Resort & Golf Course
Summer Updates

May 2019

The old office looks a bit different with no people or furniture. In early April the office staff packed the entire office. On an early Monday morning the entire staff made the move. By the end of the day most everything was moved to our temporary quarters.

The reception area in our temporary quarters looks very professional and inviting within a few days. The temporary office space has worked out very well, but everyone is anxious to move into the new office.

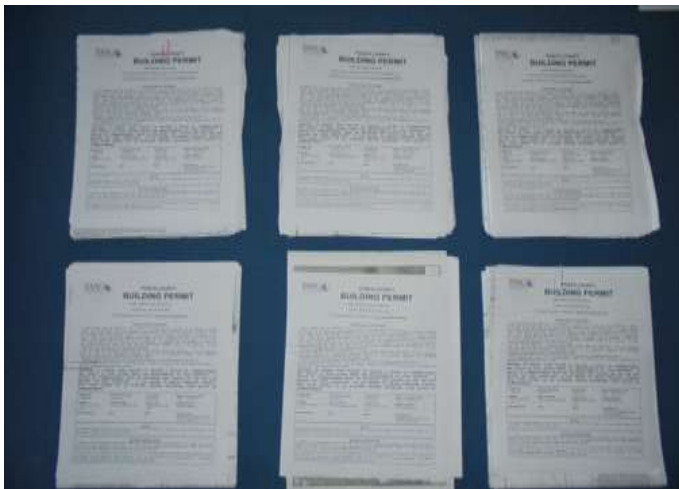

OUT WITH THE OLD

IN WITH THE NEW

The first half of the new office moved into place with the tractor in the rear pushing. Put perfectly into place on the first attempt.

And we are legal. It was a long battle getting all the necessary permits, but success comes to those who are persistent.

Getting ready to pour patios on Row 50 on Golf View.

Golf View nears completion with all the new water and electric service posts. The snowbirds will be happy with all the improvements on their winter spaces.

Residents will be happy when they return to a newly renovated laundry room with all new washers and dryers.

There will be no excuse for anyone to be out of shape with the new fitness center. All of the equipment has instructions for proper use. The fitness center will be open for use 24 hours.

Village street gets facelift with new grates to be installed
