35°14'05.44"E (sum =26)

31° + 35° = 66°

The Pyramids of Zion chart series approximates the GPS distances from the Dome of the Spirit. This topographical study strongly suggests that the Dome of the Spirits is where the actual spot was and is and will be for the Temple of YHWH. It is from this precise place that very unique distance number values occur that in some instances repeat in difference values. What the chart also illustrates is the prominent correlation to the ORION star constellation pattern that Jerusalem is laid out with. The Gates correspond to the Stars of ORION and the Ecliptic with the positioning of the Silver Gate or 'Gate of Man' is directly correlating to the City Tower. This prominent location has some amazing distance numerical values that will also be highlighted in the subsequent charts. From the Dome of the Spirits, the distances are targeted to key buildings and points of great importance to modern Israel. From this angle and perspective a huge hexagram corresponds to the key points of power of the Nation, be they, media, banking, social, political and religious. The Hexagram's center line runs from the Dome of the Spirits and intersects the Safra Square, Zion Square and terminates at the Pyramid of the area called Beyt Yad Labznim. This pyramid along with the one of the Supreme Court along with the Knesset approximated also the ORION 3-star belt alignment. There are actually 3 pyramids in this area that correspond to the Pyramids of Giza complex, 1) the Labznim, the Supreme Court and the Bank of Israel, which is an occultic upside-down pyramid partial in design though.
