

SMARTHOME

Have effortless mastery over your devices - whether by voice command or at the tip of your fingers. We combine the following elements of your home or office and empower you with the technology to put you in the driver's seat of automation.

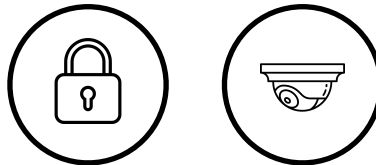

Lights

Set the mood with dimmable lights, or simply switch lights on and off. Use timer features to save energy and extend lamp hours, or program scenes to set the perfect ambiance for any occasion.

Shades & Air Conditioners

Minimize direct sunlight into your home with automated blinds and curtains. With temperature sensors in place, blinds, curtains and air conditioners can automatically keep your home cool all the time, even when you are away.

Locks & Security

A peace of mind that your home and family are safe and informed.

Music, Movies, and Entertainment

Control music around the home, be it digital or analog.

Set a movie scene with a touch of a button.

Control your Karaoke system's power, volume, effects and pitch.

Water Heater & Kitchen Appliances

You can now turn on / off your water heater remotely as well as other kitchen appliances, and keep them on a timer to save energy and keep your electrical bills low.
