

Annual South Central Shooters Club FUN

SHOOT will be held at Bryan's

McCanns' hunting camp near Marksville,

LA. **September 29-30, 2018.** As usual any and all types of firearms are welcome including semi and full auto, rifle or pistol, large and small, including bowling ball cannons. Numerous steel targets will be on the range so everyone can test their skill and

equipment shooting at these all day long out to One Mile. Some of these will be lighted for the usual night shooting. South Central Shooters Club will also have several loud and smokey "Reactive" targets set up throughout the event for some additional excitement.

On Saturday along with the usual Fun Shoot a Precision Rifle /ELR type event is planed to offer a

new experience for long range shooters. Rules are much less restrictive and any rifle is allowed with some restriction on caliber at shorter yardage.

This "Fun Shoot ELR Event" will hopefully add some additional challenge for shooters at distances out to (1 mile). In Addition ***There may be an additional team shoot event. The team***

event is an extreme Practical type match that challenges the shooters on many skills that are not all shooting related. See FCSA website under "Fun Shoot" for more information.

FYI: Weekend lodging available onsite. Many attendees arrive on Friday to setup and get an early start on Saturday morning.

More Info: Registration, Liability Waiver, plus Directions and ELR event rules, available on FCSA website (1moa.org) under 2018 Match Schedule, bottom of page look for Fun Shoots.
