Monthly Challenge

This month's challenge is to be grateful! With Thanksgiving this month, let's all take a moment each day to think about those things we are most thankful for. Gratitude can be expressed in all things big and small, good and bad, significant and seemingly insignificant, eventful and quiet. Take time to ponder upon your experience, life, surroundings, friends, family and self and then express gratitude in some form for all that you have. Start each day with a grateful heart and see how your life and outlook is transformed.
