

SPECIFICATION

ChargeTime is an attractive alarm clock with USB charging and a minimalist design. Taking up little space on the nightstand, ChargeTime leaves ample room for guests. With two USB ports highlighted on the front of the device, guests will immediately recognize the amenity before doing the familiar crawl under the nightstand in search of an outlet.

Cost effective solution for alarm clock & guest mobile device charging with a small footprint..

- Alarm clock & guest mobile device charging.
- Provide easy-to-find bedside or on-desk charging for guests.
- High-current USB port tablets & fast charging.
- Minimalistic design makes it easy for guests to use, reducing calls to reception.
- Security lanyard to secure the unit and prevent theft, while still allowing movement.
- Simple sliding switch on the side to enable or disable the single-set alarm function
- Display dimmer switch to easily control display brightness.
- Small footprint.

SPECIFICATION

Features

- 2 USB ports conveniently located in the front of the clock, so guests can charge 2 devices simultaneously.
- Dual 1Amp USB ports for charging.
- Single-set alarm.
- Small footprint

Security Options

- Security lanyard secures to rear or under-side of nightstand, to allow for movement while preventing theft.
- Power cable retaining cover, so the guest cannot unplug the device.

General Product Information

Colour(s)	Black		
Dimensions	H	W	D
Inches	2.67	5.67	2.95
Weight	0.230Kg		
Power	2.1A & 1A		

Ease of use

ChargeTime is all about simplicity as too many buttons can become confusing guests. The snooze bar across the top of the ChargeTime doubles as a clock dimmer. Uses a simple sliding switch on the side to enable or disable the single-set alarm function. USB ports prominently located on the front makes it obvious where to plug-in.
