Village Immersion & Volunteering

This program will provide the chance to participate in sustainable community initiatives and learn about critical environmental conservation issues from the local people. Participate in some community projects such as planting of trees in deforested areas, wastepaper recycling, construction of Biogas digesters, construction of safe clean water sources for the local communities in rural Uganda in support of many United Nations Sustainable Development Goals (UNSDGs).

These initiatives are incentive for local people to conserve culture and traditions, as well as wildlife and the natural environment.

Gorilla and Chimpanzee Tracking

This immersive program will take you to two National Parks – **Bwindi National Park** for gorilla trekking and **Kibale National Park** for Chimpanzee tracking.

Bwindi is famous for the rare **mountain gorillas** that call it home. The drive to the park is incredibly scenic, passing through various local villages and the lush green countryside & hills which characterize so much of southwestern Uganda. This forest has one of the richest ecosystems in Africa and the diversity of species and plants is incredible. It provides habitat for 120 species of mammals, 348 species of birds, 220 species of butterflies, 27 species of frogs, chameleons, geckos, and many other.

Chimpanzee trekking in Uganda's Kibale National Park will provide a small group experience with expert guides. Chimps are of course the highlight of the trek but keep an eye out for other monkey species like the black and white colobus. Your guides will be able to educate you on the flora and fauna in the region.
