RE: Arizona Public Service Company (APS or Company)
In the matter of DCR Transmission LLC's Ten West Link
Docket No. L-21088A-19-0309-00185

APS appreciates this opportunity to comment on the regional benefits of increased transmission capacity in Arizona.

As renewable energy becomes more prevalent, additional transmission capacity will be necessary to deliver increasing amounts of clean energy across western states, which is essential to the attainment of a clean energy future. Further, increased transmission capacity will also enhance utilities' ability to maintain reliability.

Please let me know if you have any questions.

Sincerely,

Rodney J. Ross
