Composite Average ALL Seminars: 4.0313

Average ALL Seminars:	Expectation	Organization	Stimulating	Activity	Content	Knowledge	Value	
	3.9040	4.0369	4.1879	4.1608	3.9462	3.9509	4.0326	
THIS Seminar:	4.2121	4.0294	4.4118	4.4118	4.2647	4.2059	4.2647	Summary based on (34 records)

Strengths:

Covered a lot of issues. Makes you think.
Manual.
Instructors were very knowledgeable.
PowerPoint and videos.
Informal manner, case studies, twin lecturer approach, freedom of information.
All was strong.
The information provided in the form of the take home material. The manual and CD are great.
Instructors were very knowledgeable on topic. Nice videos, good slides.
Videos in PowerPoint are very informative in backing up topics. Various points of view and topics covered.
Visuals and literature.
Lots of videos that show real life situations that are affecting my course.
Good content/real world hands on.
I will check the CD when I get back, but the book was no good since they jumped around so much. But still the guys were very engaging.
Engaging speakers.
The range and variation in the instructors knowledge was excellent and was able to stimulate interest.
It completely hammered home how important oxygenating a green is.
Slides - videos - instructors.
The instructors and their passion for the subject were the most prominent strengths.
Conversation.
Hands on was good.
Raising awareness to potential physical problems.
Great examples
Great information, good instructors, keep this one.
Both instructors were very knowledgeable and brought out true solutions to problems we see in the field.
Many visual and videos helped to explain their wording.
Very detailed and interesting.
Knowledge of instructors.
Practical application illustrated in videos/slides.
Good teamwork between instructors, very stimulating.
The manual and field experience of instructor.

Weaknesses:

Did not cover all issues. Fluid in delivery, time management could be better to cover all information in manual.
It's a big subject, even for eight hours.
Too much material to cover in nine hours.
All information was solid and useful.
Maybe overemphasized some points but overall was a good seminar.
Jumping around.
Fast and furious information.
Video minor problem.

Not enough time.

Didn't follow the manual all that well.

Suggestions:

Very good. Learned plenty and will certainly revisit ISTRC for help.

Very good topic.

Excellent.

Great job! Enjoyed seminar.

Thank you.

Good day I enjoyed it.

Great seminar.

Awesome seminar.

Great seminar.

I'd recommend it as it stimulated interest.
