Q6 Edge®

With features like standard 4-pole motors, patented Mid-Wheel 6® Drive Design and ATX Suspension, the Q6 Edge® is engineered to meet the performance needs of the most active user. The Q6 Edge accepts a complete range of seating and electronics options to deliver exceptional rehab capability at an excellent value.

FEATURES

- User weight capacity of 300 lbs.
- Mid-Wheel 6® allows six wheels on the ground for stability
- Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
- Compatible with TRU-Balance® and TRU-Balance® 3 Power Positioning
- Maximum speed of 6 mph with optional high-speed motor package
- Standard 8 amp, off-board charger
- Available with Accu-Trac Advanced Tracking Technology

Q6 Edge® Z

The Q6 Edge® Z utilizes powerful 4-pole motors for maximum torque and Mid-Wheel 6® design for aggressive outdoor performance and precision indoor maneuverability. The Q6 Edge® Z accepts a broad range of exclusive seating and electronics options for unmatched adaptability and rehab capability.

FEATURES

- User weight capacity of 300 lbs.
- Mid-Wheel 6® allows six wheels on the ground for stability
- Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
- Compatible with TRU-Balance® and TRU-Balance® 3 Power Positioning
- Maximum speed of 8 mph with optional high-speed motor package
- Standard 8 amp, off-board charger
- Available with Accu-Trac Advanced Tracking Technology

Quantum® 610

The compact Quantum® 610 is the ultimate choice for users who demand the superb stability of patented Mid-Wheel 6® Design and tight-quarter maneuverability. Highly adaptable, the Quantum 610 accepts a wide range of seating and electronics options while its powerful drivetrain delivers high-performance torque.

FEATURES

- User weight capacity of 300 lbs. (250 lbs. with TRU-Balance®)
- Mid-Wheel 6® allows six wheels on the ground for stability
- Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
- Compatible with TRU-Balance® Power Positioning
- Maximum speed of 4 mph
- Standard 5 amp, off-board charger

LED FENDER LIGHTS

A Superior Power Adjustable Seat Height Solution

- 10" of power adjustable seat height (in 16 seconds) while at walking speed (3.5 mph)
- Advanced functionality and stability strengthens daily independence and quality of life
- Retrofittable on the Q6 Edge® 2.0
- Only available on the Q6 Edge 2.0 with TRU-Balance® 3 Seating System
- 12 exciting color options

FEATURES

- User weight capacity of 300 lbs.
- Standard 6 mph motors offer advanced performance, precise control and responsiveness via innovative single-stage gearbox
- iLevel® option available with up to 10" of power adjustable seat height (in 16 seconds) at walking speed (3.5 mph)
- iLevel is retrofittable on the Q6 Edge® 2.0
- 12 exciting color options
- Available with WC-19 crash-test approved occupied transit kit option on tilt & recline and iLevel
- New LED fender lights

REAR-WHEEL DRIVE

Quantum® Rival®

The Rival® rear-wheel drive power chair features innovative design that provides exceptional outdoor performance and handling while delivering outstanding tight space maneuverability. The Rival accepts a complete range of rehab seating and electronics options.

FEATURES

- 12 exciting new color options
- Compact size for outstanding maneuvering in tight spaces
- Maximum speed up to 7.5 mph with high-speed motor package
- High-performance, high efficiency motor package
- Accepts a wide range of seating and positioning systems
- Sliding battery tray for easy access
- Two suspension packages
- Compatible with TRU-Balance® and TRU-Balance® 3 Power Positioning

BARIATRIC

Quantum® 1450

The Quantum® 1450 front-wheel drive bariatric power base features innovative design that provides exceptional outdoor performance while delivering outstanding tight space maneuverability. The 1450 accepts a complete range of rehab seating and electronics options.

FEATURES

- 600 lbs. weight capacity
- Maximum speed up to 4.5 mph
- High-performance, high-efficiency motor package
- Compatible with TRU-Balance® Power Positioning and a wide range of other seating and positioning systems

Q6 Edge® HD

With features like standard 4-pole motors, Mid-Wheel 6® Drive Design and ATX Suspension, the Q6 Edge® HD is engineered to meet the performance needs of the most active user. The Q6 Edge HD accepts a complete range of seating and electronics options to deliver exceptional rehab capability at an excellent value.

Quantum® 610

The Quantum® 610's highly compact size provides easy access to kid-sized spaces, combined with the true all around performance of patented Mid-Wheel 6® Design. Glide motors and excellent rehab capability make the Quantum 610 a powerful and complete pediatric power chair option.

Features

- Mid-Wheel 6® allows six wheels on the ground for stability
- Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
- Compatible with TRU-Balance® Power Positioning
- Maximum speed of 4 mph
- Standard 5 amp, off-board charger

Q6 Edge® Z

The Q6 Edge® Z utilizes powerful 4-pole motors for maximum torque and Mid-Wheel 6® design for aggressive outdoor performance and precision indoor maneuverability. The Q6 Edge Z accepts a broad range of exclusive seating and electronics options for unmatched adaptability and rehab capability.

