

For more than 20 years, Solution Tree has been a trusted source of professional learning for schools and districts throughout Iowa, and we continue to provide the **highest quality of customized support to ensure the success of students statewide**. To better assist at the local level, we now have an Iowa office solely dedicated to educators within the state. We are committed to deepening the work already in progress as well as becoming a resource for schools and districts in need of **proven solutions created by expert practitioners who have done the work**.

REGISTERED COACHING ACADEMIES

Six days of on-site training for school leadership teams (three sessions, 2 days each) and a robust selection of resources for each participant and school team, plus phone/email support from the coaches for the duration of coaching academy.

School teams will leave each session with a new set of skills and activities and an action plan for implementing and teaching what they've learned. The result of the coaching academy is a cadre of leaders who will act as agents of change for their school or district.

ABOUT OUR SOLUTIONS

Embed key practices and strategies into the culture of your district with our guidance. Designed by renowned experts, our programs offer the perfect option for districts in the state looking to develop a long-term plan tailored to their strategic goals. Each of our solutions is built on research-based processes to support your staff, confront essential challenges, and foster sustainable change.

Topics are purposely diverse, reflecting the broad interests and impact that are relevant to transforming student achievement in the state of Iowa.
