Directions: Begin by defining “privacy” in your own words. In the box below you will find places and things where you might expect some kind of privacy. But how much privacy do you expect? Individually, place each thing or place on the line below, from where you have the **lowest expectation of privacy** to where you have the **highest expectation of privacy**. Then, in your group, come to a consensus on your line and draw it on a sheet of chart paper.
