

High impact bed end panels are more durable, impact and scratch resistant; washable for easy cleaning. Universal low bed end can be used as either the headboard or footboard on the Low Bed.

Interchangeability simplifies storage, reduces inventory complexity. Rubber caster tread for better tracking with non-marring material.

DC low voltage, compact motor system has quiet motor operation and fast cycle time on lowering height of bed for efficient bed set-up.

Washable motor system and frame— Motor system with waterproof enclosures. Washable with standard water pressure. The bed must not be power washed.

Double-insulated junction box provides extra protection against electrical shock.

Ergonomic hand pendant comes with durable strain relief and heavy-duty cord. Waterproof casing for easy cleaning, conveniently attaches to bed sheet with clip or bed rail with hand pendant cradle (sold separately)
