

“Whether you’re an industry novice or a seasoned veteran, there’s something for everyone in this course.”

Croft Petersmeyer,
PCL Construction Canada Inc.

Looking to expand your knowledge of the Canadian construction industry and learn how you can help your company be more efficient and effective?

CONSTRUCTION 101 AND BEYOND is your comprehensive overview of the Canadian construction industry. Designed specifically for construction management professionals, this two-day course breaks down the complexity of the industry examining the important roles for various industry stakeholders. Over these two days, you will participate in hands-on activities and examine every step of the industry – from bidding to closeout.

Topics include:

1. Introduction to construction industry
2. Major steps in a construction project
3. Risk management
4. Bid documents
5. Contract law
6. Bidding
7. Receiving bids and award of contract
8. Format of contracts and contract clauses
9. Project start up to close out

Whether you’ve been in the industry for 6 months or 5+ years, this course has something for you!
