Campaign, Custodian Guardian ask for your support in tackling the 'Climate emergency we are experiencing. Planet Earth is under pressure from human lifestyle choices. Climate changes are affecting in a bad way more and more people and communities. The main

culprit is 'Burning'! Stop burning cigarettes, coal, dung, garbage, gas, oil, uranium, wood, ... The most dangerous part of burning is, SMOKE. In fires the greatest threat to health and mortality is smoke inhalation. On a greater scale smoke rising up into the atmosphere stops heat escaping into Space. Surface water warms, surface land warms, ice melts: Climate Change!

Burning of coal, dung, garbage, gas, oil, wood... ends! BBQ uses non burning energy (electricity, solar...). Bonfires end! Fire pits end! Fireworks end! Laser lights replace them. Garbage is to be biodegradable, recyclable! Garden and other tools use non burning energy (electricity, solar...). Homes use non-burning energy (electricity, solar...). Land clearing uses non burning mulching! Outdoor heating ends! Heating outdoors is not a good idea. Put on warmer clothing or stay inside. Power stations use non burning energy (electricity, solar, waves, wind...). Transport uses non-burning energy. Tackle Climate Emergency by making **'Planet Earth' Smoke Free!**

1 GOD You shall not kill a human

No killing as punishment (execution). No killing by Police (protect & serve). No killing by Evil bad people. All killers go to prison for a long-term. Military is to take prisoners.

New Age time management is used by everyone (21h clock, time triangle, night curfew, 14-month calendar, Fun-day themes, knowledge continuity.)

The good 'Bless You, happy New Year 21'. The bad 'Shun, shame, accountable'.
