

over 100 years of innovation

LK500Xi elliptical

The LK500Xi with its 20.5" stride length and ultra low step up height of only 7.75", make it the ideal elliptical for settings with space constraints or low ceilings. The innovative upper front drive is smooth, silent and strong, adding to the durability while alleviating cumbersome guide rails and wheels, and ultimately reducing maintenance costs.

- i.Concept console allows you to use your tablet or smart phone to seamlessly interface with the equipment via Bluetooth
- 26 Built-in programs and 24 levels of electronically controlled resistance with additional program profiles available through downloadable apps
- Innovative Upper Front Drive Design eliminates rollers for less noise, smoother action and better durability
- PCS II Soft Step pedals reduce impact for a more comfortable workout
- Minimal Q Factor provides the optimal biomechanics for less impact on the body during a workout
