MGWA Director's Minutes

minutes was unanimously approved.

Treasurer's Report: A motion by Joe Gallant and seconded by Frank Hegarty to approve the Treasurer's Report was unanimously approved.

Old Business: Scott Abbotts sent revised By-Laws to attorney for review. Susan Smith will post revised By-Laws and application online and in newsletter. Scott Hodgdon asked who determines membership dues. Dues are determined by Board of Director's. Scott Abbotts commented that the Membership Committee isn't responding to his email requests for Contractor Membership applications. The Membership Committee has three members, Scott Abbotts, Frank Hegarty and Justin Lanphier. Scott Hodgdon suggested increasing the committee to either five or six members, and only three members respond to approve/disapprove the application. A motion by Susan Smith and seconded by Joe Gallant to increase the committee to either five members and when only three members respond to approve/disapprove the application it complete, was unanimously approved. Scott Hodgdon appointed himself and Jim Innis to join the existing Committee. A motion by Joe Gallant and seconded by Jim Innis to hold a special membership meeting on September 20, 2021, at 7:00 p.m. to vote on making Ike Goodwin an Honorary Member was unanimously approved.

New Business: A motion by Joe Gallant and seconded by

Jim Innis to hold a special membership meeting on September 20, 2021, at 7:00 p.m. to vote on making Ike Goodwin an Honorary Member was unanimously approved. A motion by Frank Hegarty and seconded by Susan Smith to approve the MGWA to open a Zoom Account for up to \$200.00 per year was unanimously approved. If anyone is attending NGWA Groundwater week in Nashville and want to be a delegate, please contact a director. Frank Hegarty stated that NEWWA is having an in person meeting on October 2, 2021, to discuss, the spring demo, instead of Zoom, and he is concerned to go to the meeting because of Covid. Joe Gallant is planning to go. Going forward, if anyone would like to be attend as a director, please contact Joe Gallant or Frank Hegarty. Scott Hodgdon mentioned he saw online that some companies are selling online directly customers.

Education Committee: None

Legislative Committee: Discussion that drillers need to complete their well logs on the Maine Geological Survey, or legislation and permits may happen to enforce it. It's in our well drilling rules and there is a \$500 fine per well for noncompliance at the Survey. The Director's feel that drillers need to complete their well logs, because pulling a permit for each well will be way more difficult. It was also discussed that instead of a permit system, that to get an occupancy permit, the homeowner would need a copy of the recorded well log.

The built in dry-run and temperature protection features of the Grundfos SQ eliminate the need for additional motor protection devices. The Grundfos SQ can be installed with smaller gauge wire and a smaller bladder tank. This simplifies the installation and lowers the system cost for the homeowner.

Conventional 4" pumps do not have integrated motor protection and require a larger gauge wire for starting current – increasing the cost to the homeowner.

Another reason to use the Grundfos 3" SQ.