Features

- Mid-Wheel 6® allows six wheels on the ground for maximum stability
- Compatible with TRU-Balance® 3 Power Positioning Systems
- Low impact OMNI-Casters (nylon, spherical-shaped casters) on front and rear prevent wheel hang-ups
- ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters and semi-independent rear caster beam for enhanced performance over more varied terrain

Power Recline

- 85° - 175° of recline
- 300 lbs. weight capacity
- Does not increase seat-to-floor height
- Standard shear reduction and cantilever armrests
- Available in 12 back shroud colors
- Available with TRU-Balance® 3 Power Tilt and TRU-Balance® 3 Power Adjustable Seat Lift

Power Tilt

- 50° of tilt
- Lower standard seat-to-floor height
- Unmatched adjustment and durability
- Maintains center of gravity shift
- Available in 12 back shroud colors

10" Power Adjustable Seat Lift with iLevel®

- iLevel® technology enables the unit to drive up to 3.5 mph while elevated at 10" of lift
- Offers 10" of power adjustable seat lift
- 300 lbs. weight capacity
- Available in 12 back shroud colors

Power Articulating Foot Platform

- Broad articulation range for enhanced adjustment
- 450 lbs. weight capacity
- Unmatched adjustment, durability and strength
- Multiple calf pads, calf panel and footplate options

Heavy Duty Power Tilt & Recline

- 450 lbs. weight capacity
- 50° of tilt
- 85° - 175° of recline
- Available in 10 back shroud colors
- TRU-Balance® 2 HD Tilt available for weight capacities up to 650 lbs.

Complimentary Cup Holder

Static Seating

(for Edge 2.0 only)

- Easily adjustable and versatile design that can grow with the client
- Easy customization
- 300 lb. weight capacity
- Accepts a wide variety of after-market seats and backs
- 20° of limited recline adjustment (-5 / +15) via gas strut within back cover
- Available in 12 back shroud colors

Manual Recline

(for Edge 2.0 only)

- Solid curved back pan and 2.5" raised pivot to reduce shear forces
- Attendant activated recline seat
- Width: 12" - 24"; depth: 12" - 24"
- 300 lb. weight capacity
- 175° of recline
- Can be ordered with TRU-Balance® 3 Tilt and TRU-Balance® 3 Static Seating
- Available in 12 back shroud colors

TRU-Balance® 3 Power Positioning Systems

- Make fine adjustments while client is in the chair
- Order your seat width independent of your back width at no additional charge
- Internally or externally rotate cantilever armrests for optimal positioning
- Easily retrofit power tilt, recline and power adjustable seat lift
- Easy back height and depth adjustment
- Easy center of gravity adjustment
- Available with a complimentary cup holder
- Premium accessories available
- Standard attendant control on all Tilt & Recline seating systems
- Tool kit included for quick adjustments

TRU-Comfort 2 Back and Seat Cushion

- Adjustable positioning and pressure management
- Compatible with both TRU-Balance® 3 Power Positioning Systems and the Static Seat Frame System
- Available with four-way stretch, recovery, fluid-resistant or breathable cover
- Additional 1" of viscoelastic foam for maximum comfort and pressure management

Q-Logic 2 Drive Control System

The Q-Logic 2 Drive Control System by Quantum Rehab® is the most advanced power chair electronics package available. The Q-Logic Series creates an adaptable, expandable control system that serves even the most complex needs while delivering a host of exclusive features.

Drive Screen

Seating Screen

FEATURES

- Bluetooth® (standard)
- More programming and customization options for a smooth ride
- Larger 2.8" LCD screen
- Built-in ambient light sensor automatically adjusts screen brightness
- Controller armor available in color matching options
- Enhanced horn volume
- Bluetooth access to computer, tablet and phone functions

Featuring
 **Bluetooth®**
(standard)

Q-Logic 2 EX Enhanced Display

The optional Enhanced Display serves as a separate screen used with specialty drive controls to display system data. With the Enhanced Display's built-in environmental controls, Q-Logic 2 can operate a wide range of appliances that use infrared (IR) remote controls, such as televisions, and serves as a Bluetooth® computer mouse emulator.

Stealth i-Drive™

The i-Drive™ is the most advanced wheelchair drive control in the world! Designed around a proprietary CPU (Central Processing Unit) and unique software, this combination of hardware and software supports four powered switches and four mechanical switches. The optional configuration software updates whenever internet connection is available.

The drive control works at a frequency of 16kHz, which provides real time user interface and results in improved driving efficiency, better feedback, smoother control and a more intuitive "feel." Increased user confidence and a more effective learning curve may result from this increased responsiveness.

Our superior positioning and head control products produce a mechanical framework for the i-Drive technology that offers limitless combinations of head, trunk and cervical positioning options.

The i-Drive is our approach to provide the interfaces needed between a wheelchair user and their environment.

Stealth i-Drive™
i-Connect™

Using mechanical switches that may be hard for a client to press or reach? The i-Connect™ provides the capability to utilize fiber optic or proximity sensors for mechanical switch functions with standard mono-inputs. Add versatility and function to your switch controls and get connected today!

Q-Logic 2 Specialty Controls Interface Module*

The Q-Logic 2 Specialty Controls Interface Module offers an enhanced display at a lower cost and is an economical solution to provide specialty controls. On this module, specialty controls run standard through the Q-Logic 2 Drive Control System. Bluetooth® functionality also operates through Q-Logic 2. The module mounts to the TRU-Balance® 3 Power Positioning Systems accessory bar.
