

where passion...meets compassion...

Hello,

CAREPLAN USA provides a unique community-based service that assists our clients and allows them to remain safe and independent in their own homes or apartments. We are committed to providing quality, ethical and professional services. Our employees are carefully screened, trained, bonded, insured, and supervised. They are caring, courteous in nature, committed to care, and eager to help.

Our services are flexible and can be arranged for as little as a few hours a week or as many as 24 hours a day, seven days a week, including holidays. Our Caregivers can help with a wide range of activities including companionship, meal planning, preparation, and clean-up, housekeeping, laundry, medication reminders, errands, shopping, as well as escort to and from appointments and events. **CAREPLAN USA's** Personal Support Workers and Health Care Aides can also assist with mobilization and personal care needs if required.

I would welcome the opportunity to schedule a free, no-obligation in-home visit with you and/or your loved one to provide you with additional information about how you or a loved one can benefit from our services. Although you may not require our services in the immediate future, you will at least be aware of the many different ways we can assist you or your loved one if the need arises.

Please give our office a call if you have any questions or to schedule a time that is convenient for you.

I look forward to hearing from you soon.

Sincerely,

CarePlan USA
