# Tips for safe
FACE COVERING USE

Clean hands before and after touching the face covering.

Remove and store face covering before eating or drinking.

Wash used face coverings with detergent and hot water, then dry on the hot cycle.

Store used face coverings in a bag or bin until they can be laundered.

Use a securely-placed bandana, scarf, or homemade cloth cover.

Always cover your nose and mouth.

Avoid touching the face covering.
It should not hang on one ear, around the neck or be pushed to the forehead.
