

# CARRIER CONSORTIUM

## A COLLABORATION OF TRANSPORTATION PROFESSIONALS

### What is a consortium?

A consortium is an association of two or more individuals, companies, organizations and or a combination of any of these participating in a common activity or pooling their resources for achieving a common goal.

### Why a consortium?

Pool resources to achieve a common goal.

### Common goal?

Provide consistent available equipment to our customers in order to resemble asset-based carriers.

### Consistent available equipment?

By using a pool of carriers, we can offer daily and weekly volume commitments to our customers.

### Daily and weekly commitments?

By making daily and weekly commitments, we can secure competitive pricing on desired lanes and consistent fuel surcharge.

### Competitive pricing?

Due to a pool of carriers, we can price the lanes according to your desired destination.

### Desired destination?

The pool of carriers will be assembled from a variety of states which will allow us to be competitive to numerous destinations.
