Member Resources

- **Available on the Website:**

- Document on how to import semen and embryos
- Results of study on genetic variability in Canadian sheep breeds
- Videos on how to use paired tags, place tattoos and dock tails
- Updated “Terms and Conditions for the Sale of Purebred Sheep”
- List of “Recognized International Breed Associations”
- Form for ordering replacement tags for registration
- Scholarship Applications
- Breed Information and statistics
- Facebook integration

- **Newsletters:**

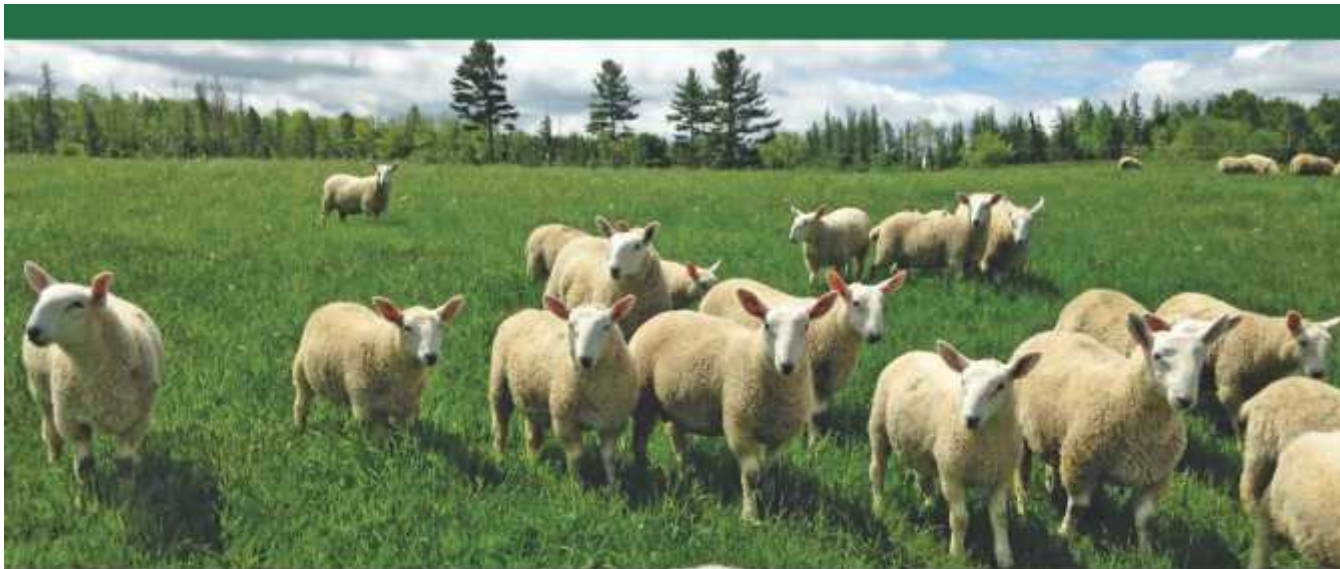

- Quarterly updates are emailed to all members through CLRC and posted on the website

Promotion

-
- 15% of net income from CLRC set aside for promotion each year
 - **Promotional expenses in 2017:**
 - \$1,500 for Royal Agricultural Winter Fair
 - \$500 for Agribition
 - \$2250 for Provincial level 4-H Sheep Events
 - \$2500 for videos on tattooing, dual tagging and tail docking
 - \$20,000 allotted to develop a significant national marketing campaign including joint Mexico delegation opportunity with CSF, editing and reprinting the conformation booklets, and national ad campaign promoting CSBA

Conformation Booklet

Guide to Breeding Stock Selection
Criteria for analysing conformation in the selection of breeding stock

Produced as part of the training material for a course on genetics and conformation

CEPOQ
 Centre d'expertise en production ovine du Québec

Société des éleveurs de moutons de race pure du Québec

Produced by the Centre d'expertise en production ovine du Québec
 In partnership with the Société des éleveurs de moutons de race pure du Québec

Evaluation of the forelimbs

Forelimb evaluation

WELL PLACED	NARROW AT THE KNEES	OPEN AND SPYFOOTED
An imaginary line can be drawn from the tip of the shoulder and through the middle of the knee and hoof.	This defect is encountered frequently in some breeds. Watch the other in a good will.	From a leg show wide knees in the knees. This defect can affect longevity.
VERY DESIRABLE	NOT DESIRABLE <input type="checkbox"/>	NOT DESIRABLE EVALUATE IF TAMTAMSS <input type="checkbox"/>

Other defects that may affect the forelimbs

TWISTED LEGS	SPYFOOTED LEGS	MAJOR DEFECTS OBSERVED IN FORELIMBS
This is a defect in which the legs are twisted and can be transmitted to offspring. Obvious lack of capacity.	Defect is a problem especially if this is a ram to mate (for breeding) because the animal that has this defect.	The image on the right demonstrates poor positioning of the front legs. The knees are properly aligned. Above an ideal knee: knees are properly aligned. Below an ideal knee: knees are not properly aligned.

Research

-
- 10% of net income from CLRC is set aside each year for research in the following year
 - Funding 2017 to date:
 - \$10,000 in the support of GenOvis (matching funds will be used for research at the University of Guelph)
 - \$1000/year for 2 years for genomics/feed intake/carcass quality study at U of A
 - \$1000 for hormone research on out-of-season breeding in ewes (Nova Scotia)
 - \$1000/year for 3 years for development of pen-side pregnancy detection kit
 - \$5000 for developing new growth curves at CEPOQ
 - \$8000/year for 3 years for developing a pneumonia vaccine through the Veterinary Infectious Disease Organization
 - \$1500 for Fibre/feed intake study at Ridgetown College, ON
 - \$4500 for Mastitis research

GenOvis

- Canada's national genetic evaluation program
- In 2013, CSBA became equal partners with OSMA and CEPOQ

Province	Enrolled
Quebec	90
Ontario	33

Other Activities

- Sheep Value Chain Roundtable: annual attendance and representation on the Health, Research, Meat Quality and Market Access working groups
- Scrapie Canada: two CSBA representatives
- CSF Sustainability committee: two CSBA representatives
- CLRC: There are 2 representatives from the CSBA on the CLRC board. Lorna Woolsey retired after 45 years. Laura Lee Mills is the new contact at CLRC 1-877-833-7110 ext 314

New Initiatives

-
- **New GM hired:** The CSBA welcomes Linda Brandes as the new General Manager
 - **Junior membership:** \$10 for members under 21 years of age
 - **Free membership:** for any first-time buyers of new sheep and 6th animal registered free with first batch of 5 registrations
 - **Photo contest: 2nd Annual** opens January 1, 2018, see website for details
 - **Junior CSBA Director:** non-voting advisor role created for members under 21 years of age. Jonathan Parkinson joins the CSBA Board of directors as the new Junior CSBA Director.
 - **Bulk option for registrations and transfers:** pricing breaks in place based on the number of animals registered each year. A rebate will be calculated at year end.
 - **Fee increase/penalty** if animals transferred more than 6 months from date of sale - (\$22 instead of \$11)
 - **Katahdin Sheep Association** is now part of the CSBA

CSBA Finances

-
- 2017 showed net loss of \$ 16,269 but in line with anticipated budget for promotion and marketing opportunities
 - CLRC: registration and transfer numbers increase
 - 2017 detailed financial statements will be available on the website

2018 Events

- **All Canada Sheep Classic**
 - Truro, Nova Scotia
 - July 5th to 7th, 2018
