ABOUT BRIGHTON ENERGY

With over eight years of managing commercial energy savings programs, Brighton Energy has the experience to collaborate with your business to meet your energy goals. As a California based woman-owned business, we apply local expertise to benefit local businesses. By evaluating your business cycle, facility, energy use, and finances we can provide an unbiased analysis of how you could benefit from efficiency upgrades, self-generation, and other new utility programs. If you've evaluated an energy project in the past, we have access to new technology, incentives, and financing options that might tip the scales in your favor. Should an energy efficiency retrofit, or solar project be the right choice for your business, Brighton Energy will expertly design, permit, manage construction and interconnect the system with minimal impact to your business.
