### Scripture Activates the Supernatural

January 5th, 2025

My dearly loved family, please forgive me for not posting really current messages for this little season. We had monumental problems with our computers, and I was not able to do anything, and I've still got a monumental problem with my computer, but God is good and He's giving you workarounds. So, what I want to share with you is that things are changing very rapidly. And right now, the Lord's focus is on purifying His heart dwellers, period.

That means we have to take a microscope with the Holy Spirit and look for the places where we have sinned against God and didn't realize it. Things we were ignorant of. He is trying to prepare us for the end -time harvest. I believe, according to Donald Trump's appearance to one of our leaders in a dream. We have four years, a window of four years, and after that all hell is going to break loose.

So, my dear ones, we need to prepare our hearts to bring in the harvest. Now, there are many miracles going on around our country. Amazing things are happening. And if you want to know about them, watch Sid Roth for a while, his recent post. Ordinary people and ordinary pastors are having encounters with God that are amazing. And when they have these encounters, the Lord tells them what's coming and how to prepare for it. Now, there are three people that I do recommend. One is watch Sid Roth, just to see what is possible for an ordinary believer. Watch Kevin Zadai to understand what God is asking of us in this hour and how to change our behavior, how to be cleansed, how to become a vessel unto honor that doesn't have a bunch of cracks in it from gossip or overeating or overindulging or lukewarmness, watching videos all the time and not attending to God in prayer.

These things have made America fat, happy, and lazy. One portion of America, the greatest portion, is just not ready, even the Christians. So, we are reaching out to do things that will make us right with God so we can be trusted with the amazing graces that he's going to unleash for the next four years, miracle after miracle, all around the world. We have to be ready for that by cleansing the sin out of our bodies, our souls, our minds, our hearts. For instance, you know how kids can be sometimes pilfering cookies, or taking something and using it and not telling anyone. Well, I've had several come to me with confessions of doing that, and some of the items were pretty important. Not the cookies, of course, but unless I get in a cookie frenzy. Anyway, they shared with me different things that they needed to repent of. And a major one was not taking God real seriously. And that reflects on the leadership in the sense that if you have the fear of God in your heart, you will also have the fear of God in your heart for your leadership.

And it's been increasingly difficult in the last couple of years to get them to remember things and to be obedient. And I chalk that off to what the witches are doing because they still come on the property every night. Last night, Father Ezekiel heard a woman hanging outside his window, and after that stopped, he got very sick, super sick, and we had to call the whole community to pray for him, deathly sick. And he came out of it and he was fine. The Lord is protecting him. And the interesting thing about this is that when these demonically inspired workers of iniquity come, they are actually becoming teachers to us. Because every time they raise the level, the Lord raises the level. Every time they do new things, the Lord does new things. And they're actually giving us a thorough education in spiritual warfare.

I expect all of you around the world are going through this right now because it's a move of Satan and Nibiru is closer to the earth and a lot of these demons are coming off of Nibiru and onto the earth and as far as the UFOs go, they're just demons with manufactured bodies and manufactured spaceships. They're demons that know how to work metal and know how to work technology and that's all they are. They're not people from another planet and they are absolutely not what brought Christ to earth. That is a total lie, trying to get people to worship them. And that's what Satan's always trying, isn't it? So, I want you to know, be at ease. You have authority over these entities. They are like little monkeys compared to you being a roaring lion when you use Scripture and rebuke them. Pray your binding prayer, rebuke the enemy, and the other thing is use Scripture as an arrow to shoot at them.

It is written, *"You shall have no other God before you."* It is written, *"No weapon formed against you or prospered."* It is written, *"The Lord is my shepherd and I shall not want."* Scriptures that declare a positive outcome for a negative feeling or negative events is a positive outcome because you use Scripture. The angels of God, I believe descend down into the room when they hear us using scripture because part of their job they're very military oriented part of their job is to support scripture and see to it that the demons obey when scripture is declared and this I think I got from Kevin said I who was in heaven for 45 minutes, but in a supernatural way was receiving instruction from Jesus. And I can tell you everything he has said, except for a few comments about the Catholic Church or the faith, the early church faith. Everything that and he said is pretty on point, he still does not understand the function of the great cloud of witnesses and purgatory and praying for from heaven. He doesn't get that yet, but God's got him on another track.

A lot of people wouldn't listen to him if he started expounding on that and revealing the truth, they wouldn't listen because they don't like that. So, God has got him on His track, and His track has to do with telling us how to prepare for the wars that are coming to our earth, the wars that are coming, and the hardships that we will have to face during this time. He also has good news. He's talked about Brandon Biggs is another person I listened to and Brandon has been sharing about what's going to happen in 2025. I believe the Lord is going to come four years from now after Donald gets into office and straightens and some things out, things of rapture will come on the heels of war. So, we need to be prepared for that. We need to prepare our families. The other person I highly recommend you listen to is Sid Roth, because Sid is very gifted in bringing out people who have had supernatural events take place in their lives and they carry the fruit of it with them, signs and miracles, and other things coming to pass that couldn't be done without God being on their side. These videos that I'm talking about are only 24 minutes long.

Brandon's are short most of the time, the ones that are a little longer are absolutely worth listening to because they have so much information. Sid Roth's the content is about 24 minutes and Kevin Zadai is another one that's about 24 minutes. So, there's time for you to listen to these at night or early in the morning or when you take a lunch break and they're very inspiring. Kevin has been given an absolutely wonderful gift of explaining how heaven operates, how it interfaces with the earth, how the earth operates, how the demons operate, and taking authority over them is not nearly going to be as difficult as it was in the earlier days. He doesn't fast, of course he prays a lot. I mean, a man gets maybe four hours of sleep a night, he and his wife. He prays a great deal. But he doesn't fast, and I think he has some health concerns so he can't. But the Lord is still working through him. One of the things that he presented when he talks about these miracles that happen, like when he walks into a building and people start getting healed. He didn't fast for that, but he did pray in tongues all night with his wife in preparation and in fellowship. He loves the Lord. So, all these things came to him in the 45 minutes that the Lord took him to heaven. Highly concentrated, that's why his messages are mostly only 24 minutes long. So, that's a very rich source of how to prepare yourself, how to operate in the supernatural realm, the guidelines, the pitfalls, and we're listening to him because we're learning from him. Now, he has different methods for getting close to the Lord.

The way I got close to the Lord was simply loving Him and connecting with Him in prayer, listening to music. He comes forward, I dance with Him, He speaks to me, takes me for a walk or a canoe ride, things like that. There's a way that He has worked with me. But this is a new season, guys. It's not just about intimacy now. You have to keep your focus totally on intimacy. And one of the good things I love about Kevin is he makes it so easy to understand that the Lord wants to have intimacy with us.

