companies will be able to issue up to £60,000 of Company Share Option Plan (CSOP) options to employees, twice the current £30,000 limit. The 'worth having' restriction on share classes within CSOP will be eased, better aligning the scheme rules with the rules in the Enterprise Management Incentive scheme and widening access to CSOP for growth companies.

VAT

The VAT registration and deregistration thresholds will not change for a further period of two years from 1 April 2024, staying at £85,000 and £83,000 respectively.

Vehicles

The government will set the rates for the taxation of company car benefits until April 2028 to provide long term certainty for taxpayers and industry. Rates will continue to incentivise the take up of electric vehicles.

In addition, from 6 April 2023 car and van fuel benefits and the van benefit charge will increase in line with inflation

From April 2025 electric cars, vans and motor cycles will begin to pay Vehicle Excise Duty in the same way as petrol and diesel vehicles.

5. Welfare, work and pensions

(Cost of living payments, benefits and National Living Wage)

Cost of living payments

The government will provide households on means-tested benefits with an additional £900 cost of living payment in 2023/24. Pensioner households will receive an additional £300 and individuals on disability benefits will receive an additional £150.

Uprating of benefits

The government will increase benefits in line with inflation, including the state pension. The standard minimum income guarantee in pension credit will also increase in line with inflation from April 2023.

Raising the benefit cap

The benefit cap will be raised in line with inflation, so that more households will see their payments increase as a result of uprating from April 2023. The cap will be raised from £20,000 to £22,020 for families nationally and from £23,000 to £25,323 in Greater London. For single adults it will be raised from £13,400 to £14,753 nationally and from £15,410 to £16,967 in Greater London.

National Living Wage and National Minimum Wage uprating

The government will increase the National Living Wage (NLW) and National Minimum Wage from 1 April 2023 as follows:

- the rate for 23 year olds and over to £10.42 an hour
- the rate for 21-22 year olds to £10.18 an hour
- the rate for 18-20 year olds to £7.49 an hour
- the rate for 16-17 year olds to £5.28 an hour and
- the apprentice rate to £5.28 an hour.

In-work conditionality for Universal Credit claimants

The government will bring forward the nationwide rollout of the In-Work Progression Offer, starting with a phased rollout from September 2023, to support individuals on Universal Credit (UC) and in work to increase their earnings and move off benefits entirely. This will mean that over 600,000 claimants on UC whose household income is typically between the equivalent of 15 and 35 hours a

WHC Autumn Statement Summary

week at the NLW will be required to meet with a dedicated work coach in a Jobcentre Plus to increase their hours or earnings.
