General Phrases used in MBT

Intent: The basis within our IUOC for our interactions with our VR experience and other IUOCs

Entropy Reduction: The reduction of disorder within our being as an IUOC and improvement of Quality of Consciousness and increase of Love. A primary goal of Evolution within the LCS

Love: The English word extended by other concepts such as agape, philía, and storgē plus compassion and empathy into a much broader scope than the ordinary meaning which primarily relates to eros from the ancient Greek terminology

Ego: That within our selves as our understanding and beliefs about our selves which is not true, primarily based upon fear

Decision Space: The limitation on your [Free Will](#) based upon your [Quality of Consciousness](#) and [Entropy](#) level. Your Decision Space is also limited by your intelligence, level of awareness and nature within the PMR rule set

Free Will: Your Free Will necessitated by your existence as an IUOC functioning within a [Meta Reality](#) and the nature of Consciousness and the LCS

Meta Reality: A Virtual Reality within which your IUOC functions such as PMR or NPMR and within which you thus possess [Free Will](#) within the LCS. A Meta Reality effectively exists outside of its base reality and is thus called a meta reality

Reality Cell: A cell within the [LCS](#) as it functions according to the [Rule Set](#) within the [Cellular Automaton](#) as the [LCS](#) can be viewed as a deterministic digital reality in the metaphors of pure mathematics that is the basis for all reality and the development of [Consciousness](#).