He loves us. He loves it when we come and talk to him. He knows everything, but He loves it when you come to Him and actually talk to Him. And if you can visualize Him, or you get a glance of Him in the room. That's the time to zone in on Him and share with Him that's the time when He will comfort you in your afflictions and instruct you and what to do next and empower you with grace to finish your race, all of us need to finish a race. And the Lord has sent one of His lovers, Kevin Zadai, a lover of God, to help us discern all the things and prepare for them.

So, I'm going to be sharing more things along that line for a while, because I too want to see you get ready. And I had already started working with the community on certain things that needed to be taken care of to be purified, to be able to carry the weight of the glory. Because ordinary people are going to be getting the weight of the glory, and they're going to get it because they were faithful, they were honest, they had integrity. So, part of my job has been pointing out areas of sin in myself and in the community. Taking things for granted is huge. Disrespect for leadership can pop up every once in a while. Laziness, because we have older, a couple of older vocations and even with the young ones and I do believe that the enemy has been provoking sloth in the community and this is something we all have to look at.

Lukewarmness, we absolutely have got to dive in and fix that. We cannot be lukewarm and participate in the glory cloud that's going to come and overshadow Christians and give them the graces to raise the dead, to heal, to preach. Everything they need is coming, but your vessel has to be airtight. You can't cheat on your income tax. You can't take a penny out of the offering basket, of course, little things tarnish and cause cracks in our vessels, little things you never think about. Let's say you go to buy groceries and you spend more money on yourself, you take money and use money for your personal whatever. That hasn't been going on that I know of, but it could go on. It's a temptation. It's a real temptation. So, we have to go back and dig deep into our hearts with the Holy Spirit and His flashlight and ask Him, "Please Lord, show me where I need to change and give me the grace to change."

One of the other things that I learned that I think is important for you to know is that when you declare Scripture, the angels stand at attention and they come down to make sure that Scripture is fulfilled. They have access to the books of destiny in heaven. The angels can read the books of destiny for your life and they know, they know what they're called to do, so the angels, when they read these books of destiny, when they come down to earth to work with us, they are moving us in the direction of the destiny that we were created for. And the more you enlist the angels, the better. There's angels of accomplishment, and there's demons of failure. You know, there's something that offsets Satan in every category. And Satan just chooses to pick the things that are opposite of what God wants. Cause he hates God and he hates you.

And for all my witches out there, I hope you get it. I really do. Don't you know that he's a liar? He's training you to lie? How in the world is he going to tell the truth about your future? He's not. He's building up a fantasy and giving you perks in real time. But when you die, it's straight to the fire. All of that will just disappear in a puff of smoke. It was all just a narrative. It wasn't in any way true. He hates you, but he pretends to love you because he knows that you're hungry for love.

Well, on that note, I have to say, the Lord is so loving. You know, John Ramirez, when he wanted to take a vacation, he'd been, you know, this lead witch in Brooklyn for years, and he wanted to take a vacation. Satan struck him blind for one year because he wanted to rest. Would God do that? No, He certainly wouldn't do that. That's who you're dealing with. When you deal with Satan, he's a total liar, manipulator. He reads you like a book, and he tells you what you want to hear, but he can't deliver. In no way can he deliver after your death. Before your death, while he's on this earth with you, yeah, he can deliver. You can get all kinds of advanced knowledge and miracles, and you can even some singers go to Satan. Christian singers go to Satan to dedicate themselves so that he will make them popular but I got to tell you pay back is anything but sweet when he's done with you he's brutal. Absolutely brutal and he laughs at you because you believed him you should have known better, but you you hadn't read the Bible and you didn't understand what was going on So you were just in it for the flesh what you could get out of him. And when he's done with you He's gonna spur you in the trash like a dirty rag. Except the trash that he's gonna spur you into has a tunnel that goes down into hell where you will burn. So, don't trust him. Give your life to Jesus ask him to be the Lord of your life to use you many of you Satanists are prophetic. You were created to prophesy you were creative to operate in the spiritual realms. And if God would love to use you, He truly would, but you've chosen a different path. But when God does use you, He has to clean you up first. He's totally got to clean you up first. And that cleaning up process is not really fun, because Satan promises you things and he delivers you things, women, money, food. And when the Lord gets a hold of you and you say you want to be His servant and you want to go to heaven, when that happens, you go through different trials of purification.

His love is always there. His hand is always there. His guidance is always there, but you have to be purified before you can operate in heaven. I feel very badly for those of you who have beautiful spiritual gifts and understandings, but you cannot be used because of your corruption, because of your carnality that would lead people astray. I don't know what got me off on that tangent, but I always like to say that the Lord, when He promises you something, it's true. You have to correspond to that if He tells you to do something and it will have a certain result. Well, you have to do that. If you don't do it, you're not going to get that result. So, obedience, following God in total obedience is your protection and your end reward. It's huge and God does not lie. He's not going to tell you what you have in heaven and then not deliver. That's not his way. He's the one who tells the truth and Satan is the father of lies to cover up how much he hates you who are serving him.

Okay, so moving on, I want to highly recommend to you that you and the Holy Spirit dig deep into the things, things that may be a little shady in your life, maybe relating a story that is in your favor, but it's not really what happened to make other people look bad and make you look good. That's lying and it's written liars cannot go to heaven they cannot enter heaven. So, you don't want to be classified with them. But the joy that you feel when the Lord really engages you when He wraps His arms around you and hugs you, is unlike anything you have ever experienced on this earth. And He makes you feel so secure. He teaches you through words that are in the Scriptures, how to fight Satan and how to fight the devil's wiles, how to prepare for battle.

So, you have nothing to lose by giving your life to Jesus, but everything to lose if you're working for that liar. So, war is coming to this country and to the whole world. There's also a chance that there will be prosperity, at a certain point, where money is given back to the public and then hope NESARA and GESARA thing. And that'll be a window of opportunity for you to prepare for the harvest. Not for you to go out and make your house cushy, but for you to get ready for the harvest.

So, that when the Lord comes, He sees that you are doing His will and He takes you with Him off of this corrupted Earth. And the message from January, the New Year's message that Brandon put out is very revealing if you want to listen to it. And by the way, he's the one who saw President Trump's ear being shot at. And he came forth and told people about it before it happened.

So, there are wonderful things waiting for us in this new year, wonderful things. And for those of you who feel like you've lost it all, a chance to work for the Lord, to be holy, if you think you've lost it all and you've wasted your life, now is the second chance. The Lord is giving all of us who know we have failed and been intoxicated by our own will, self-will. The Lord knows and He feels for us because we do want to finish the race. So, He is going to give us a second chance. And not only is He giving us a second chance, He is also outlining for us what works and what doesn't work. And I can tell you right now there's going to be a lot of cleansing and a lot of repentance for little sins, which are sins and lies nonetheless, and for habit patterns you've formed over the years.

