

'THE THING'

DR FRANC ZALEWSKI

Aluminum-Based Life Forms Found in COVID-19 Vials Under Electron Microscope

Transcription by Luis B. Vega

'Never argue with an Idiot. They will drag you down to their level and beat you with Experience.'
-Mark Twain

The purpose of this report is to provide a transcription of a very import presentation by a Polish Doctor, Franc Zalewski in early October of 2022. It deals with the examination under a microscope the contents of the COVID-19 'Vaccines' and what was discovered. The video of Dr. Zalewski was posted on October 15, 2021 by the YouTube Channel, [Ursachenforschung-Gtz](#). There had been many uploads of this presentation but have been banned by YouTube. And no doubt, at some point in time, those still able to be viewed will be taken down. Thus, the need for a transcript.

It is rather interesting, that if by providence or happenstance, there were 2 other Doctors, 1 in the USA, Dr. Carrie Madej and 1 in South Africa, Dr. Zandre Botha that also came to the same conclusions that the COVID-19 'Vaccine' Vials contained strange Nano-Particulates that self-assembled, self-replicated, and appeared to be Hydra-Type looking. The transcripts of their interviews will also be listed in the Endnotes. The presentation of Doctor Franc Zalewski was given in Polish originally. And the video was subtitled in English. However, no other videos in English exist.

At the time of this writing, there has only been a translation given in German, as is the case from where one has taken that to be translated to English. Given this circumstance, the following is one's best attempt at the English translation. Why the need for such a disclosure? It is important, first of all because the Powers-That-Be are lying about what is in the COVID-19 Injections. It is not about providing lasting and effective Immunization. Since 2020 no such COVID Virus in Human History has 'lasted' this long. It has given the Authorities the Justification to Lockdown the World.

One contends that it is not about the COVID-19 Virus as other forms of ailments and/or conditions plague Humanity more. Other aspects of Society cause the Death of People far greater than that of COVID-19. Such Deaths include Diabetes, Heart Disease, Automobile Accidents. And then all the mental aspects of such Draconian Measures that have caused the Suicide Rate and that of Depression and other Psychological Conditions to skyrocket and has led to Death. All this has been by design and part of a nefarious plan to control all of Humanity, right down to the Nano-Particles being injected into People that will take over one's body. The following is the transcription wherein, some letters, phrases will be emphasized and formatted.

...Here we can see a 'Hole'. We see a Graphene Tap that was used as a surface which created many Crystals. But some were so aggressive, that even the Graphite melted a bit. And I thought I had found something of course. I did Tests and it turned out to be 'Salty'. This liquid turned out to be a Saline Solution. There was nothing else in it. So, I keep going in. In the 1st Sample, nothing was found. Everything was dried-out and even the Salt could no longer be determined. So, the Composition of the various liquids in the 2nd CV Sample. In the 2nd Sample, there were a lot Crystals found.

And here, we can see the results. You can see it consist of Sodium (Na) 14.4% and Chloride (Cl) 28.08%. This is what we or do for cooking, Normal Table Salts. So, the Fluid contains only a Saline Solution. But I am looking for something else. And 'This' is what I found. I found this 'Thing'. Any Markers? We have to write with Capital and Bold Letters, 'That Something'. I continued my studies; went on and carried out Tests to determine what is this 'Thing'? It seems to have 1 Head and 3 Legs. I carried out Tests, of the Head 1, 2, 3 and 4 and these are the results.

It is Aluminum and Carbon. Sorry, I have my tools...(Writing on Board) 'The Thing'. The Faint-Hearted ones may leave the room. No, it is not a joke. The results of the following Test are Aluminum...and Carbon. This means that this 'Something' has its 'Legs' in different colors. Here are the Test Results of 'That Thing'. Here is 1/10th of it. (Visually demonstrates with a tape from his head to feet.) If the Head here is 2 millimeters, then the Legs or Tapes would be 25 meters long. The Head 2 millimeters and the Legs 25 meters.

Like that. And I am thinking, what kind 'Being' is that? A 'Thing', something like this Creature that kills People with its Claws. Or something shown in The Matrix will that flies and has tentacles and clinging to other thing? No? That 'Thing' is in these here. (Lifting up a COVID-19 Vail.) And here, you have it on the photo. COVID-19 'Vaccine'. Welcome Friends. This is 'The Thing' that I tested in these samples. Yes? Shocked? This 'Thing' is being given to People in the 'Vaccines'.

