She loves Sunrider!**

***Vitafruit's* greatest work is in assisting any tissue repair to cells damaged by free radicals.**

Thus, VitaFruit is very anti-aging. VitaFruit also increases the army of white blood cells in your blood stream, making it a great immune system food. Dr. Chen's research and development team states that *Vitafruit* contains thousands of phyto-nutrients not yet discovered!

***Vitafruit* is not a synthesized, chemical product created and manufactured by man.** Dr. Chen, in his brilliance, uses his technological expertise to extract and concentrate herbal fruit juice, while retaining its "Life Force" and its rich content of vitamins, minerals, and amino acids.

***Vitafruit* is formulated without added enzymes, preservatives, artificial sweeteners, or chemical isolates.** *Vitafruit* greatly benefits the skin, restoring luster, radiance and softness to prematurely aging skin for a more youthful and healthy appearance.

***Vitafruit* is the live "nectar" or concentrated juice from many different exotic herbs, herbs, and herb fruits,** many grown and picked in the wilds of western China. *Vitafruit* is naturally rich in whole-food antioxidants, Vitamins A, E, a stable C, hundreds of bioflavonoids, B complex, minerals, 2000-3000 carotenoids, amino acids, and *live fruit enzymes*. (Antioxidants, natural tissue protectors, are known to slow down the aging process, assist the body in healing, and stop the body from progressing to debilitating diseases.) Unlike vitamin pills, which provide only known antioxidants, *Vitafruit* provides known and hundreds of unknown antioxidant nutrients in balanced amounts.

***Vitafruit* also helps the body keep the proper acid-alkaline balance which is so vital for your well-being.**

**What's the Secret of *Vitafruit*?** Once, when asked what the secret of VitaFruit was, Dr. Chen answered that he felt there were naturally occurring nutrients in the *Vitafruit* that mankind had not discovered yet. Later, one of the chemists in the Sunrider Lab was asked about the bioflavonoids in the Vitamin C family in *Vitafruit*. He said, "You only want to know about the bioflavonoids? With our special new equipment, we can see 200 to 300 flavanoids in the Vitamin C family, bioflavonoids being only one type. Mankind has not identified or given names yet to these flavanoids." When asked about BetaCarotene, the chemist confirmed that they could now see 2,000 to 3,000 carotenoids in the VitaFruit. BetaCarotene is only one type in the Vitamin A family.

**Skin Challenges?** *Vitafruit* supports the natural collagen of the skin. If you have skin problems such as rashes or spider angioma that are collagen failures, Dr. Stephen Smith of Minneapolis, Minnesota, suggests mixing your *Vitafruit* in a cool cup of *Assimilaid* (A.D.) tea. This is a good skin fortifier and supports the body in puffing the proper fat and collagen around the organs and in the skin. Eating *Vitafruit* with the *Beauty Pearl* is another way to feed the collagen building nutrients. Collagen is the element in your skin that keeps you from getting wrinkles. Remember all the other parts of your body that are tissues.....needing repair?

### **Ancient China**

**The basis for the *Vitafruit* formula came from a Ming dynasty effort to help soldiers stationed in the desert.** The formula was designed to aid the body in rebuilding the membrane in the mouth and the skin after exposure to very hot, dry air. The formula helps the tissues grow back and keeps the skin soft with a silky glow. Legend has it that Genghis Khan discovered these new fruits when he was conquering Asia. When he was in Mongolia, he fed his soldiers the combination of these rare fruits, and he noticed they had more energy, were able to march longer and cope with the heat and humidity. Dr. Chen has reintroduced these fruits to the world today as *Vitafruit*.

**So easy to use! Comes in new 10 pkg. vials.** Drink straight from the vials or pour over ice and add water. Wonderful as a replacement for canned and frozen juices, bottled drinks and sodas. Never heat as it would destroy the live bioflavonoids, Vitamin C, and antioxidants. ***Vitafruit* significantly increases the nutritional value of whatever you add it to.**

### **Ingredients**

Honey (as a natural preservative), Buckthorn Fruit, Luo Han Guo, Lemon Oil, Wintermelon, Date, Orange Peel, Bitter Orange