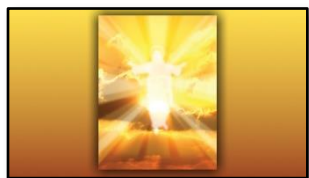

And He wants you to get your bodies in shape too, because you could end up being on the run at certain times and I recommend that you learn how to forage in the forest or in the desert. So, you have something to eat and how to purify the water. This may not happen to everyone but it could happen where goods and services are no longer available.

So, my dearly beloved family, please take this message to heart and do everything you can to prepare for what is coming, but please begin with repentance. Psalm 51 is a wonderful Psalm to repeat every day, even maybe several times a day, and find the Scriptures that you can stand on to survive what is coming. God's protection. The Bible promises have some nice ones under God's protection and help in troubles that you can stand on. Make yourself a card you can put on the wall. The larger-sized cards of five by seven, things you can write on and put it on the wall or on your mirror and bathroom or wherever to remind you to declare those things and to stand on those things. And every time you repeat them, angels come and are standing ready to fulfill those things because they are part of your destiny.

So, I love you guys, and I'm praying for you. God help you. God help us all. We have a beautiful work ahead of us if we will obey the Lord and circumcise our hearts from the flesh and take up our cross and follow Him. The Lord bless you, my dear ones, in the name of the Father, and the Son, and the Holy Spirit. Amen.

## **War and Glory Coming**

January 10th, 2025

Beloved Heart Dwellers, God is our strength and He is with us in times of difficulty. I want to mention there is a move of God coming, dear ones. It is a very great move of God. And in all honesty, I don't believe we have more than four years because one of our leaders had a dream where President Trump sat down next to her on a park bench and told her things won't start happening until he leaves office. But right now we need to pray really hard for him because there's a lot of people against him and Christians who just don't understand. So, there's also a depression coming into our country. And God is going to take care of us, but we have to prepare. One of the reasons why this is coming is because large sections of the Christian Church are lukewarm and not awake at all. They have no idea what awaits them. And as I've said before on this channel, just take a look at the Ukraine and you'll understand what is going to happen when they come here. And why is God allowing this? Because He wants a revival. And in

order to have a revival, you have to bring people down to reality where they really get a jolt and say, "I better get on this." And they start reforming their lives.

Now in this message I'm going to share with you a couple of things that have to be done in order to receive the glory from the Lord, to go out and heal and minister, raise the dead. This is going to be happening just before the Lord takes us for the next four years. It's happening already in many places. And I have to say worship, worship, worship is so important. It is so important to focus your heart on Jesus and worship Him. And the next thing that's very important is the truth. You cannot lie, steal or cheat, not even a little bit. And what I'm talking about here is borrowing something from someone and not giving it back or spending money you know that Lord didn't want you to spend. Oh boy, I gotta say guilty as charged at times. I'm getting better, but it's always a struggle. That's my Achilles heel. Paying exact right amount on your income tax, not buying illegal street drugs. We have to be squeaky clean vessels to hold the glory of God.

Now, I know that all of us had been putting it off but the Holy Spirit now it's here to convict us every single one of us of the things that He considers dishonest because the Lord cannot fill a cracked vessel with His choicest wine or with His glory. That vessel has to be sound and have integrity. And when I say integrity, I mean doing things when you're alone that you know God approves of. We don't ever, ever want to do things that we're not supposed to do hidden in the shadows because that will cause us to lie and cover up and all of those ugly things and it is written liars cannot get into heaven so we have some repenting to do for the little foxes the little white lies as people call them are just as serious as the big black ones so, we have to really search our hearts and make sure that we're pleasing to God.

You know, some people get stuck at Christmas time going into debt because they want to buy all these presents, but that's not what Christmas is about. So, the best thing to do for Christmas is to give something to someone that reminds them of the Lord and of the manger and the Lord coming to earth to save us from our sins. It's necessary for us to be pure and not worldly. And right now, I just want to confess that I got a little worldly at Christmas time. Little things. This is where the little foxes are. Things that cost a dollar fifty or something like that. Little things. And also, we have a family staying with us, and I bought a bunch of toys for them because they came from Japan, and they didn't have any toys. But that's an act of charity. Still, we can even miss the mark on an act of charity and go overboard. And I hope you all are praying for me, because I just got through Christmas and New Year's in more in prayer and in loving the Lord, feeding the poor.

We put a little choir together and we went out with a beautiful banner of the manger, the size of a garage door, two garage doors. We went out and we erected that and we put light on it from behind and it was absolutely beautiful. And we sang Christmas carols, things about Jesus. And people stopped, honked, did all kinds of things. Hopefully people were reminded what Christmas is about because everyone's running around shopping and their to-do list and but it's about him and about salvation coming to earth. So, that was our little contribution as well as food and some well-needed clothing items for the poor.

If there is a sudden burst of money from all the stealing that is then done behind closed doors. When that money comes, dear ones, it's for preparation and for the poor. Take care of the poor, take care of others, and prepare yourself. This is a break, a window of opportunity the Lord is going to give us, but we have to use it unselfishly. We can't be selfish. We have to share and have the best interests of souls in mind. In other words, think about what you can do for others to help and to prepare instead of thinking only about yourself. God is looking on and He wants to see whether your heart is true to Him or if you're full of self-interest and selfishness. That Kevin Zadai is talking about. Kevin is a good prophet. He's wonderful and you can listen to him. He's just, he's really on point. The Lord took him to heaven and prepared him to come back down to earth and get things straightened out. He has a gift for that. He was an F-16 pilot and flies all kinds of birds all over the world. He's very intelligent and he's extremely obedient and that's the next thing I want to talk about.

Kevin was brought up in a good Christian family, and he was taught to live the truth, to be obedient, and all the things that a young Christian man needs. Well, when he was in his late 20s, I think, he was at the dentist's office, some kind of surgery was being done, and he coded. He died and went to heaven, and the Lord kept him there for 45 minutes and explained many extremely important items of readiness, how to prepare for what is coming, because the Lord is going to let the hammer fall on America. But we can pray for America, that people will wake up faster. And that has the ability to soften the blows of what has been planned for us, because we're so carnal-minded in this country.

Kevin, he had brought up something that I really didn't know about. The Lord had revealed to him when he was in heaven, and that is that more angels have been assigned to us like a room full of angels instead of just one guardian angel. Angels have been assigned to us because the enemy has more demons all the time coming out to serve them. So, He sent angels to offset that and to help you stay straight, stay in your track and to be generous and not lay up things just for yourself but help others. But the main thing is that if we want to carry the glory, so I'm encouraging you to be very very honest, have integrity and be obedient. Obedience is amazing. And this is what Kevin was sharing on his channel, "The Lord said to him, '*You have always been obedient to me. You have always done what I asked you to do. I'm sending you back to earth to prepare My people for what is about to take place.*'" So, he qualified for God's glory by his honesty and his faithfulness.

