STOP . . . JUST STOP! Have Some Self Control

STOP . . . being a jerk!

- Every time you force the gates open, by not letting them close & cycle thru, before you charge up on them = \$150+ service call
- Every time your kid saws off a tree limb or stomps on park lights = \$150+ service call
- Every time someone runs over sprinklers in the park = \$75+ service call

We're lucky we have a BOD whose members rush out to straightened things out, instead of calling for service . . . SO OUR DUES DON'T INCREASE!

"AND MAY THE ODDS BE EVER IN YOUR FAVOR"

Find the HOLIDAZE Flyer posted on the Community FB Page and follow the simple instructions posted, in order to register - on or before December 10.

MORE VANDALISM Teach Your Children Respect

Kids/Teens on bikes continue to tear up the former putting green area. This behavior is costing us all more & more money, to keep repairing it. This area isn't a bike path nor a sandbox. This isn't being done accidentally, but purposefully. Parents will be held liable for damages caused by their child's destruction.

Nancy J. Boucher - Executive for dzineX 'Technology For Your Wellbeing'

Are you doing any online shopping this season? Of course you are because, let's be honest, 'one-click ordering from home in pajamas' beats 'fighting against the crowd for the last massage chair in stock' any day. Unfortunately, cyber-schemers and scammers know this and they've been preparing.

This year, you can be better prepared. We just compiled a list of four of the most popular scams you need to watch out for this holiday and every day:

1. Holiday-Themed E-mails: Scammers send e-mails that appear to be from trusted sources like your favorite retailers or even beloved charities.
2. Fake Promotions: Cybercriminals create fake holiday promotions and discounts that seem too good to be true.
3. Delivery Notifications: With the increase in online shopping during the holidays, scammers send fake delivery notifications, claiming that a package is on its way or that there's a problem with an order.
4. Social Engineering: Scammers impersonate friends or family members via e-mail or social media, needing money or personal information under the guise of an emergency.

For info, feel free to email Nancy anytime: nancyb@dzineX.us
