

Seraj Library Project Benefit

"What a joy to travel to Palestine through Mai's spectacular cuisine..."

"Blessings to Mai and those who share her table..."

Bid at the Live Auction on a **Palestinian dinner** prepared by **Mai Khader Kakish**

Mai Khader Kakish, board member of Seraj US & Palestinian chef, blogger and food stylist will prepare for the winning bidder an authentic, gourmet Palestinian dinner for 8 - 10 guests in their home.

Almond & Fig is a memoir told through food. I cook to remember Palestine, the place I came from, and to pass that connection on to my children.

Through *Almond & Fig* I like to share meals and my family table with you—to share the food that taught me about my identity, love, and family—the kind of food that makes memories.

Sharing a meal with your family and loved ones is an expression of love. I grew up with the idea that to feed people is to extend a piece of your heart to them. Food plays an important role in forming traditions and social interactions. And I want to create healthy, happy food memories and traditions.

Through my cooking and stories, I hope to inspire you to cook food from an often misunderstood part of the world. And you too can tell stories and make new traditions.