And if we want the ability to see people healed and stand on legs that were not there before, to see fevers and sickness leave and not kill people, if we want all these things, we have to be worthy vessels, we have to be clean on the inside. So, what I'm saying to you is that obedience is a key component to the Lord trusting you. And when I say obedience, I mean first-time obedience, not Him having to tell you several times, not you zoning it out or not doing it because it was too controversial. No, we have to be obedient to Him. Whatever gifts He's given you, those gifts need to be cultivated, but cultivating those gifts are not going to do you any good at all if you're not obedient and honest.

Honesty is a key factor, and I've asked the Holy Spirit to show me where I might be dishonest, because I want to know, I want to change, and just today something happened that caught my attention. I had to buy some quinoa for the community, and I had told the person who manages the money that it was just in a certain range. When I got on Amazon, I realized it was going to go over that range. So, I really felt the conviction of my angel saying, "You don't have permission to spend that much money." So, I stopped what I was doing and I called him and I told him, and he said, "It's okay, you can do that." So, I had his permission. But if I had just done it anyway without checking with him, that would have been disobedient. That would have been lying. And I'm not talking about thousands of dollars. I'm talking about just supplying the community with a little food, quinoa for sure, is so good during times of crisis. And with a war coming to the United States, we're going to have to think differently. A lot of you out there are preppers and that's great.

If we want to be trusted of the Lord, we have to be obedient in a timely fashion, not told two or three times to do something and the witchcraft attacks up here have been really severe. One of the things that I've been struggling with is my memory. I get up, walk into the other room and I forget what I went for. I get started on a message and it disappears. I've had horrendous computer problems, and I know these are all attacks of the enemy, but I can't blame it all on him. I have to be more motivated, and I am motivated, but going and sitting down at a computer that won't work really zaps that quickly. Lord, you want me to do this, right? Help! So, it's taken me five weeks to work the kinks out of this computer so that I can barely function with it and I'm recording on my phone because I can't type with it. We'll get that settled soon enough. So, we have to be faithful, and we have to be diligent. That's so important.

The church it's, a lot of parts of the church are fat, happy, and lazy, and are just repeating narratives about things. They're not telling you the truth, it's just a narrative, and it's setting up American Christians for a bad fall. Rome has lost the faith. That has been prophesied that Rome would lose the faith, and now it's the seat of Satan. But the church, as the Lord said, will never fail. The remnant is strong and moving forward. The gates of hell will not prevail against the remnant. A lot of people do not understand our vow of poverty. And the reason why is because they haven't dug deep enough. Wealth and affluence brings distractions that pull you away from God. If you keep it simple, where your only joy in life is the Lord, then you stay focused on the Lord. But those who have wealth and do not use it well, buying things for themselves, using their money strictly on themselves and on gadgets, cars, boats, you name it. Those people have to keep those things up. They have to worry about more in their life. The reason Jesus stayed simple and was given alms was because He had nothing. He didn't have a car. He didn't have the frills, a horse, the frills of that civilization. He was on foot in his sandal feet in a very simple garment. That is an example that God set for us so that we would not become entrapped by money.

So, getting our information from another media source is a good idea and I totally, totally approve of Kevin. Although the one thing he hasn't been shown by the Lord is the meaning of the Eucharist and the great cloud of witnesses who pray for us in heaven the same and we would ask a pastor to pray for us on earth. But that has not crossed the denominational barrier yet. And so, Kevin is wonderful for some things, but he's missing the Eucharist.

And as I had said in an earlier message, Martin Luther was not our friend. He brought forth many good things, but he lost two cores, extremely important cores of the church that Jesus Christ established. We lost the intercession of the saints in heaven and the communion of saints, and we lost the holy body and blood of Jesus Christ, which is the one thing that can keep us going when all else fails. So, I encourage you, if you want to listen to Kevin, he's got wonderful advice. But remember, he's missing part of the church, the part that Jesus established. Of course, nowadays, unfortunately, Satan has infiltrated that church and is tearing it apart and it's falling. But what's not falling is the real church, the alive church, the remnant. We are not falling. We are standing and holding the faith that Jesus handed down to us. And someday the Lord will reveal to them the importance of the Eucharist and the intercession of the saints.

You know how important it is when you ask someone to pray for you. There's a breakthrough. Now what if that person that you asked to pray for you was the Mother of Jesus? What would happen then? Well, I can tell you she's amazing. And many times, when we have no other place to go, we've already prayed everything we could pray, talking to the Lord, and so on. She is a wonderful intercessor, and we can speak to her in heaven.

And just to prove a point, Jesse Duplantis, when he was leaving heaven, King David had shown him around heaven, and when Jesse was getting ready to be taken back by the angels, the last thing King David said to him was, "I'm praying for you, Jesse." Now that's a little bomb that should catch everybody's attention. How can someone from heaven pray for us?" Well, they can, and it's written very clearly. If you listen to my seven-part series on what Scripture says about Mary, you'll understand more of what I'm talking about. She is the most powerful intercessor next to Jesus Christ, and people will say, "Oh, no, only pray to Jesus. No, but why do you ask your pastor to pray for you? Why do you call up a friend and ask them to pray for you? Is it impossible for someone from heaven to hear your voice? Not at all. It's transmitted by the Holy Spirit. The Holy Spirit tells her and she has the grace to pray for you and thousands of other people because she was faithful on earth with the little things.

Okay, so to wrap this up, my dear ones, we have all been waiting for the opportunity to really rise up and the violent take heaven by force, it is written. We have to do violence to our bodies, our appetites, our desire for things, our attention on movies and YouTube's that are not holy. This time in season calls for us, even as it is

written in Scripture, deny yourself, pick up your cross and follow me. This is a time that we've been waiting for and all of us have little areas of guilt where we feel I should have done that. I didn't. I should have started that YouTube channel, I should have written that book. I should have written that music and they're carrying guilt in their hearts because they didn't use the graces that were given to them. Guys now is our opportunity to make up for all our blunders and all our sloth. So, I'm asking you, do violence to your body, to your flesh, in the sense deny yourself, deny yourself of things that are superfluous, that are extra, not vital and important, and prepare to really tighten your belt because we're going down in this country, similar to the way the Ukraine went down.

Now we can pray, and some of that will be mitigated. Pray and pray and pray, a lot of bombs that were supposed to go off because people are praying, they didn't go off. A lot of things that were supposed to happen didn't happen because of your prayers. So, now is the time to really buckle down and pray and offer the Lord your Simon's cross. Pick up your Simon's cross. And Jesus left a little faiths for us to carry when Simon the Tanner picked up the cross and carried it for Jesus. That was a sign to us that we too have a part in the redemption in the sense that we assist. Of course, only Jesus Christ can accomplish this salvation of mankind, but He has missionaries. He has assistants. He has pastors, prophets, all of those things, and he uses them. And we need to be used now.

