

# GREAT PLANETARY ALIGNMENT

The purpose of this illustration is to examine the June 24, 2022 Great Planetary Alignment. It consists of all the recognized Planets. There are 5 Planets that are visible to the Naked Eye and 2 Planets, Uranus and Neptune that are obscure. One needs either a Telescope or Powerful Binoculars to see them. The Visible Planets, 5 in total are ordered in their Respective Distance from the Sun. All the Planets, both Visible and not, are to the Right Side of the Sun, from a Top View of the entire Solar System. Then consider that the Moon, on the 24th of June, in 2022 is exactly in the place that the Earth should be in that Celestial Order from the Distance of the Sun. In fact, the Planet Uranus is actually there in that position. Moon is at a Waning Crescent Phase with 18% Illumination. Consider the Rapture Correlation here. Of all the Line-Up of Planets, all of them on this Day, the position of the Earth is 'Missing'. But Earth's only Satellite, the Moon, is taking its Place by Proxy. The Moon will pass in front of it, from Earth's perspective. It will be seen one moment, and gone the next, Eclipsed by the Moon. One would strongly suggest is then possibly Prophetic as the Meaning of Uranus is associated with the God or the Sky. Specifically, Uranus is the 7th Planet from the Sun. Its Name is a reference to the Greek God of the Sky. Thus, a 'signaling-out' Earth. That a certain 'Event' is to take place, a 'Disappearance', that is there and then it is gone on Earth, etc. And what would that be? The Configuration appears to be led by Orion, that of a 'Conductor', Illuminating the Way. But he is designating Earth's Place in particular of a Disappearance that is forthcoming. And as People who are Called Pre-Boarding at an Airport, the Line-Up before they board the Plane that takes them into the Sky, i.e., Uranus.

## June 24, 2022 - 4 Days after Summer Solstice

### Planetary Parade led by Orion - Signaling Out Earth's Position with a Disappearance and Rapture Typology

#### OCCULTATION OF URANUS

Uranus is the 7th Planet from the Sun. Its Name is a reference to the Greek God of the Sky. At the precise Day and Peak on the Alignment, the Moon will pass or Eclipse Uranus, as to make it 'Disappear', Vanish.

#### MOON

June 24

Waning Crescent  
Illumination: 18%

18 = 6-6-6

**URANUS**  
Note that the Astronomical Sign for the 7th Planet is a Motif signaling an Upward Trajectory. As it is in Earth's Position, is it signaling the Rapture event to come in the Sky?

#### LAST PLANETARY PARADE

December 2004 = 18 Year Ago (6-6-6)  
And not to re-align until 2040

#### A DIVISION

SOLAR SYSTEM - TOP VIEW  
June 24, 2022: Planetary Parade

- 1-Mercury
- 2-Venus
- 3-Moon / Uranus
- 4-Mars
- 5-Jupiter
- 6-Neptune
- 7-Saturn
