

NORTHERN LAW FIRM NEWTONS SOLICITORS

OVERVIEW

Newtons are a large multi-site law firm with branches across Yorkshire and County Durham

Go Shred worked with them to provide a solution to their complex and particular needs across all their sites

Newtons are now covered in their entirety by Go Shred

THE BACKGROUND

Newtons are a highly regarded firm of regional solicitors with offices in Harrogate, York, Knaresborough, Ripon, Leyburn, Richmond, Darlington, Ilkley, Stokesley, Northallerton and Thirsk.

They provide services to individuals and businesses across a wide range of disciplines including property law, employment law, wills & probate, criminal law, family and personal Injury.

Whether you are involved in a business or dealing with your personal affairs, they always remember how important your case is to you and put themselves in your position. Giving clear guidance when you need it together with an experienced lawyer who will look after your best interests

With over 90 staff and a programme of expansion, their document security needs are very specific and very important to their integrity and reputation.

THEIR PROBLEM

With the very specific needs that a large multi-site firm has, information destruction figures highly on their to-do list. Unfortunately, due to those needs it had proved extremely difficult for them to find a company that could provide exactly what they required.

Geographically challenged as well as the complex spread of disciplines across the sites, it had been very difficult to find a shredding company that worked to the requisite standards, would be economically viable and would actually turn up when they were supposed to

In addition, Newtons are committed to appointing local independent suppliers working to the highest international standards.

This had meant they had spent many years searching for the right company.

THE SOLUTION

After they had been let down by their incumbent for the final time, Newtons' search for a suitable provider brought them to us.

Go Shred met with Newtons and spent time getting to know exactly what they needed. Go Shred staff performed site audits and got to know each of the branches and their particular requirements and finally a plan for effective service provision across the entire estate was formulated with Newtons' input.

Since this was put in place, the service has run seamlessly, with bespoke collections and a 4 weekly pre-collection polling of sites in place to ensure that there is not only a robust and secure collection, but also to ensure that at no time are Newtons paying for visits they do not need.

“ Go Shred have streamlined our shredding and provided a reliable, secure service - perfectly tailored to our needs ”