If you've ever wanted to heal people, use the power of God to heal people and overcome situations in their lives that are just horrendous, like the wars going on. If ever you've had that desire, dear ones, this is the time to listen up, buckle up, and get serious about self-denial and prayer. And don't spend money on frills. If you have money to buy food, I highly recommend quinoa as a protein source. That can take the place of wheat also. It's a good protein source and it's kind of like rice. It can be used with stir fry's or can be used in soup and used in a million different ways. Well, that's a little heads up on quinoa.

Alright my beloved ones, I hope you take these things to heart and really get aggressive about preparing yourself for the Lord because He is coming. But before He comes, we are going to have to go through a lot of trials to shake us up. And get us all off of the whole prosperity mindset, in the sense of having things, "Oh, I can buy this, I can buy that," because one of the things that has been in the works is a refund. So, we need to get proactive in preparing ourselves for what is to come, and the first priority is worship, in the secret place to really love the Lord, really touch His heart with your love, and God's Word, all the Scriptures that are written, and this is something Kevin shared with us, the Scriptures, the Word of God is one and the same with Jesus, and the Scriptures, when we pray with the Scriptures, and I'm writing some songs now that are going to be pretty strictly Scripture, when we use the Scriptures to pray and declare, the angels are notified. They know it because they're one with heaven. And they come down to your aid, to your assistance because you've just declared Jesus in the Scriptures.

So, the three things that are so important is prayer and fasting, worship, self-denial, and integrity. And my dear ones, if you can get those things down, you'll be well on your way to being a complete vessel that we can carry the glory and bring it to the lost. I love you all and I am so grateful for your contributions to our channel and I am so sorry for letting you down and not contributing, but we've had monumental problems here. We're out of the mess now. Thanks be to God. And I'm recording on my phone until we can get a little better at this. So, God bless you and keep you. And may the Holy Spirit dwell with you inside of you and give you the strength to say no to ungodliness and yes to the Lord when He asks you to do something or make sacrifices. Obedience and sacrifice. Amen.

## Prepare and Pray For What is Coming

January 15th, 2025

My precious family, may the Lord give you peace and confidence in His provision in these uncertain times. No matter what is coming, the Lord is never uncertain. He has a plan for His faithful servants. We do need to tighten our belts to make room for His gifts, because Jesus is calling His bride to rise up and take the new glory and powerful mantles seriously, resulting in more of God's agenda, less of our old self-serving habits and the world-inspired goals. We are called to rise to

greater levels of faithfulness, circumcising our own flesh as we are moving towards the purification of earth and the thousand-year reign of Christ.

We will find ourselves in situations where we must choose between the support of man versus the support of God and His will for us. There is no easy way to do this. We must all rise up with our hearts focused on lost souls who are headed to hell, not on our next cup of coffee. Guilty is charged. We are used to putting our own needs first, but what if there is only one piece of bread left and a little child beside me hasn't eaten that day. Do we love the Lord enough to give that last piece of bread away to a hungry child, or even a helpless man lying in the gutter, dying? A suffering man made in the image of our beloved Jesus? Or do we would probably hide it. Yes, I am that human, and in the past, I've been self-preserving and carnal. Just ask the community about how I ripen my pairs. But in that moment, if I call upon the strength of God to do the right thing, and then obey what I'm told, I am His bride. I us did what my heavenly spouse would do, as it is written. *"Though he was in the form of God, he did not count equality with God, a thing to be grasped, but emptied himself by taking the form of a servant born in the likeness of men. And being found in human form, He humbled himself by becoming obedient to the point of death, even death on a cross,"* Philippians 2:6 -11.

The bottom line here, my precious heart dwellers, the bride must resemble the groom. Will we remain faithful to him, no matter what the cost. This is how He is going to purify us. The rubber meets the road at the point where your security is threatened. When you stand to lose your life, a family member, your home, will you draw the line, or will you cooperate with what God is doing and keep moving towards heaven. How will you answer the challenges? What is most dear to you?

My precious ones don't wait for that moment to catch you unprepared. We must prepare our hearts now. So, then when things like that happen, we will not hesitate. We will do the right thing. Okay, I do want to clarify what I said about the rapture in possibly in four years in an earlier message. However, resting in the heart of God, we do hear His voice and sense His greatest needs from His bride. He loves us so very dearly and wants to wrap up this dysfunctional planet, but not without every soul he can bring back to his bosom.

My dear ones, we have been complacent and lazy, hoping the rapture would save us. But the truth is that we need to belong to Jesus all the way, not one foot in and one foot out. Well, I trust the Lord, but just in case. That kind of way. If we are finding our security in the world systems, we are compromised. Jesus gave up everything for us. How much more should we give Him? When I said the rapture may happen in four years, that was not directly from the Lord. It came from President Trump speaking with one of our core members in a dream. He said basically, "All hell would break loose after his last term in office. Will the Father allow the bride to suffer through this? Or will he rescue us? We can look at our garments. Are they spotted? Do they have wrinkles? Are they blemished? I believe that all depends on our obedience and self-sacrifice. You cannot obey a God who doesn't know you and whom you cannot hear or recognize. It could be recognizing scripture that is anointed for you by prayerfully allowing the Holy Spirit to open the Bible. We read between the lines, listening

for his still small voice, to apply what we are reading to our present-day challenges. And that can be found on [heartdwellers.org/rhema-page](http://heartdwellers.org/rhema-page).

It could be a bumper sticker, a song, the needs of a family, or a whisper in your heart that quickens you to seek God and obey Him. And that's why we have the rhema cards and we've taught you to make your own rhema cards. In Matthew 22, *"On that day many will say to me, Lord, Lord, did we not prophesy in your name, and cast out demons in your name, and do many mighty works in your name? And then will I declare to them, I never knew you, depart from me, you workers of lawlessness."* Matthew 7:23.

Who are the workers of lawlessness, I'm going to do a message on that, but for now, in all truth, they are the ones who hinder the Holy Spirit working through His body. They are the ones who gossip and reject the emerging move of the Holy Spirit through the body of Christ. They are the ones who negate God's miracles, allowing others to suffer rather than compromise their theology. Just like the Pharisees, they bear no resemblance at all to the bride. I know many of you suffer from illnesses that are discouraged by the delay. However, the Lord has a mandate for you. Bring in the end-time harvest using your suffering as a fast offering as you pray for conversions. The other night Ezekiel was told by the Lord that he is bringing in millions to the harvest right now just by offering his pain, blindness, and confinement to bed while praying for President Trump, America and the world. My dear ones, you have powerful offerings in your sick bed. Yes, you can pray for healing, but if you're carrying a heavy cross that the Lord has allowed and you want to cooperate with it, you've already made the choice to offer it and God will reward you now and, in the world, to come.

