CAPABILITY STATEMENT

Consulting - able to advise agencies and corporations on operations and planning, domestic and international sales and marketing, research and development, and modeling and simulation. Skilled in project management and the application of advanced technologies.

Program/Project Management Support - able to create initial project plans and improve existing plans, develop WBS categories, and follow earned-value metrics with respect to cost, schedule and performance. Can provide skilled manpower on short notice.

Sales - able to generate sales, domestic and international. We represent major suppliers and purchasers throughout the hemisphere.

Mission Studies, Alternatives and Technical Analyses, and Reports - able to generate mission studies that weigh current and future demands, conduct technical alternatives analyses showing cost and performance, generate detailed reports to answer critical questions. Able to analyze markets, generate metrics, determine Return on Investment, create business plans, and improve processes.

Strategy and Tactics - able to generate long term strategies and goals, develop policy documents, and generate "roadmaps." Can assist with business or military strategies and tactics, and generate either.

EXPERTISE

Our professional staff includes PhDs, MBAs, and engineers. We have over 100 years combined experience in operations, R&D, sales, finance, and program management. We have assisted with platform and system design, helped clients develop marketing and engagement strategies, and generated detailed reports and studies.

Through a cross-border alliance (R. J. McGregor & Associates of Canada) we assist with sales, ITBs, and financing around the globe and can advise on market growth opportunities in Maine, North America, Scandinavia and beyond. We are proud members of the Maine International Trade Center.

Company Summary
