

**AGT** Water Systems

**HYBRID EC  
WASTE WATER SYSTEM**

**A Very Effective—Non Chemical System to remove a wide range of contaminants from water. From simple to the most complex contaminants**

**System Removes:**

- Oils
- Hydrocarbons
- Metals
- Minerals
- Organics
- Solids
- Bacteria
- Radionuclides

**HYBRID EC**

**Advanced Electrochemical technology provides a complete solution while lowering your operating cost!**

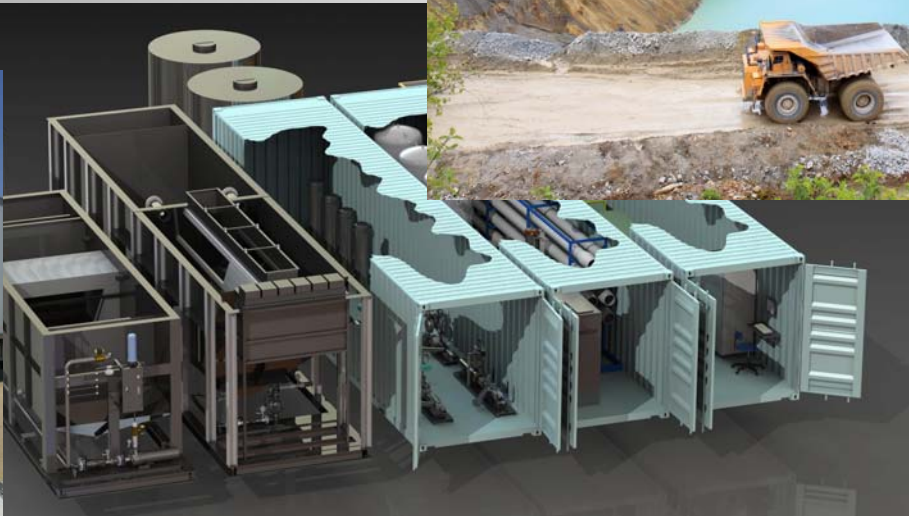

# AGT Water Systems

## HYBRID EC WASTE WATER SYSTEM

These Complete Systems solve the most challenging applications:

- Construction
- Mining
- General Industrial
- Water Remediation

PATENT PENDING

- Self contained, fully automated systems process the water and are monitored with **AGT RSM**
- System Sizes from 5 to 2,000 GPM (140 to 68,500 BLD)
- These mobile systems can be moved as required, with minimal plug and play set-up.
- Integrates with existing, on-site frac tanks
- Fixed site system are available in various sizes as required.
- AGT provides the design, manufactured system, installation and field support