There's no regret with Ezekiel, what he experiences in his deepening relationship with Jesus and the Father is worth far more than being able to see or walk or be free of pain. We are not just qualified from the harvest. No, we have big combines and harvesting machines at our service. *"Pray therefore that the Lord of the Harvest that he will send forth labors into his harvest."* Matthew 9. I am just like the weakest among you. I'll be 80 next year with chronic fibromyalgia and other aches and pains so common to our bodies. So I'm with you in the need to rise above my many difficulties. But somehow, the Lord with His grace keeps me going forward. I have wasted much time on myself in my younger years, so I have a lot to do in these remaining years of my life. Let us not be selfish to our last breath but give Him everything we can in gratitude for His sacrifice. If you are faithful in the end, you will be shocked by the fruit you bore in your last days.

I am reminded of the homeless man Jesse Duplantis saw in the vision. Later on when Jesse was taken to heaven, he saw that same man sitting on a throne directing people. He chose to freeze to death covering a homeless man rather than to save himself and abandon the man to death. He is truly a bride. The point I am making is that hard times must come upon us to be refined by the fire. *"Choose ye this day who you will serve."* Joshua 20, 14.

When that refining process has done its job and we are walking in the fullness of who God calls us to be, I believe then Father God will send Jesus to get his bride. so please don't even think about the rapture. Prepare yourself to be His bride by casting away your worldly ways and making room by repentance, prayer, and fasting every day. And you can offer something little every day in a fast. Or you can just fast, we go with the Wednesdays and Friday. So, please don't even think about the rapture. Prepare yourself to be His bride by casting away your worldly waves and making room by repentance, prayer, and fasting. Ask Jesus to repair the cracks in your vessel so it will hold the new glory, a new wine so you can move and live in the spirit realm, loving Jesus and your brother with all your hearts, speaking miracles of healing and regeneration over them, and singing results. *"Therefore, I urge you brothers and sisters in view of God's mercy to offer your bodies as a living purifies, holy and pleasing to God. This is your true and proper worship. Do not conform to the pattern of this world but be transformed by the renewing of your mind."* Romans 12.

This has not been a popular teaching in the body of Christ as of late. Rather, security and influence, healing, have led us into compromise and the status quo, snuffing out mature Christian men and women in favor of comfort and security. Heaven is on the horizon. Trust Him and sing joyous songs to Him, especially in the most challenging moments. and always call upon angels to assist you in your work, especially angels of accomplishment. Lord Jesus, is there something you would like to add?

*"You have indeed spoken the words in my heart. I love each one of you so tenderly that my heart bursts when I think of your homecoming. I am for you, My bride. These words from Revelation spoken so very long ago were in recognition of what Satan will do in order to gain control of the world, which will be allowed to punish evildoers and bring to repentance those who have not known me. My words to you are that you have known right from wrong. You have fought the great fight, but you have also been asleep to the times you are living in. Your prayers, mighty, powerful, and from the heart, have reached heaven and given everyone the chance to live the way they know they should be living in the end times. Mother Clare has recognized her own failures and the sincere need to rise above her flesh."*

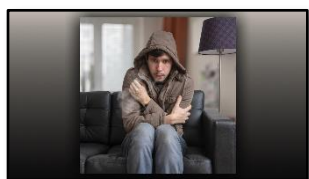

Yeah, and there I have to say, it's true, family. I'm crying out to the Lord, "Lord, please take me out of me, please. Take me out of me."

Jesus continued, *"So, please take this message deeply into your hearts and conform yourself in preparation for what is coming. Knowing that I am with you in all circumstances, standing by the help, call upon me in moments of temptation, and call upon the angels specifically named for the crisis of the moment. What a wonderful reward I have for you. It is greater and more personal than you can ever imagine."*

Stay tuned, because the next message I'll be putting up is how to enlist your angels to protect your time.

## **Heat for Poor Families and Help for Our Staff Abroad**

January 16th, 2025

My dear hard dwellers. This is just a short message before my most recent message.

I just wanna let you know we've been hard pressed to supply the poor with wood, gas and propane. And this winter has been bitter cold.

My dear, once the enemy has targeted our income, making it much more difficult to buy firewood and propane for heating and for the poor. Especially supporting those in the mission field.

These delays hurt several of our staff and two mission couples with newborn babies.

Anything you can do to help us recover would be a real work of charity.

Thank you, my dear ones, for caring and being faithful cause we're here with distractions all the time. And we bind those and pray for the angels of accomplishment that come in.

## Dream...The Glory s Coming

January 26th, 2025

Okay, so Father Ezekiel had an experience with the Lord this morning, and most of the day it was an ecstasy that God had put him in, and then he had a very long dream.

The beginning of the dream seemed like we were in Smith's parking lot. Some of the local people and a few people and habits like ours that were new members of the community, we haven't met them yet, and very much like people like Burmese, Burma, they had that oriental look to their face, but really tanned from the sun, and they were wearing these saffron colors, almost like Buddhists would wear saffron and rust color. And we walked in to the store. Two things happened. First of all, the bigwigs for the store got called in because we were there, but they mistakenly walked in and went too far into the store. We were up at the front, so they walked past us, because we weren't even there, you know?

And then they called the police, and then they called the Church, the official Catholic Church people. Me and some other brothers and sisters that we haven't met yet, they're new candidates to come, and as we walked in and all this hubbub was going on, one of us was holding a tall, like a tree limb, looking like a staff with a monstrance on top, you know?

But it was old and wooden, carved, very rustic, you know, of the people. And we walked down one aisle, came around another, and demons were manifesting, by the way, here and there, they were coming out of the walls of the store and off the shelves and out of people.

But there was a group that started, a group of just, you know, country people that were just walking around beside us. They kept calling relatives and friends and telling them to come, come, you know, something holy was going on. And as we moved toward the front of the store, the monstrance, the Blessed Sacrament, His body, it just appeared, it just kind of formed inside the glass, right?

Oh, so you were carrying a monstrance with no host.

Right. And we got around, coming around, and a host began to form in the monstrance, His body. And the people were very, very devoted people and, you know, poor people in other countries are. And they were kneeling and bowing, and at the same time, you got these, I mean, they even called in Catholic priests and bishops, one or two bishops, trying to tell the people that, you know, not to follow us, that this was not, this was not of God, whatever.

And guess who rounds the corner, but Padre Pio. And Padre Pio walked around, he put his arm in front of me, and he said, you leave these people alone, they're from God, this is from God. And immediately he fell on his knees and started worshiping the Lord. And there were celestial, heavenly manifestations going on around us. So that group began to kind of grow and push the, drown the demons out, push them back.

