What our goals are with FPFV

1. To open a client choice food pantry that is set up like a store for our clients to come in and pick up what they need and will use.
2. Have pet food available for clients if in need.
3. To network with other organizations, provide information about available benefits, services.
4. Implement a homeless veterans outreach and backpack program.
5. Once established set up a mobile pantry & services to go to those clients not able to come to the pantry or to better serve homeless veterans that may not be able come to us.
6. To become a reliable source and service to our Nations Veterans and Service Members.
