AREA 51 LUCIFERIAN SIGNATURES

The purpose of this illustration is to layout from a top view the Area 51 Groom Lake that suggests composes an encrypted skull and bones motif. The 2 crossed runways are evidently the crossbones. What this illustration suggests is that the composition of the sand, if either by mere coincidence or design portrays the skull. Moreover this optical allusion from the sky is rendered in a 3-deminsional construct. The skull furthermore appears to be not of a human but of an 'Alien' type of humanoid with the conventional 'Alien' slanted eyes and larger eye socket. The dry lake bed also appears to have a pentagonal shape or 5 sides. This would render the area perhaps an occult sacred ground and vortex of energy that can or is funneled to open portals by the mere sacred geometric configuration. One of the peculiar mathematical properties of a pentagram is that its design is repeatable on into infinity. Within this pentagram, a hexagram can also be configured also.

UFO MERKAVAHS This skull and bones motif is perhaps an evident signature' of the Luciferians that run the shadow governments and secret operations such as Area 51. Such fraternal orders are in collusion with Lucifer masquerading as an Angle of Light and with his benevolent 'Aliens' trying to genetically alter the human race

THE HEXAGRAM

Locations like Area 51 are situated in a very high energy grid layout that encompasses the Earth energy chakras. These serve as 'Gateways' or portals that are more easily pierce the dimension due to the high frequency energies there. The Hexagram functions much like a key that unlocks the door. The combinations have been given to the Secret Societies as 'knowledge' that involves Luciferian magic and human sacrifice to are utilized in opening such portals.