The police were trying to figure out whether or not to register, you know, tickets or what, but they had a check with the courthouse, it was a snafu, like they didn't want to falsely arrest us. And the church, who's who of the Catholic church, you know, they were dressed in all their back and finery and everything. And you know, they were taking pics and jabs, but the people just kept coming and it just grew and grew and grew. At one point, Padre Pio came in and he put his arms under my arms, couldn't stand, he was holding me up, and my

stigmata began to appear along with his, and both he and I were bleeding profusely from our hands, crown of thorns, our feet, the wound in our side, and it was like heaven just invaded that place. And people were building little shrines and little altars, and I mean, they were bringing flowers and wreaths and all that they could do and be for the king.

It was a grocery store. Well, it transformed into quite something else. I mean, really, heaven just took this place over, forget the grocery store or any of that. Those guys were, the purity and the power and the light of all heaven just invaded the place and spread out and pushed all the darkness back, pushed all the who's who Catholic hierarchy guys and the store security guys had come in from like Albuquerque and they were head security for the grocery chain, and they were completely lost.

I mean, they were just befuddled. So, between the police and the Catholic church guys and the official guys from the grocery chain in Albuquerque, like three hours away from me, they kind of converged, but then they kept getting pushed back and pushed back and pushed back, just like from the holiness from the manifestations of heaven, you know, the fragrances and the colors and the senses, things that you would, perceptions you would perceive were on a heavenly level.

And at one point, Padre Pio went up to, we had planted, there were a lot of seminarians around us and they were ours. They were our seminarians and candidates for the priesthood, as well as several sisters. Everyone was weeping and there was such a deep reverence, profound joy and reverence and happiness. I mean, I would like to say it was as if Jesus himself had come in the flesh, but he did.

And at that point, it just went like waves of heavenly graces and glory and I don't know how to explain it, but just would wash over all of us in waves after wave after wave. We didn't know if we were in heaven or on earth and we didn't care. We were all drawn to the host, the bread that had become his body. That's my point.

Did they see the transformation?

Yes, everyone saw it. They saw him just, you know.

You mean that the monstrance was empty?

Yes, and I was walking with that until a host began to appear, the community, the large wafer that's consecrated, so it's his body in the monstrance.

It wasn't gilded with gold or anything. Everything was very pure, very pure, very deep, very clean, untouched. I mean, unfettered and the Lord himself seemed to be moved. It's like the whole staff animated to where it kept moving and bending toward the children, especially the little children and the little grandmas and the ladies.

Their saffron robes and the rust colored, you know, the Buddhist kind of robes and clothing became white, you know. Everyone was dressed in white and except for Padraig Peel and I and a couple of our brothers and sisters, we were still wearing our brown habits.

And I fell asleep about the time the girls got here this morning, which was what, like 11 o'clock, something like that, until I woke up exactly at 3 o'clock. I came back to myself and 3 o'clock is the hour of mercy. When the Lord died for us on the cross, that was it. So holy, holy, so many connections. And there was nothing superstitious or any of that. There wasn't even a hinge, a tinge of that. It was simply holy. We were all caught up in the purity and the depth of the, I mean, it was so thick, so thick you could just cut it with a knife.

It just pervaded the air and everything around it and everything around us for four hours. I was in complete ecstasy, caught away in really, truly what was more than a dream. I mean, it was so real. It took me a while to even realize that I was back and here in my bed in this universe, on this earth. I mean, wow. So last night we got some scriptures on success and then there was a vision of college graduation, caps, like cap and gown, and all down this celebration table, like a lunchroom tables end to end, with the graduation hats on the plates in the dinner air. And I was given to understand that we were graduating.

I mean, we'd finished at least this part of our course. We were graduating and the Lord was graduating us into a higher level. There was another situation, apart from the dream, this was last night, when I began to see snakes at different times. But as soon as I'd see the snakes, this big foot would come down and just crush these huge anacondas. I mean, this person was that big. And as I looked up, I could see they were dressed in Roman battle armor with a spear in the left hand. It was just one angel and a sword in the right, it was Saint Michael, Michael the Archangel.

And as these things began to come up through, I mean, he was all over the place from one step and he was in Arizona. You know, they'd come out of the rocks there, he'd step on them. They'd come out of the rocks around, coming up and down steps. Even in places like New York, they were coming out of the rocks and crags. One here, one there, never groups. But they were all like constrictors, like boa constrictors, anacondas, those kinds of giant snakes, you know. Come down some rainy steps or something, he was on it. And I have to say, it was as if, like when he stood up, in this spear in his left hand, along with the spear was his shield. He was standing over.

Unfortunately, I missed part of this, somehow it got cut off. But what he was saying is that when Saint Michael stood one foot in New York and another foot on the West Coast, it was as though he were guarding the entire country like a patron saint of America. And I would venture to say it's probably because there's so many Jewish people here, Hebrew people here. I know that my mother hid our identity from me, that we were Hebrews from the tribe of Judah. But she never disclosed that to me, I only found out after her passing. So even the Hebrew people with different names, not like Levi, but other names that are more obscure.

Cryptic Jews who settled here in America, especially in Chicago and New York, and I was born in Chicago. And my ancestry goes back to Prague, where many cryptic Jews took refuge when they were scattered. The Lord bless you, dear heart dwellers. Please press in to the relationship with God the Father.

And more is yet to come. I've got about four messages from the Lord I haven't recorded yet, and I'm going to try and get them recorded quickly so I don't keep you waiting.

Thank you so much, dear ones, for caring about us and help us covering the cost of firewood for the poor. You have such tender hearts, we really appreciate it. And I know a reward awaits you in heaven.

God bless you.

Your Angels Help Fulfill Your Destiny  
1.27.25

Heart Dwellers, don't ever offend your angels. They've been sent to watch over you and help you fulfill your destiny. And this is something I got from Kevin Zadai that I encourage you to listen to his teachings, except he

doesn't understand the sacramental side of the church the same way we do. So, be careful with that. But what I want to say is that these are the end times, and because of that millions of demons have been released on the earth to come against us. And to offset that, the Lord has released millions of angels so that we all have angels that can help us fight the good fight.

So, it is very important that you do not offend your angels. They observe everything that goes on around you, the way that you react to people, the things that you skip and don't do that you know you should have done. Little white lies are poison. Lying should not be part of our repertoire at all, even when we have to cover something up. It's better to be humbled than to lie and try and cover something up and make yourself look like someone you are not. We know about that, don't we?

