Where smart got its start

We created smartBOX as a well-designed, movable and affordable solution to the need for quiet, flexible work spaces. Constructed using the highest quality sustainable and recycled materials and completely customizable to fit into any workplace, smartBOX manufactures fully equipped quiet pods and workspaces at surprisingly affordable prices.

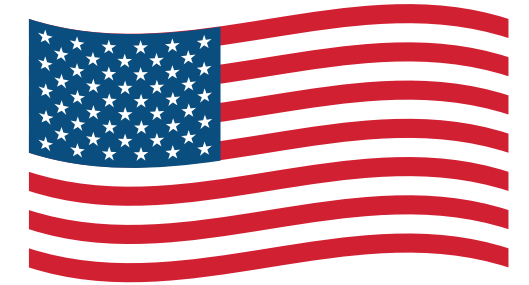

All smartBOX workspaces are manufactured to the highest quality standards in our modern Arizona factory and are supported by our lifetime warranty.

Sustainability

From conception to production, our smart and sustainable design process allows us to manufacture every smartBOX product with the most environmentally friendly materials available.

Smart design minimizes manufacturing time and waste as well as field assembly time. In addition, we ship all products with renewable, recyclable packaging.

All of our products contain a minimum of 75% recycled materials and are designed and manufactured for easy recycling to minimize environmental impact after years of productive use.

MADE IN USA

Our products all have:

- Limited lifetime warranty
- 10 standard laminates
- 8 standard acoustic felt colors
- Custom finishes and sizes available
- UL approved electrical components
- Occupancy sensor automatically controls fans and LED lights
- Adjustable lights
- Wheels
- Made in the USA