But then, I was searching for its 'Eggs'. And they should have a 'Suitable Environment. if you have the Injections on the bare Dish, nothing happens and the eggs cannot be found. Perhaps, they were not in the injection, because some of them are pure Saline and are embedded on the Graphite Tape That is why they are added inside the 'Vaccines' which nourishes the 'Eggs'. This is what is inside the Vaccinated, Ladies and Gentlemen. You may faint knowing that something like that is going to develop inside you And the 'Head' will have 20 microns [μ]... and 2.5mm tentacles length. This is a Life form.

Now, you should ask yourself. Too small? A coincidence... Frank just got it?...Even a blind Squirrel sometimes finds an Acorns sometimes. I have area numbered 1, 2 and 3. Only the 3rd marked was the 'Thing' inside. And it grew/developed in 4 day. The Tentacles were put into a Sputtering Chamber. There, the temperature is high, so that the Graphite is sputtered so that the... Arc burns. There were more than one! If it was only one... but here, can we see one more. We can see the Head and Legs come out.

The scale is 30 micrometers [μ]. The 'Thing' has found 'Fertile Ground'. And here we have 'The Thing' smiling at us. Here is the 'Head' and here are the Tentacles. (Pointing to slides on the screen.) Here is another one and the colorful Tentacles. And it is made of Aluminum and Carbon. So, do we know any Aluminum Based Life Forms? Now the majority of People already have it in their bodies. Most have that taken voluntarily. I am very happy that we are here have gathered and that I have them this thing can present 'The Thing'. And again, 'The Thing' inside of another Sample. Is this a Plant? Dust? (Pointing to slide on screen.)

This is what is a being given to People in 'Eggs', in a Fertile/Suitable Environment. Well, somewhere here close-by, there might be some sort of 'Signal' given ;'The Thing' to start, 'Living'. Just as a Pinecone Seeds will not grow unless they will be in a Suitable Environment on Fertile Ground, the same with 'The Thing' seems to not be moving. It may be dormant/sleeping. Who is willing to have That' inside of you? Many of you have already chosen and received it... Welcome. I hope it will not be activated.

Let us continue with the next Tests and Points. Here we have Aluminum-Based Life Forms. Do we know any Aluminum-Based Life Forms? I am asking the smartest Representatives of this World. Let them present it... but not in secret. This is the end of a Tentacle/Leg. The way it is build; it is not jagged. It is built like that. It ends with a 'Paw'... And it is made of Aluminum, 100% Aluminum. We now have Aluminum-Based Beings which are inside of us.

Here we have 10 microns and this is the 'Leg'. The length of this being's Leg is around 2.5mm. This is 'Life'... but different. Will it be benevolent? Perhaps we should hang-up a Poster somewhere here... For everyone to surrender to Euthanasia, voluntarily? The Criminals of this World... You hear well. Those are the results of the Tests. It is made of Carbon. Excuse me, I meant Carbon, not Aluminum. But the end is made of Carbon only. I made a mistake. This is the Brand (Points to slide of Pfizer vaccines on screen.) that is manufacturing this 'Healing Potion' for our 'Happiness' and 'Well-being'.

And now it is worth to ask, why some People get an Injection with only a Saline Solution, and why some get something else – the 'Eggs'? But this is not for me to find out. I am a Seeker of the Truth, but not of this World. This World, we have to realize, is almost already lost. Just look at the Statistics? How many People have already taken it. Yes, we do have a lot of Bacteria and Viruses which we have to cope with. And we continue to live. But no one was giving them to us artificially. Now, the majority took it voluntarily.

Do you want to have a 'Being' like that inside of you? It has pretty colors, one can take care of it... But it has not been created to just sit there and to do nothing. It also wants to live and multiply. You need to realize that. And this is not a Hedgehog and also not a Sea Urchin. This is a Swab Brush for collecting DNA Samples. This is a little Swab Brush for Swabbing Samples from the Mouth, or from the other side like in China. Why is the Swab Brush built like that? Each ending is Melted/Sealed. It is not cut off. It is melted. I have analyzed the ends, as well as the side walls.

Here we have the side wall, and here is the melted end. The Swab Brush Contains Titanium, Aluminum, and Carbon. You need to realize that this is about collecting DNA. I was on the airport... and as I was walking by there it was officially written: 'Central DNA Database. And there, they are taking Samples. The Swab Test's purpose is to collect DNA. Why do they need our DNA?

I am inviting you to find out. I am joking, we will not be taking a break now. But who is interested in it? To those that are interested in it, I am happy that you are here today. The room is filled but... There should have been 1 Million of you here today. But perhaps there? Behind the screen there will be 1 Million of you, who will learn about all this.