So, the Lord has released angels for this time, multitudes of angels for each soul on the earth. And they read a book of destiny in heaven. This is what Jesus told Kevin. They read a book of destiny for each soul they're assigned to so they can see exactly where that soul should be going and Make right turns and left turns stop and go and different motions at certain junctions to make sure you stay within your destiny So, the angels constitute a tremendous amount of energy that is being expended from Father God To get us on the right track and stay on the right track so, if your gift is prophecy, you have the angels of God helping you with a prophetic. If the gift is works, you have angels alerting you to what things need to be done, hospitality, that kind of thing. If the gift is administration, you have angels that help you with administration so that the body can be complete and working together. Not just one here, one there, but everyone working together to fulfill each other's destiny. We cooperate as one body.

So, what you can do is when you find yourself in a pickle is call upon the angel for that department of your life. For a mechanic, it would be call upon the mechanic angels to come down and show you what's the matter, why you're not getting it fixed. And also the Holy Spirit is wonderful for that. When I lose anything, I call upon the Holy Spirit to un-cloak it and reveal its location. And most of the time that works, if the item is on the property, puts off the property, it doesn't work. If you're an artist, ask for the angels for artists. If you make rosaries, ask for the rosary angels to assist you. And I highly recommend all of you make rosaries. You can find out how online. If you're in a dangerous situation, call upon the protecting angels and also Saint Michael and he will send the right angels or come himself to defend you and protect you. Always use the blood of Jesus with anything you have a problem with.

Whenever I go to the Bible promises, I always cleanse the Bible promises with the blood of Jesus and ask the Holy Spirit to show me what I need, what the scripture I need to see, to handle the situation. The angels will also be nearby. Ask the Lord to open your eyes to see your angels, and He will. It's going to take some effort, but it's totally worthwhile. And you can hear your angels as well. Eat this, don't eat that. Go there, don't go here. You hear it in the back of your ear, really. It's a light sound, but it's sometimes accompanied by a feeling, a bad feeling that you shouldn't do something. Sometimes it's accompanied by a good feeling that you're doing what he wants you to do. So, the angels are there to help you fulfill your destiny. If you're a musician, you have musician angels, you have traveling angels, you have all kinds of angels to help you fulfill that mission. Angels that are good with lyrics to come and help you when you run out of lyrics for a song, they are there to help you and they work in every department of your life. And what they are there for is to help you fulfill your destiny.

They've read your personal book of destiny and they know what God wants to do through you. And their job is to go down there and help you stay on track, move mountains, fight demons, alert you that you need to say certain prayers, go into worship, whatever it is that you need to do to stay on track. The holy angels will help you. So, I just wanted to do a short on this. The angels will help you fulfill your purpose on earth. So, don't offend them. Be aware of them and work towards recognizing them.

And I've seen them and they do reveal themselves. But you have to slow down from our fast-pace, fast-food environment, slow down and really savor the moment and rest in the Lord and then you can start to see them. But if I get frantic doing something, because they have a demon called a frenetic demon that causes people to be frenetic, then I have to stop it dead in its tracks and wait on the Lord.

Also, enlist the Blessed Mother to help you learn to walk in the Spirit. She's constantly aware of your needs through the Holy Spirit in heaven. That's one of the gifts that those in heaven have. They are aware of multitudes of situations to pray for. So, the Lord is with us and our angels are with us. It does take discipline and effort dear ones to connect with our angels And if we're having trouble, just ask them, "Help me connect with you." And they are there for you to help you through every situation. And Lord bless you, dear ones. We're in a war, but we have a lot of heavenly assistance. Amen.

## World Chaos & Healing of Denominations

January 31st, 2025

The Lord bless you heart dwellers. May his peace keep your hearts steady and firm, moving forward with the assurance that he loves you dearly.

Well, several messages have been about the Father lately and there will be more. And if you want to check back on the heart dwellers website for God the Father messages, there are quite a few from the past. He really wants us to come and

tuck into his heart.

I ask the Lord, what is on your heart today, Jesus?

He began,

*"The chaos which is about to ensue. It is coming and you must be prepared by counting only on me. And I miss dancing with you.*

*I've been a little short on time, dear ones, and I'm really missing him. A smile flashed across his face as he took my hand and moved to a nearby dance floor for just a few moments. That melted my heart.*

*I want you all to be prepared for the chaos and to keep a straight rudder. Come up higher with your prayers. My people, it can no longer be what you feel like and don't feel like. It is the sobering matter of the salvation of your nation. They are planning to hit you from many different directions so that you could be paralyzed and overwhelmed. Pray against this, please."*

Lord, I know the enemy is doing that to me on a large scale. Thank you for keeping me on track.

*"Your own has betrayed you by purchasing critical communications and infrastructure components from China, allowing them to deliberately sabotage vital assets. This was deliberate with the enemies of America that are in America. They have not sabotaged me, however, and the last move is mine. But you and all prayer warriors must join in the fight to survive this. It is the praying Christians of this nation that will have the victory. Don't lose hope. This is just a very rough spot. America, I will humble you. I still love you and will lift you back up again in much glory. Yours is to pray and hold on to the stable ground from which I will raise you up again.*

*Keep your head down, beloved. Rely totally on me. I see that you have noticed that you get quick answers. When you call upon me and my Holy Spirit, you also have noted that answers come.*

*When you call for help, I want you to realize that we are moving into higher ground. Become accustomed to my voice when I answer you. Expect me to answer you in that very moment.”*

Thank you, Jesus. What an answer to prayer.

*“There are more coming. You've been heavily invested with warring angels because of the nature of your ministry for me. Claire, the mandate I gave you in Ezekiel 30 years ago is still the same. Bring the churches together. I am with you both in this and I will direct you. What I want to get across to you and the who's who of the prophetic world is that I will not be satisfied with any of you who bring division in my church. vangelical versus Catholic versus Orthodox versus non-denominational. Satan has succeeded in tearing my church apart and anyone who thinks they have all the answers and the others are the ones in error. Anyone who thinks that is blinded by their pride and I will not be satisfied till all of you humble down and learn from one another. Martin Luther saw the corruption in the church but others more nefarious used him to divide you all to lose the intercession of the saints including my mother and the body and blood which could have nourished and strengthened you against the plans to divide my body. Now look at where you stand my people. Scores of denominations all corrupted just the way my church was corrupted in previous centuries. It is now a shambles but nothing will destroy the remnant. I am raising you up and you will show by brotherly love that we are all one body. Under me there are different cultures and ceremonies but we're all one body and have something in common and differentiating between the way this is done here and the way it's done there and making that a standpoint for division is what I do not want.*

*It's time for the church to unite. It's time for you to recognize my Holy Spirit working in all the denominations and it's also time for you to go deeper to understand the sacraments of the Catholic Church. You are missing some information.”*

Thank you Lord I know you can do what no one else can do. I trust you Lord. I'm praying and looking to ways that I can help the body unite with your grace.

Amen.
